## India (2007-2008)

### Employment & Unemployment and Migration Survey: NSS 64th Round : July 2007 - June 2008

Overview	
Type	Socio-Economic/Household Survey
Identification	DDI-IND-MOSPI-NSSO-64th-Sch10dot2-2007-2008
Version	Production Date: 2012-10-20 V1.0; Re-organised anonymised dataset for public distribution.
Series	<p>The National Sample Survey Organisation (NSSO) has conducted a number of surveys on employment and unemployment to assess the volume and structure of employment and unemployment, starting from the 9th round (May-September, 1955). Since the 1970's, based on the concepts and definitions recommended by the Dantwala committee, seven detailed surveys on employment and unemployment have been undertaken once in every five years in the 27th (October 1972-September 1973), 32nd (July 1977-June 1978), 38th (January-December 1983), 43rd (July 1987-June 1988), 50th (July 1993-June 1994), 55th (July 1999-June 2000), and 61st (July 2004-June 2005) rounds. In addition, to meet the need for an annual series of key indicators on employment and unemployment, data on selected items on employment and unemployment particulars of the household members were collected through the annual survey on household consumer expenditure (Schedule 1.0) from the 45th round (July 1989-June 1990) of NSS. In the annual rounds, 'usual activity status' and 'current weekly activity status' of the household members, along with the industry of work (at 2 digit level of NIC code) only were collected in the demographic block of the consumer expenditure schedule.</p> <p>To meet Planning Commission's requirement for collection of employment and unemployment data on 'current daily status', a separate schedule on employment and unemployment, different from that used in the quinquennial rounds was canvassed in the 60th round survey of NSSO (January 2004 - June 2004). In the 60th round, particulars of employment and unemployment according to 'usual activity status', 'current weekly activity status' and 'current daily activity status' of the household members were collected. In the 62nd round survey, a separate schedule on employment and unemployment was also canvassed on the lines of the schedule canvassed in the 60th round.</p> <p>The collection of information on employment and unemployment particulars was as a part of the annual series of the National Sample Survey Organisation (NSSO) which was started in NSS 60th round and repeated in NSS 62nd round. In between NSS 60th and NSS 62nd round, the seventh quinquennial round of NSS was conducted in NSS 61st round (2004-05). The overall sample size for NSS 64th round was comparable with that of NSS 61st round but was on the lower side in NSS 62nd round. However, the designs of these three rounds were different. NSS 61st and 64th rounds were oriented towards demographic design while the design of NSS 62nd round design was enterprise based.</p> <p>Data on migration was first collected by the National Sample Survey in its 9th round as part of its enquiries on employment and unemployment followed by in the 11th &amp; 12th rounds. In these rounds of surveys, migration particulars were collected for the persons in the labour force only. From the 13th round onwards, more detailed information on internal migration was collected. In the 18th round, survey on internal migration was conducted on a much larger scale with a view to provide estimates comparable to the Census data on internal migration. In the NSS 28th round survey on birth, death &amp; disability, migration particulars of the usual members of the sample households were also collected. In the</p>

38th round, the collection of migration data was integrated with the regular quinquennial surveys on employment & unemployment. The same approach was followed during the 43rd round also. In NSS 49th round an integrated Schedule 1.2 providing comprehensive coverage of housing condition and migration was designed. In the sixth quinquennial survey of NSS (55th round: 1999-2000), along with the employment and unemployment particulars, data on migration particulars of the members of the sample households were collected through the 'Employment and Unemployment' schedule (viz., schedule 10). Data on migration particulars were not collected during the seventh quinquennial survey of NSS (61st round: 2004-05).

### **Abstract**

An all-India survey on the situation of employment and unemployment and migration particulars in India was carried out during NSS 64th round (July, 2007 to June, 2008). In this survey, a nation-wide enquiry was conducted in a moderately large sample of households to provide estimates on various characteristics pertaining to employment and unemployment and migration particulars in India and some characteristics associated with them at the national and state levels. Information on various facets of employment and unemployment and migration in India were collected through a schedule of enquiry (Schedule 10.2).

### **Kind of Data**

Sample survey data [ssd]

### **Unit of Analysis**

Randomly selected households based on sampling procedure and members of the household

## **Scope & Coverage**

### **Scope**

In this round, the scope of the survey on employment and unemployment was enhanced with the collection of information on migration particulars of the households, of the household members and of the out-migrants.

NSSO collected data on employment-unemployment characteristics, based on which, estimates of employment and unemployment, measured in terms of three basic approaches, viz., usual status, current weekly status and current daily status can be obtained. The reference period for these approaches differ - it being 365 days preceding the date of survey for 'usual status', 7 days preceding the date of survey for 'current weekly status' and each day of the 7 days preceding the date of survey for 'current daily status'. Data were collected on the activity status of all persons, i.e. for workers, for those seeking or available for work and also for those remaining out of labour force. A worker could be self-employed or enjoy regular salaries/wages or be employed on casual wage basis. Data on this aspect, along with the industry of work of the worker and his/her occupation, were collected during this survey. In order to reveal the multi-dimensional features of the employment-unemployment situation in India, information on several correlates pertaining to it were also gathered. For the purpose of collection of information on industry of activity, National Industrial Classification (NIC), 2004 and National Classification of Occupation (NCO) 2004 was used in this survey. The concepts used to collect data on employment-unemployment are similar to those used in the usual quinquennial rounds.

In the present survey, migration particulars of the households and the household members were also collected through Schedule 10.2 (Employment & Unemployment and Migration Particulars). Regarding households which have migrated to the place of enumeration during the last 365 days, particulars such as location of last usual residence, pattern of migration and reason for migration were collected. Particulars of out-migrants who migrated out to other village/ town, from the household, any time in the past, such as present place of residence, reason for migration, period since leaving the household, whether presently engaged in any economic activity, whether sent remittances, number of times and amount of remittances sent during last 365 days to the households by such former members who had migrated out were collected. Information on the use of remittances received by the households during last 365 days from the members who migrated out any time in the past was also collected. From each of the sample migrants, information on reason for migration, period elapsed since migration, location of last usual place of residence, usual activity pursued at the time of migration, whether a return migrant, etc., was collected. In this survey, to assess the short duration movements of the people of India, for the household members who had stayed away for employment or in search

of employment for a period of 30 days to 6 months, information on number of spells of duration of 15 days or more, destination for longest spell and industry of work, if worked, were collected.

The present round, Schedule 10.2 on employment-unemployment and migration particulars consisted of 12 blocks, including sub-block 3.1.

The first three blocks, viz. Blocks 0, 1 and 2, were used to record identification of sample households and particulars of field operations, as is the common practice in usual NSS rounds. Blocks 8, 9 and 10 were for recording the remarks of investigator/senior investigator, superintendent/senior superintendent and other supervisory officer, respectively. Of the remaining blocks,

Block 3 was for recording the household characteristics like household size, household industry, occupation, religion, social group, household type, land possessed, migration particulars of the households which migrated to the place of enumeration during the last 365 days, amount of remittances received and use of remittances by those households from which there were some out-migrants and monthly household consumer expenditure, etc. Block 3.1 is for recording the particulars of out-migrants who migrated out from the household any time in the past.

Block 4 was for recording the demographic particulars, usual activity particulars, both principal and subsidiary, of all the household members.

The daily time disposition for different activities, for each of the seven days prior to the date of survey, along with the particulars of the activities, such as status, industry, operation (for rural areas only), etc. were recorded for each of the household members in Block 5. For the regular wage/salaried employee and casual labourers, wage and salary earnings were also be collected in this block. Besides, the current weekly status (cws) will be derived in this block from the daily time disposition data.

In Block 6, information collected, from each household member, on whether stayed away from the village/ town for a period of 30 days or more but less than 6 months during the last 365 days and whether the place of enumeration is different from the last upr. For those household members, who had stayed away for a period of 30 days or more but less than 6 months from a household, information will be collected regarding number of spells, destination during longest spell and if worked, industry of work at 2- digit level of NIC-2004 for the longest duration of work. Besides, for those household members whose last upr is different from the present place of enumeration, details will be collected such as whether a return migrant, nature of movement, period since leaving last usual place of residence, particulars of last usual place of residence, usual activity status at the time of migration, reason for migration, etc.

In block 7, information on household consumer expenditure on 19 items were collected. The information on household consumer expenditure derived from this block was used as classificatory variable for analysis of employment-unemployment and migration data.

<b>Keywords</b>	Employment, Unemployment, Indebtedness of rural labour, Usual principal activity, Usual subsidiary activity, Time disposition during the week, Migration
-----------------	--

<b>Topics</b>	Labor Markets

#### **Geographic Coverage**

The survey covered the whole of the Indian Union except (i) Leh (Ladakh) and Kargil districts of Jammu & Kashmir (for central sample), (ii) interior villages of Nagaland situated beyond five kilometres of the bus route and (iii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year.

#### **Universe**

The survey used the interview method of data collection from a sample of randomly selected households and members of the household

<b>Sampling</b>
<p><b><u>Sampling Procedure</u></b></p> <p>A stratified multi-stage design was adopted for the 64th round survey. The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. However, for the newly declared towns and out growths (OGs) in Census 2001 for which UFS were not done, each individual town/ OG were considered as an FSU. The ultimate stage units (USU) were the households in both the sectors. In case of large FSUs, i.e. villages/ towns/ blocks requiring hamlet-group (hg)/ sub-block (sb) formation, one intermediate stage was the selection of two hgs/ sbs from each FSU. Details of the sample design and estimation procedure is given as a document in external resource .</p>
<p><b><u>Deviations from Sample Design</u></b></p> <p>There was no deviation from the original sample deviation.</p>
<p><b><u>Response Rate</u></b></p> <p>At the all-India level, 12,688 FSUs (7,984 villages and 4,704 urban blocks) was allocated for survey. Out of these 12,688 FSUs allotted for survey, 12,589 FSUs could be surveyed – 7,921 in rural and 4,668 in urban. A sample of 10 households was planned for survey from each selected village and urban block.The survey covered a sample of 1,25,578 households (79,091 in rural areas and 46,487 in urban areas) and a sample of 5,72,254 persons (3,74,294 in rural areas and 1,97,960 in urban areas).</p>
<p><b><u>Weighting</u></b></p> <p>For generating any estimate, one has to extract relevant portion of the data, and aggregate after applying the weights.</p> <p>Weights (or multipliers) VARIABLES are given at the end of record of each dataset. The weights (multipliers) are WGT_SS for Sub-sample-wise estimation and WGT_Combined for combined subsample estimates.</p> <p>All records of a household will have same weight figure. In case of those Blocks/Levels, where Item/Person SI.No. is not applicable the field is filled up with 00000.</p> <p>Use of subsample-wise weights (multipliers)</p> <p>For generating subsample-wise estimates based on data of all subrounds taken together, either Subsample-1 households or Subsample-2 households are to be considered at one time. Subsample code is available in the dataset For generating subsample-combined estimates based on data of all subrounds taken together all households are to be considered.</p>

<b>Data Collection</b>	
<b>Data Collection Dates</b>	subround-1: start 2007-07-02 subround-1: end 2007-09-29 subround-2: start 2007-10-01 subround-2: end 2007-12-31 subround-3: start 2008-01-01 subround-3: end 2008-03-31 subround-4: start 2008-04-01 subround-4: end 2008-06-30
<b>Data Collection Mode</b>	Face-to-face [f2f]
<b>Data Collection Notes</b> The fieldwork of 64th round of NSSO started from 1st July, 2007 and continued till 30th June, 2008. As usual, the survey period of this round was divided into four sub-rounds, each with a duration of three months, the 1st sub-round period ranging from July to September, 2007, the 2nd sub-round period from October, 2007 to December, 2007, 3rd sub-round from January, 2008 to March, 2008 and 4th sub-round from April, 2008 to June, 2008. An equal number of sample villages/blocks (FSUs), as far as possible, were allotted for survey in each of these four sub-rounds.	
<b>Questionnaires</b> Summary description of the schedule : The schedule 10 on employment-unemployment for NSS60th round consisted of 10 blocks as given below.  Block 0: Descriptive identification of sample household Block 1: Identification of sample household Block 2: Particulars of field operations Block 3 - Household Characteristics. Block 3.1 :particulars of out-migrants who migrated out any time in the past Block 4: demographic and usual activity particulars of household members Block 5: Time disposition of members during the week ended on ..... Block 6: Migration particulars of household members Block 7: Household consumer expenditure Block 8: Remarks by investigator Block 9: Comments by superintendent / senior superintendent Block 10: Comments by other supervisory officer(s)

10	4.01 - 6.00 hectares	923	0.7%
11	6.01 - 8.00 hectares	395	0.3%
12	greater than 8.0 0hectares	550	0.4%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #27 B3\_q8: whethe migrated to

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=125578 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether the household migrated to the village/town of enumeration during the last 365 days.
<b>Interviewer's instructions</b>	This item is for recording the information on movement of the sample household. If the entire household, as now being enumerated has moved to the place of enumeration during the last 365 days preceding the date of survey, the same will be considered for recording 'yes' against this item. If one member of the household has moved ahead of other members to the present household and others have joined later (but all of them during the reference year) such cases will also be considered for recording 'yes'. Where, some members of the household were born or married into households which have moved, during the last 365 days, the entire household is to be treated as moved to the place of enumeration. When more than one household migrate to the village/town of enumeration and merge into a single household, the merged household will be treated as a migrant household. For such migrant household, the information for items 9, 10 and 11 of block 3 will correspond to the household (as it existed before migration) to which the head of the merged household belonged. Within a village or town, shifting of house from one locality to another should not be considered as migration of the household. The entry will be recorded in codes, i.e., 1 for 'yes' and 2 for 'no'.

Value	Label	Cases	Percentage
1	Yes	4371	3.5%
2	No	121207	96.5%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #28 B3\_q9: Location of last usual place of residence

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4353 /-] [Invalid=0 /-]
<b>Pre-question</b>	Check whether the household with code 1 in item 8, then the migration particulars of the households will be recorded in items 9 to 11.
<b>Interviewer's instructions</b>	The type of the place from which the household moved to the place of enumeration is to be recorded in codes.

Value	Label	Cases	Percentage
1	Same district: rural	1493	34.3%
2	Same district: urban	497	11.4%
3	Same state but another district: rural	610	14.0%
4	Same state but another district: urban	675	15.5%
5	Another state: rural	514	11.8%
6	Another state: urban	543	12.5%
7	Another country;	21	0.5%

## File Block-3-household-characteristics-ecords

### #28 B3\_q9: Location of last usual place of residence

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #29 B3\_q10: Pattern of migration

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4306 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	The pattern of migration of the household is classified as either a temporary migration or a permanent migration. The movement of the household to the place of enumeration may be treated as a temporary migration, if the household intends to move again to the last usual residence or to any other place. If the household, in normal course, is likely to stay at the place of enumeration and does not plan to move out of the place of enumeration, it will be treated as a permanent migration. If the pattern of migration is temporary, code 1 will be recorded and if the pattern of migration is permanent, code 2 will be recorded.

Value	Label	Cases	Percentage
1	Temporary	2672	62.1%
2	permanent	1634	37.9%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #30 B3\_q11: Reason for migration

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4345 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	For each household, which has migrated, the reason for such migration will be ascertained and recorded in codes. While ascertaining the reason, it may be noted that though different members of the household may have different reasons for migration, only that factor which is the basic reason for migration of the household is to be ascertained and recorded. This reasons for migration of the household is to be recorded in terms of the codes:

Value	Label	Cases	Percentage
01	In search of employment	821	18.9%
02	In search of better employment	884	20.3%
03	Business	238	5.5%
04	To take up employment/better employment	890	20.5%
05	Transfer of service/ contract	614	14.1%
06	Proximity to place of work	84	1.9%
07	Studies	374	8.6%
08	Natural disaster (drought, flood, tsunami, etc.)	23	0.5%
10	Social/political problems (riots, terrorism, political refugee, bad law and order, etc.)	24	0.6%
11	Displacement by development project	14	0.3%
12	Acquisition of own house/flat	78	1.8%
13	Housing problems	75	1.7%
14	Health care	20	0.5%
15	Post retirement	19	0.4%
16	Marriage	69	1.6%
17	Migration of parent/earning member of the family	0	0.0%
19	Others;	118	2.7%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #31 B3\_q12: Any Former member migrated out

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=125578 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether any former member of the household migrated out any time in the past

## File Block-3-household-characteristics-ecords

### #31 B3\_q12: Any Former member migrated out

Value	Label	Cases	Percentage
1	Yes	53961	43.0%
2	No	71617	57.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #32 B3\_q13: No. of members migrated out - male

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-11] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=43185 /-] [Invalid=82393 /-]
<b>Interviewer's instructions</b>	Items 13 and 14 will be filled in for those households with entry 1 in item 12, i.e., for those households from which at least one former member had migrated out. The number of male and female members who had migrated out any time in the past will be recorded in items 13 and 14, respectively.

### #33 B3\_q14: No. of members migrated out - female

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-11] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=29954 /-] [Invalid=95624 /-]
<b>Interviewer's instructions</b>	As given in q13

### #34 B3\_q15: Amnt. of remittances received during last 365 days(Rs.)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-3000000] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=31416 /-] [Invalid=94162 /-] [Mean=25848.647 /-] [StdDev=48901.283 /-]
<b>Interviewer's instructions</b>	This is to be copied from the entry made in item serial number 99 against column 10 of block 3.1.

### #35 B3\_q16i: Use of remittances - first code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=29963 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	this item relates to how the remittances, received by the household, were used. In some cases, remittances received and income/ receipts of the household from other resources may be merged together and may be used by the household for any purposes. As such it becomes difficult, in those cases, to distinguish the use to which the remittances are put from the use to which other receipts of the household are put. Still the household should be able to identify some categories, among those listed in code list for this item, on which expenditure has been made possible by the remittances or on which expenditure has been increased to some extent due to the remittances. Provision has been made to record at most 3 such 'uses' of remittances, in codes, in the descending order of the amount used. If an equal amount was spent on two or more of the items listed in the code list

Value	Label	Cases	Percentage
01	For household consumer expenditure on food items	20093	67.1%
02	Education of household members	485	1.6%
03	Household durable	274	0.9%
04	Marriage and other ceremonies	579	1.9%
05	Health care	2046	6.8%
06	Others items on household consumer expenditure	2727	9.1%
07	For improving housing condition (major repairs, purchase of land and building)	1045	3.5%
08	Debt repayment	939	3.1%
10	Financing working capital	140	0.5%
11	Initiating new entrepreneurial activity	30	0.1%
12	Saving/investment	743	2.5%
19	Others	862	2.9%

### #22 B31\_c2: Sex

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=100646 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1	Yes	54175	53.8%
2	No	46471	46.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #23 B31\_c3: Present age

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-100] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=100643 /-] [Invalid=30153 /-] [Mean=29.141 /-] [StdDev=10.946 /-]
<b>Interviewer's instructions</b>	The present age in completed years of all the out-migrants listed in this block will be ascertained and recorded in this column. For infants below one year of age, '0' will be entered.

### #24 B31\_c4: Present place of residence

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=100630 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	For each out-migrant, the place where he/she is now residing is to be recorded in this column in terms codes

Value	Label	Cases	Percentage
1	Same state and within the same district	32610	32.4%
2	Same state but another district	33937	33.7%
3	Outside the state	28772	28.6%
4	Another country	5167	5.1%
9	Not known;	144	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #25 B31\_c5: Reason for migration

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

## File Block-3dot1-out-migrants-records

### #25 B31\_c5: Reason for migration

**Statistics [NW/ W]** [Valid=100235 /-] [Invalid=0 /-]

**Interviewer's instructions** For each out-migrant, the reason for migration will be ascertained and recorded in codes. This reasons for migration of the out-migrants is to be recorded in terms of the following codes

Value	Label	Cases	Percentage
01	In search of employment	10938	10.9%
02	In search of better employment	10432	10.4%
03	Business	1546	1.5%
04	To take up employment/better employment	20667	20.6%
05	Transfer of service/ contract	4892	4.9%
06	Proximity to place of work	485	0.5%
07	Studies	4356	4.3%
08	Natural disaster (drought, flood, tsunami, etc.)	20	0.0%
10	Social/political problems (riots, terrorism, political refugee, bad law and order, etc.)	74	0.1%
11	Displacement by development project	18	0.0%
12	Acquisition of own house/flat	266	0.3%
13	Housing problems	265	0.3%
14	Health care	46	0.0%
15	Post retirement	19	0.0%
16	Marriage	32623	32.5%
17	Migration of parent/earning member of the family	12465	12.4%
19	Others;	1123	1.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #26 B31\_c6: Period since leaving the household(years)

**Information** [Type= continuous] [Format=numeric] [Range= 0-75] [Missing=\*]

**Statistics [NW/ W]** [Valid=97136 /-] [Invalid=33660 /-] [Mean=7.497 /-] [StdDev=7.604 /-]

**Interviewer's instructions** The period since the out-migrant has left the household will be recorded in completed years,

### #27 B31\_c7: Whether engaged in economic activity

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=100634 /-] [Invalid=0 /-]

**Interviewer's instructions** For each out-migrant, it will be ascertained whether he/she is presently engaged in any economic activity and the entry will be made in terms of the following codes: yes - 1, no - 2, not known - 9.

Value	Label	Cases	Percentage
1	Yes	54084	53.7%
2	No	45195	44.9%
9	Not known	1355	1.3%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #28 B31\_c8: Whether sent remittances during last 365 days

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=100647 /-] [Invalid=0 /-]

**Interviewer's instructions** If the out-migrant has sent remittances to the household during the last 365 days entry against this item will be 1, else 2 will be recorded.

## File Block-3dot1-out-migrants-records

### #28 B31\_c8: Whether sent remittances during last 365 days

Value	Label	Cases	Percentage
1	Yes	35091	34.9%
2	No	65556	65.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #29 B31\_c9: No. of times remittances sent in last 365 days

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=35089 /-] [Invalid=95707 /-]

### #30 B31\_c10: Amount of remittances sent in last 365 days

Information	[Type= continuous] [Format=numeric] [Range= 0-3000000] [Missing=*]
Statistics [NW/ W]	[Valid=65216 /-] [Invalid=65580 /-] [Mean=24903.738 /-] [StdDev=45867.18 /-]
Interviewer's instructions	Total amount of remittances sent by the out-migrants during the last 365 days, considering both cash remittances and kind remittances will be entered here in whole number in rupees.

### #31 wgt\_combined: Multiplier combined

Information	[Type= continuous] [Format=numeric] [Range= 0.75-31193.75] [Missing=*]
Statistics [NW/ W]	[Valid=130796 /-] [Invalid=0 /-] [Mean=1048.917 /-] [StdDev=1621.583 /-]

## File Block-4-demographic-usual-activity-members-records

### #21 B4\_c1: Person Serial no.

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=572254 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	All the members of the sample household will be listed in block 4 using a continuous serial number in column 1. In the list, the head of the household will appear first followed by head's spouse, the first son, first son's wife and their children, second son, second son's wife and their children and so on. After the sons are enumerated, the daughters will be listed followed by other relations, dependants, servants, etc.
<i>Frequency table not shown (34 Modalities)</i>	

### #22 B4\_c3: Relation to head

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=571995 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	The family relationship of each member of the household with the head of the household (for the head, the relationship is 'self') expressed in terms of specified codes will be recorded in this column.

Value	Label	Cases	Percentage
1	Self	125578	22.0%
2	Spouse of head	95809	16.7%
3	Married child	28544	5.0%
4	Spouse of married child	30972	5.4%
5	Unmarried child	207243	36.2%
6	Grandchild	50412	8.8%
7	Father/mother/father-in-law/mother-in-law	13484	2.4%
8	Brother/sister/brother-in-law/sister-in-law/other relatives	18782	3.3%
9	Servants/employees/other non-relatives;	1171	0.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

## File Block-4-demographic-usual-activity-members-records

### #28 B4\_c9: Usual principal activity - status

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=572254 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	For each of the members, the usual principal activity status will be recorded in this column. In the first instance, the broad usual principal activity of the person will be identified based on the various activities pursued by the person during the reference period of last 365 days adopting a 'relatively long time (or major time)' criterion, not necessarily for a continuous period. The broad usual principal activity status will be one of the three categories viz. 'employed' (working), 'unemployed' (available for work) or 'not in labour force' (neither working nor available for work). It is to be noted that in deciding this, only the period normally available in a day for pursuing various activities need to be considered, and not the 24 hours of a day.

Value	Label	Cases	Percentage
11	worked in hh. enterprise (self-employed) as own account worker	69356	12.1%
12	worked in hh. enterprise (self-employed) as employer	2684	0.5%
21	worked as helper in hh. enterprises (unpaid family worker)	37476	6.5%
31	worked as regular salaried/wage employee	39982	7.0%
41	worked as casual wage labour : in public works	664	0.1%
51	worked as casual wage labour : in other types of work	57446	10.0%
81	did not work but was seeking and/or available for work	9183	1.6%
91	attended educational institutions	142413	24.9%
92	attended domestic duties only	87227	15.2%
93	attended domestic duties and was also engaged in free collection of goods for hh. use	37286	6.5%
94	rentiers, pensioners, remittance recipients, etc.	9752	1.7%
95	not able to work due to disability	4096	0.7%
96	beggars, prostitutes	0	0.0%
97	Others	22013	3.8%
99	Invalid	52676	9.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #29 B4\_c11: Usual principal activity- NIC-2004 code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=207608 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	Columns 11 and 12 will be filled-in for those who are 'working', i.e., those with any one of codes 11, 12, 21, 31, 41, or 51 in column 9. The description of the industry-occupation relevant to the type of economic activity pursued by the person in the status recorded in column 9 will be given in column 10. The corresponding 5-digit industry code (NIC-2004) and the 3-digit occupation code (NCO-2004) will be entered in columns 11 and 12, respectively. In case, two or more industry-occupation combinations corresponding to the status code given in column 9 have been reported by a person, the principal industry-occupation will be the one in which relatively more time has been spent during the preceding 365 days by the person.

### #30 B4\_c12: Usual principal activity- NCO-2004 code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=206797 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	As given in c11

### #31 B4\_c13: Whether engaged in subsidiary capacity

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=572254 /-] [Invalid=0 /-]

## File Block-4-demographic-usual-activity-members-records

### #31 B4\_c13: Whether engaged in subsidiary capacity

<b>Interviewer's instructions</b>	For each member of the household listed in this block, it has to be ascertained whether he/she worked in a subsidiary capacity during the 365 days preceding the date of survey or in other words if he had any subsidiary economic status. A person will be considered to have worked in the subsidiary capacity if he/she has worked for a minimum period of 30 days, not necessarily for a continuous period, during the last 365 days, and for them code 1 will be recorded in this column. Otherwise, code will be 2.
-----------------------------------	--

Value	Label	Cases	Percentage
1	Yes	53071	9.3%
2	No	519183	90.7%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #32 B4\_c14: Usual subsidiary economic activity-status

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=53071 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	For all persons engaged in any 'work' in subsidiary capacity, i.e., for those with code 1 in column 13, the status codes of the economic activities pursued by them in their subsidiary capacity will be recorded in column 14. Activity status codes 11, 12, 21, 31, 41 and 51 relate to economic activity and only these codes are applicable for column 14.

Value	Label	Cases	Percentage
11	worked in household enterprise (self-employed):	16609	31.3%
12	own account worker	519	1.0%
21	employer	19805	37.3%
31	worked as helper in household enterprise (unpaid family worker)	831	1.6%
41	worked as regular salaried/wage employee	1120	2.1%
51	worked as casual wage labour: in public works	14187	26.7%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #33 B4\_c16: Usual subsidiary activity-NIC-2004 code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=53071 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	Columns 15 to 17 will be filled-in for those who are 'working' in the subsidiary status, i.e., for those with code 1 in column 13. The description of the industry-occupation relevant to the type of economic activity pursued by the person in the status recorded in column 14 will be given in column 15. The corresponding 5-digit industry code (NIC-2004) and the 3-digit occupation code (NCO-2004) will be entered in columns 16 and 17, respectively. In case, two or more industry-occupation combinations corresponding to the status code given in column 14 have been reported by a person, the subsidiary industry-occupation will be the one, in which relatively more time has been spent during the preceding 365 days by the person. Note that, to identify certain category of workers separately, NIC-2004 industry class code 9500 has been split. Those are to be considered here also. Moreover, it may be noted that the industry divisions 96 and 97 of NIC-2004 will not be used for collection of industry of work activity for the persons

## File Block-5-members-time-disposition-records

### #23 B5\_c3: Srl. No. of activity

<b>Interviewer's instructions</b>	For each person listed in column 1 of this block (which will be same as listed in column 1 of block 4), different activities pursued by them during all the seven days of the reference week will be serially numbered and this serial number of activity will be recorded in column 3. Presuming that the likelihood of one person pursuing more than four different activities in a week is rather remote, only four lines are provided for each person. As stated earlier, if a person pursues more than four different activities, the lines meant for the next person may be utilised. The current activity of a person in the rural areas is denoted by his status-cum-industry-cum-operation. Thus, for a person in the rural areas with the same status, if the industry division (2-digit NIC-2004 code) or operation are different on the same or different days, he will be considered to have pursued different activities and these activities will be entered in different lines. Similarly, in urban areas, the current activity of a person is denoted by his status-cum-industry. Thus, if a person in urban area ploughs his own field in the first half of the day and sows in the second half of the day, he will be considered to have only one activity during the day. But, in rural areas, he will be considered to have two activities.

## File Block-5-members-time-disposition-records

### #24 B5\_c4: current activity 'status'

Value	Label	Cases	Percentage
97	others	27710	4.3%
98	did not work due to temporary sickness (for casual workers only)	2750	0.4%
99	Invalid	52676	8.3%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #25 B5\_c5: NIC-2004 code(2- digit)

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=230237 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	For each status code grouped under the activity category 'working' (i.e., for the status codes 11-72 recorded in column 4), the 2-digit NIC-2004 code will be entered in column 5.
<i>Frequency table not shown (60 Modalities)</i>	

### #26 B5\_c6: For rural areas only, type of operation

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=158082 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	his column will be filled in for persons belonging to the rural households only. The actual working operation performed by the persons relevant to the status codes grouped under the activity category working (i.e., status codes 11-72) will be entered in terms of codes in this column. It may be noted that for regular wage/ salaried employees on leave or holiday, the 'operation' will relate to their respective function in the work or job from which he is temporarily off in view of his taking leave or holiday. Similarly for persons categorised 'self-employed' (status codes 11, 12 & 21) if they are not at work on a particular day in spite of their having work on that day, operation to be recorded will relate to the work they would have done if they had not enjoyed leisure on that day.

Value	Label	Cases	Percentage
01	Manual work in cultivation: ploughing	7057	4.5%
02	Sowing	4234	2.7%

07	Manual work in other agricultural activities: forestry	362	0.2%
08	Plantation	1771	1.1%
10	Animal husbandry	10442	6.6%
11	Fisheries	585	0.4%
12	Other agricultural activities	5728	3.6%
13	Manual work in non-agricultural activities	24537	15.5%
14	Non-manual work in: cultivation	2222	1.4%
15	Activities other than cultivation;	24703	15.6%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #27 B5\_c7: Intensity- 7th day(0.0)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0.5-1] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=586796 /-] [Invalid=51647 /-]
<b>Interviewer's instructions</b>	For each activity recorded in column 3, the intensity with which the particular activity is performed on the different days of the reference week will be recorded in quantitative terms 'half' or 'full' in these columns. As described earlier, for each activity listed in column 3 either one 'full' intensity or two 'half' intensity may be assigned to a person on any one of the seven days of the reference week. For a particular activity, the recording of entries in columns 7 - 13 should start from column 7 which is provided for recording the intensity of that activity on

<b>File Block-5-members-time-disposition-records</b>	
<b>#27 B5_c7: Intensity- 7th day(0.0)</b>	
	the seventh day of the reference week, i.e., the day preceding the date of survey. Similarly, the intensity of that activity on the sixth, fifth and earlier days of the week will be recorded in columns 8, 9, 10, 11, 12 and 13 respectively. If the intensity of an activity is 'full' on a particular day, '1.0' will be recorded in the relevant column. On the other hand, if the intensity is 'half', the entry will be '0.5'. If that particular activity is not pursued on some other days of the reference week, the corresponding columns provided in the block for those days will be left blank against that activity.

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0.5-1] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=587061 /-] [Invalid=51382 /-] [Mean=0.975 /-] [StdDev=0.109 /-]
<b>Interviewer's instructions</b>	See c7
<b>#34 B5_c14: Total no. of days in each activity(0.0)</b>	
<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0.5-7] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=638443 /-] [Invalid=0 /-] [Mean=6.274 /-] [StdDev=1.582 /-]
<b>Interviewer's instructions</b>	The number of days for which a particular activity was pursued during the seven days, i.e., the total of columns 7 to 13 will be recorded in one place of decimal in column 14 separately for each activity listed in column 3. It may be noted that the total number of days for all the activities taken together should always be 7.0 for each individual entered in column 1.

## File Block-5-members-time-disposition-records

### #35 B5\_c15: Wage & Salary Earnings-Cash

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-500000] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=95551 /-] [Invalid=542892 /-] [Mean=929.407 /-] [StdDev=2495.251 /-]
<b>Interviewer's instructions</b>	The wage and salary earnings (not total earnings) receivable for the wage/ salaried work done during the reference week, separately for each of the relevant activities pursued by each person, will be recorded in these columns. The wage and salary earnings are collected for regular wage/salaried employees and casual wage labours, the relevant status codes for which wages & salary are to be recorded are 31, 41, 42, 51, 71 and 72. The wages and salaries receivable for the work done during the reference week may be already received or may still be due to be received in cash or in kind or partly in cash and partly in kind. The total wage or salary receivable for the week in cash will be recorded in column 15 and the value of salary or wages in kind (evaluated at the current retail price) receivable for the week will be recorded in column 16. The total of columns 15 and 16 will be entered in column 17. The entries for all these columns will be made in whole number in rupees. For recording the wages or salaries, amount receivable as 'overtime' for the additional work done even from the same economic activity beyond normal working time will be excluded. Bonus (expected or paid) and perquisites evaluated at retail prices duly apportioned for the reference week, will be considered as wages and included for making entries in these columns. For the activity statuses '71' and '72', the amount receivable for the week will be worked out on the basis of the number of days reported under the activity during the week.

### #23 B6\_c3: Whether stayed away from village/ town

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=572254 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	<p>For each person, it is to be ascertained whether during last 365 days preceding the date of survey, he/she stayed away from the village/town for 1 month or more but less than 6 months for the purpose of employment or in search of employment. Code 1 is to be assigned if the reply is in the affirmative, otherwise entry will be 2. For filling in this column, the following points may be kept in mind:</p> <p>(i) for the purpose of determining the period of staying away, only those periods will be considered for which the member stayed away from the household continuously for 15 days or more during the last 365 days.  (ii) a continuous period of staying away for 15 days or more from the village/ town is termed as a spell.  (iii) a period of 30 days will be considered as 1 month.  (iv) the purpose of stay away from village/town should be 'for employment or in search of employment' only.</p>

### #26 B6\_c6: If worked, industry of longest spell(NIC-2004)

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=16086 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	In this column, industry of work, at 2-digit level of NIC-2004 will be entered for those household members who have worked during the period of their staying away from the village/town. In many situations it may so happen that during the period of staying away from the village/ town, a household member was engaged in different economic activities. In such situations, the industry at 2-digit level of NIC-2004 will correspond to the work in which the household member was engaged for the longest duration.

Frequency table not shown (59 Modalities)

### #27 B6\_c7: Place of enumeration differs from last upr

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=572254 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	This column is intended to capture the information on migration of the household members. This will be decided based on the concept of change in the usual place of residence (upr). The usual place of residence here is defined as a place (village or town) where the person has stayed continuously for a period of six months or more. The place of enumeration refers to the place (village or town) where the person is being enumerated or surveyed, i.e., the present place of residence of the person. This column will record whether the person now

## File Block-6-members-migration-records

### #27 B6\_c7: Place of enumeration differs from last upr

enumerated had a different upr previously (called the last upr). Code 1 will be entered for persons whose place of enumeration is different from the last upr. For those who have been staying in the same village or town since their birth code 2 will be entered. Visits of daughters to their parent's place for child birth or for treatments etc. will not be considered even if it is for more than six months.

Value	Label	Cases	Percentage
1	Yes	169445	29.6%
2	No	402809	70.4%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #28 B6\_c8: Place of enumeration was upr any time in past

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=169339 /-] [Invalid=0 /-]

**Pre-question** Columns 8 to 16 will be filled in only for those persons whose place of enumeration is different from the place of last upr (i.e., for those with code 1 recorded in column 7).

**Interviewer's instructions** For those persons whose last upr was different from the place of enumeration, it is to be ascertained if the place of enumeration was their usual place of residence at any time in the past. In other words, it is to be enquired, if the person who has moved to the place of enumeration from some other place had been a resident of the present place (where he is now enumerated) earlier. Code 1 or 2 will be entered as the case may be.

Value	Label	Cases	Percentage
1	Yes	21614	12.8%
2	No	147725	87.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #29 B6\_c9: Nature of movement

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=169320 /-] [Invalid=0 /-]

**Interviewer's instructions** Among those who had reported change in the usual place of residence in column 7, the nature of their movement will be collected in this column in terms of codes. The movement of the household member to the place of enumeration may be treated as a temporary migration, if he/she intends to move again to the last usual residence or to any other place. If the household member, in normal course, is likely to stay at the place of enumeration and does not plan to move out of the place of enumeration, it will be treated as a permanent migration. If the nature of migration is temporary and the expected duration of stay of the household member is less than 12 months in the village/town then code 1 will be recorded. For those household members who had temporary nature of movement but with expected duration of stay for 12 months or more code 2 will be recorded. If the nature of migration is permanent code 3 will be recorded.

Value	Label	Cases	Percentage
1	Temporary with expected duration of stay less than 12 months	1167	0.7%
2	Temporary with expected duration of stay 12 months or more	20604	12.2%
3	Permanent;	147549	87.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #30 B6\_c10: Period since leaving the last upr(years)

**Information** [Type= continuous] [Format=numeric] [Range= 0-97] [Missing=\*]

**Statistics [NW/ W]** [Valid=168566 /-] [Invalid=403688 /-] [Mean=16.426 /-] [StdDev=14.353 /-]

**Interviewer's instructions** For each such person, the years since leaving last upr i.e., the years elapsed since leaving the last upr till the date of survey, will be recorded in this column in whole number. Periods of temporary stay (less than six months) in other places after leaving the last upr will also be included while determining the years since leaving last upr.

### #31 B6\_c11: Particulars of last upr- location

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=169280 /-] [Invalid=0 /-]

## File Block-6-members-migration-records

### #31 B6\_c11: Particulars of last upr- location

**Interviewer's instructions** Location refers to the type of last usual place of residence of the person. The relevant code, is to be assigned to each of the person:

Value	Label	Cases	Percentage
1	Same district: rural	82000	48.4%
2	Same district: urban	12278	7.3%
3	Same state but another district: rural	33644	19.9%
4	Same state but another district: urban	16669	9.8%
5	Another state: rural	14397	8.5%
6	Another state: urban	8916	5.3%
7	Another country;	1376	0.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #32 B6\_c13: Particulars of last upr- State/ u.t./country code

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=169254 /-] [Invalid=0 /-]

**Interviewer's instructions** The state/u.t./country to which the last upr belongs to will be recorded in these columns.

*Frequency table not shown (51 Modalities)*

### #33 B6\_c14: Usual activity(ps) - status code

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=169233 /-] [Invalid=0 /-]

**Interviewer's instructions** For determining the usual principal activity status of the person at the time of leaving the last upr, the reference period to be adopted will be 365 days preceding the date of leaving last upr.

Value	Label	Cases	Percentage
11	worked in hh. enterprise (self-employed) as own account worker	5988	3.5%

### #21 B7\_q1: Srl. no.

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=2414291 /-] [Invalid=0 /-]

**Interviewer's instructions** A household procures different items for its consumption by different ways. The different ways of collecting items of consumption are:

- 1) purchase
- 2) receipt in exchange of goods and services
- 3) home-grown/home-produced stock
- 4) transfer receipts such as gifts, loans, charities, etc., and
- 5) free collection

Value	Label	Cases	Percentage
01	Cereals & cereal products	123561	5.1%
02	Pulses & pulse products	122394	5.1%
03	Milk and milk products	106775	4.4%
04	Edible oil and vanaspati	122808	5.1%
05	Vegetables, fruits & nuts	124079	5.1%
06	Egg, fish & meat	84957	3.5%
07	Sugar (includes gur, candy, honey, etc.)	120453	5.0%
08	Salt & spices and other food items	125422	5.2%
09	Pan, tobacco & intoxicants	81259	3.4%
10	Fuel & light	124320	5.1%
11	Entertainment	57271	2.4%
12	Personal care and effects, toilet articles and other sundry articles	125154	5.2%
13	Consumer services and conveyance	119741	5.0%
14	Rent/ house rent, consumer taxes and cesses	62091	2.6%
15	Medical expenses (non-institutional)	87307	3.6%
16	Sub-total (items 1 to 15)	125574	5.2%

## File Block-7-household-consumer-expenditure-records

### #21 B7\_q1: Srl. no.

Value	Label	Cases	Percentage
17	Medical (institutional)	15759	0.7%
18	Tuition fees & other fees, school books & other educational articles	81706	3.4%
19	Clothing, bedding and footwear	125258	5.2%
20	Durable goods	101874	4.2%
21	Sub-total (items 17 to 20)	125470	5.2%
22	Average monthly expenditure for items 17 to 20 [item 21 x (30÷365)]	125480	5.2%
23	Monthly household consumer expenditure (item 16 + item 22);	125578	5.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #22 B7\_q3: Value of consumption(Rs.) - last 30 days

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-195828] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=1964222 /-] [Invalid=450069 /-] [Mean=755.275 /-] [StdDev=1694.486 /-]
<b>Interviewer's instructions</b>	If an item is purchased and consumed by a household, the value of consumption can be taken as its purchase value. But, the value of an item consumed out of commodities received in exchange of goods and services, home-grown/home-produced stock, transfer receipts or free collection requires imputation.

### #23 B7\_q4: Value of consumption(Rs.) - last 365 days

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-990000] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=450086 /-] [Invalid=1964205 /-] [Mean=4975.408 /-] [StdDev=12347.102 /-]

### #24 wgt\_combined: Multiplier combined

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0.75-78674.17] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=2414291 /-] [Invalid=0 /-] [Mean=1756.917 /-] [StdDev=2219.641 /-]
