LITERAL QUESTION

Segment Number

INTERVIEWER INSTRUCTIONS

Segment number: This item is to be recorded from the heading of block 5a of Schedule 0.0.

Listing all the houses, households residing in the sample FSU (or segment 1 & 2 in case of large FSUs) is to be done in Schedule 0.0.

Formation of segment 9: This will be formed only in the sample FSUs of sub-strata 1 and 2 in the rural sector. After ascertaining the boundaries of the sample FSU, all the DCSSI-listed non-ASI DMEs (i.e. manufacturing enterprises having 6 or more workers having at least one hired worker and registered with DCSSI) will be listed in block 2 of schedule 0.0. This will constitute segment 9 of the FSU.

A large village will be divided into a certain number (D) of sub-divisions called hamlet-groups. The number of hamlet-groups to be formed (i.e. the value of D) will depend on the approximate present population of the sample FSU and/or the approximate number of non-agricultural enterprises found to exist in the sample village. Out of all hg's/sb's formed in the FSU, two hg's/sb's may be selected for listing in the following manner - one with the maximum number of DMEs (or with maximum number of NDMEs if there is no DME or with maximum number of OAMEs if there is no DME or with maximum percentage share of population if there is no manufacturing enterprise in the entire FSU) will always be selected and termed as Segment 1; one more hg/sb may be selected randomly and termed as Segment 2.

Listing and selection of households/enterprises will be done independently in segments 9, 1 & 2. FSUs without hg/sb formation will not have segment 2.
