Unorganised Manufacturing Enterprises Survey [AREA Frame] : NSS 62nd Round : July 2005 - June 2006

Overview

Type	Enterprise Survey [en/oth]
Identification	DDI-IND-MOSPI-NSSO-62nd-Sch2dot2-AF-2005-06
Version	Production Date: 2012-09-28 V1.0; Re-organised anonymised dataset for public distribution.
Series	Following the first Economic Census 1977, small establishments and enterprises not employing any hired worker [and henceforth called 'own account enterprises' (OAEs)] engaged in manufacturing and repairing activities were surveyed on sample basis in the thirty-third round of NSS during 1978-79. As a follow-up to the second Economic Census 1980, own account enterprises and Non-directory Establishments engaged in manufacturing and repairing activities (i.e., OAMEs and NDMEs respectively) were surveyed in the fortieth and forty-fifth rounds of NSS during July 1984-June 1985 and July 1989-June 1990 respectively. The Directory Manufacturing Establishments (DMEs) were surveyed during October 1984-September 1985 and October 1989 to September 1990 respectively by a group of special staff (Assistant Superintendents only) of the Field Operations Division (FOD) of the NSSO under the technical direction of the CSO. As a follow-up to the third Economic Census 1990, the first integrated survey on unorganised manufacturing and repairing enterprises covering OAMEs, NDMEs and DMEs was undertaken during the fifty-first round of NSS (July 1994-June 1995). Following this, two other surveys were undertaken - (i) Special Enterprise Survey on enterprises in the unorganised sector during the period August 1998 to June 1999 and (ii) Informal sector enterprises as part of NSS 55th round during July 1999 to June 2000. Manufacturing sector was part of coverage in both these surveys. As a follow up of fourth Economic Census 1998, survey of manufacturing enterprises in the unorganised sector was conducted in the 56th round of NSS during July 2000 to June 2001. The 62nd round was basically a repetition of 56th round survey in terms of concepts and coverage.

Abstract

An all-India survey on unorganised manufacturing enterprises was carried out by the National Sample Survey Organisation (NSSO) as a part of the 62nd round of National Sample Survey (NSS) during July 2005 – June 2006.

The 62nd round was earmarked for survey on (i) unorganised manufacturing enterprises under the two-digit codes 15 to 37 (Section 'D') of NIC-2004 and enterprises under cotton ginning, cleaning and baling (NIC-2004, code 01405),
This survey covered:
(a) Manufacturing enterprises not registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948
(b) Manufacturing enterprises registered under Section 85 of Factories Act, 1948
(c) Non-ASI enterprises engaged in cotton ginning, cleaning and baling (NIC- 2004, code 01405)

(d) Non-ASI enterprises manufacturing bidi and cigar (those registered under bidi and cigar workers (condition of employment) Act, 1966 as well as those un-registered)
and excluded:
(a) Repairing enterprises not falling under Section 'D' of NIC- 2004
(b) Departmental units such as Railway Workshops, RTC Workshops, Government Mint, Sanitary, Water supply, Gas, Storage, etc. in line with ASI coverage
(c) Units covered under ASI
(d) Public Sector Units

The unorganised manufacturing sector has roughly about one-third share in the total contribution by the manufacturing sector in the GDP. Recognizing the importance of the unorganised manufacturing sector in terms of its share in GDP as well as in total employment, NSS has taken up this subject in many of its rounds.

Kind of Data	Sample survey data [ssd]

Scope & Coverage

Scope
The term 'unorganised manufacture' under the coverage of 62nd round basically referred to all manufacturing enterprises, which were not covered by ASI. All government and public sector undertakings were also outside the coverage of the survey. In terms of National Industrial Classification (NIC) 2004 codes, the 62nd round survey on unorganised manufacture covered the NIC 2-digit codes 15-37. In addition, enterprises engaged in cotton ginning, cleaning and baling (NIC 2004 code 01405) were also covered under the survey It is to be noted that only those manufacturing enterprises, which operated for at least 30 days (15 days for seasonal enterprises) during the last 365 days preceding the date of survey, were eligible for survey.

One salient feature of the sample design adopted during the 62nd round was the use of list frame in order to capture sufficient number of relatively 'bigger' manufacturing units under the coverage of the survey. It is quite natural that even within the unorganised manufacturing sector, there are likely to be some very 'big' non-ASI manufacturing units whose contribution to total gross value added is likely to be substantial. Thus, with a view to improving the overall estimate of gross value added per worker, total number of workers, total input, total output, etc., a dual frame approach was considered appropriate for sampling purposes in NSS 62nd round. A list of 8,000 big non-ASI manufacturing enterprises for the urban sector only was prepared as per the data of the census of manufacturing enterprises conducted by Development Commissioner of Small Scale Industries (DCSSI) in 2003. This list served as the list frame. All these units in the list frame were considered for survey without resorting to any sampling. For the coverage of all other unorganised manufacturing enterprises in the universe (i.e. other than 8,000 enterprises featuring in the list frame), an area frame approach was followed for sampling of unorganised anufacturing units in stages. It is worthwhile to mention that this dual frame approach was experimented for the first time in the 62nd round.

In the area frame approach, the list of all the villages (panchayat wards in case of Kerala) / urban blocks of the country served as the sampling frame of FSUs. The first stage units (FSUs) were villages (panchayat wards in case of Kerala) in the rural sector and urban blocks in the urban sector. The ultimate stage units were unorganised manufacturing enterprises in both the sectors.

Design-based estimates of aggregates for any selected survey characteristic were obtained separately for list frame and area frame. Finally these two sets of estimates were added to get the pooled aggregate estimate for the combined frame. .

3.1 Structure of Schedule 2.2:

Total number of blocks: - 12
Blocks 0 and 1: - identification of the enterprise

Block 2: - Some operational characteristics and background information of the enterprises.

Blocks 3, 3.1, 4 and 4.1:- These blocks of the schedule will be used to record the operating expenses and receipts of the enterprise.

Blocks 3 and 4 will record the principal expenses and receipts whereas blocks 3.1 and 4.1 will record the other expenses and receipts. Care may be taken so that there is no omission or duplication of entries on expenses between blocks 3 and 3.1. Similarly, omission or duplication of recording receipts may be avoided between blocks 4 and 4.1. Schedule 2.2 has been designed in such a way that the different types of receipts and expenses for mixed activity of enterprises can also be accommodated within the framework of blocks 3 and 4. To meet this objective, each of these two blocks has been subdivided into 2 sub-blocks. The first sub-block is meant for specifically recording the manufacturing activity whereas the second sub block is for recording the other activities, if any, including the purchase/ sale of commodities without any transformation. If the enterprise is carrying out mixed activities of two or more types of manufacturing, the data of blocks 3 and 4 will refer to all the manufacturing activities taken together.

Block 5: Calculation of gross value added of the enterprise will be done here. If the value of the receipts in block 4 is collected at ex-factory price, then distributive expenses will not be recorded in this block. In normal situations, gross value added is found as positive. However, if the gross value added arrived at is negative, remarks justifying the reason of the same must be provided.

Blocks 6 and 7: The employment and emolument related particulars of the enterprise would be recorded here.

Blocks 8 and 9: information on fixed assets and outstanding loans of the enterprise would be recorded in these blocks.

The above items of information from any enterprise were collected either from books of accounts of the sample enterprises or through oral enquiry depending upon whether the enterprises maintained books of accounts or not.

Reference Period: The reference period for recording details of various items will depend primarily on whether the enterprise under survey can provide information from their books of accounts, or they can provide information orally.

If the enterprises are providing only oral information, three kinds of reference periods will be used to collect data in different blocks of the schedule, which are reference month, reference year and last date of the reference month.

Reference Month: This period will be used to collect data on various receipts and expenses as well as value added, employment, emoluments, rent and interest payments for the enterprises providing oral information.

Geographic Coverage
The survey covered the whole of the Indian Union except (i) Leh (Ladakh) and Kargil districts of Jammu & Kashmir, (ii) interior villages of Nagaland situated beyond 5 kilometres of the bus route and (iii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year. All the sample first-stage units of the districts Poonch and Rajouri of Jammu & Kashmir, became casualty and therefore, the districts Poonch and Rajouri of Jammu & Kashmir, are outside the survey coverage. . Thus, the estimates of Jammu and Kashmir and all-India estimates do not include these two districts.

Universe
The survey used the interview method of data collection

Sampling

Sampling Procedure

Outline of sample design: Two frames were used for the 62nd round survey viz. List frame and Area frame.

List frame:

This was used only for urban sector and that too for selection of manufacturing enterprises only. For unorganised manufacturing enterprises, a list of about 8000 big non-ASI manufacturing units in the urban sector prepared on the basis of the data of the census of manufacturing enterprises conducted by Development Commissioners of Small Scale Industries (DCSSI) in 2003 was used as list frame.

The 'big' DCSSI units in the urban sector had been identified by the criteria given below:
(1) From the list of registered SSI units, units not registered under sections 2m(i) or 2m(ii) of Factories Act, 1948 and belonging to NIC '98 codes 01405, 15 - 37 were considered.
(2) Out of the above units, the units whose gross value of output in 2001 were more than 6 times the average output (Rs. 14,32,314) of all urban SSI units were separated out.
(3) From the above units, those with 6 or more workers were identified as the big units for list frame. About 8000 such units constituted the list frame.
All these units in the list frame were to be surveyed and there was not any sampling for list frame. To avoid duplication, these units were excluded from the list of enterprises prepared in the selected urban blocks/villages drawn from the area frame. There was no sub-round restriction for the list frame units.
All the enterprises in the list frame are common to both central and state samples.

Area Frame:

In the area frame approach, the list of all the villages (panchayat wards in case of Kerala) / urban blocks of the country served as the sampling frame of FSUs. The first stage units (FSUs) were villages (panchayat wards in case of Kerala) in the rural sector and urban blocks in the urban sector. The ultimate stage units were unorganised manufacturing enterprises in both the sectors. However, in case of
large FSUs requiring hamlet-group (hg) / sub-block (sb) formation, one intermediate stage in the sampling involved the selection of two hg's / sb's from each FSU out of a minimum of three hg's/sb's formed in the FSU. Of these two selected hg's/sb's, one was selected with probability '1' (termed as segment 1) and another one (termed as segment 2) was selected from among the remaining hg's/sb's of the FSU at random. The hg/sb selected with certainty (i.e. segment 1) was the hg/sb having maximum number of directory manufacturing establishments (DMEs) (or with maximum number of non-directory manufacturing establishments (NDMEs) if there was no DME, or with
maximum number of own account manufacturing enterprises (OAMEs) if there was no DME/NDME, or with maximum population if there was no DME/NDME/OAME4 in the entire FSU). Smaller FSUs without any hg/ sb formation were identified/categorized as segment 1 for the purpose of survey (segment 2 does not exist for such FSUs). As regards the first stage stratification, two basic strata were formed within each district of a State/ UT: rural stratum comprising all rural areas of the district and urban stratum consisting of all urban areas of the district. However, each city with a population of one million or more as per Census 2001 was invariably treated as a separate stratum by itself. For details of stratification, sub-stratification and selection of sample FSUs, reference
may be made to estimation procedure document.

For each of segments 1 and 2 of the selected sample FSUs, a frame of eligible manufacturing enterprises was prepared by the field investigators by visiting each every house/household within the selected geographical area. While doing so, if any enterprise of the list frame was encountered, care was taken not to list it again within segment 1 or 2 as a part of the area sample / area frame to guard against duplication of enterprises between the two types of frames. Listing and sampling of enterprises in the area frame was ndependent for each of segments 1 and 2. In this context, it may be mentioned that for each selected FSU of rural sub-strata 1 and 2 only, segment 9 was also carved out within the FSU, which comprised top 10 big non-ASI registered SSI manufacturing units located within the boundaries of the entire FSU. The list of such units for selected FSUs was made available to the field investigators in order to facilitate formation of segment 9. Respective frames of segments 1 and 2 in these FSUs excluded the units listed under segment 9.

All the eligible enterprises listed under each of segments 1, 2 and 9 were stratified into 2 broad second-stage strata by enterprise type i.e. OAME & NDME/DME. Each of these two broad second-stage strata was further divided into 3 broad manufacturing groups (BMG) i.e. BMG 1, BMG 2 and BMG 3. BMG 1 comprised eligible enterprises belonging to NIC codes 15 and 20. BMG 2 consisted of eligible enterprises belonging to NIC Codes 23, 27, 30-35 and 01405 while all other eligible enterprises belonging to the rest of the NIC codes under coverage formed BMG 3. Thus within a segment for any given sample FSU, six ultimate second-stage strata were formed by jointly considering the broad second-stage strata and BMG. A total of 12 manufacturing enterprises - two from each ultimate second-stage stratum - were selected for detailed enquiry. In case of shortfall of enterprises in the frame of any particular second-stage stratum, compensation was made by selecting additional samples from other second-stage strata so that a total of 12 enterprises were selected from each FSU for detailed enquiry.

Design-based estimates of aggregates for any selected survey characteristic were obtained separately for list frame and area frame. Finally these two sets of estimates were added to get the pooled aggregate estimate for the combined frame. In this report, discussion will be focused on the pooled estimate based on two types of frames used in the survey.

Deviations from Sample Design
There was no deviation from the original sample deviation.

Response Rate
Out of 8,000 enterprises selected from the list frame, data could be collected from only 2,260 enterprises Thus a large percentage (72%) of the list frame enterprises became casualties. Among the enterprises which were treated as casualties, the majority (around 70%) actually belonged to the category of "Government/public sector undertaking/ASI units", which were not under the coverage of 62nd round. Another 18% of the enterprises were found to be either non-operative or not traceable.

In the area frame, 80,637 enterprises (42,050 from rural India and 38,587 from urban India) spread over 4,798 villages and 5,125 urban blocks across the country were surveyed. It is worthwhile to mention here that even though a large percentage of list frame enterprises were not surveyed, theoretically the surveyed enterprises netted through the list frame and area frame represented the whole universe of the unorganised manufacturing sector.

Thus, altogether a total of 82,897 unorganised manufacturing enterprises considering both list frame and area frame were surveyed.

Weighting
Weights (or multipliers) are given at the end of each record. Wgt_ss is the variable for sub-sample-wise estimates and Wgt_combined for combined sub-sample estimates.

For generating subsample-wise estimates based on data of all subrounds taken together, either Subsample-1 enterpeises or Subsample-2 enterprises are to be considered at one time. Subsample code is available in the data file.

For generating subsample-combined estimates based on data of all subrounds taken together all enterprises are to be considered.

Data Collection

Data Collection Dates	start 2005-07-01 end 2005-09-30 start 2005-10-01 end 2005-12-31 start 2006-01-02 end 2006-03-31 start 2006-04-01 end 2006-06-30
Data Collection Mode	Face-to-face [f2f]

Data Collection Notes

the fieldwork for the 62nd round was carried out during July 2005 to June 2006. The entire survey period was divided into four sub-rounds of three months each. In each of these sub-rounds, equal number of sample villages/ urban blocks was allotted for survey with a view to ensuring uniform spread of fieldwork over the entire survey period. All efforts were made to complete the fieldwork in a sample village/block during the sub-round period to which it was allotted.
sub-round 1 : July - September 2005
sub-round 2 : October - December 2005
sub-round 3 : January - March 2006
sub-round 4 : April - June 2006

Questionnaires

For collection of data from sample manufacturing enterprises, Schedule 2.2 was designed. The schedule was organized into 15 blocks. t. The items of information collected through different blocks of the schedule included the following:
Block-2- Particulars of operation and background information of the enterprise
Block-3-Principal operating expenses
Block-3.1- Other operating expenses
Block-4- Principal receipts
Block-4.1 Other receipts
Block-5-Gross value added
Block-6-Employment particulars
Block-7- Compensation to workers
Block-8- Fixed assets owned and hired
Block-9-Loan outstanding

Variables Description

Dataset contains305 variable(s)

File Block-1-identification of Sample Enterprise-Establishment-reords

#1 key_entpr: Keyto locate enterprise no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80637 /-] [Invalid=0 /-]
Recoding and Derivation	Keygenerated to locate enterprise (by concatenating FSU,stratum,sub-stratum,segment,sss,enterprise number)

#2 Rec_id: Record identifier

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80637 /-] [Invalid=0 /-]
Definition	Identifies the block to which the data pertains to.

Value	Label	Cases	Percentage
01	Block-1 of schedule	80637	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#3 Frame: Frame of the Survey

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80637 /-] [Invalid=0 /-]
Definition	The data is based on enterprises (FSU) selected from List frame

Value	Label	Cases	Percentage
2	Area Frame data	80637	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#4 C_R_S: Centre code,Round,Shift

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80637 /-] [Invalid=0 /-]

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80637 /-] [Invalid=0 /-]
Interviewer's instructions	NIC code as per the NIC-2004 may be written at 5-digit level

Frequency table not shown (641 Modalities)

#22 B2_q202: Nature of Operation

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80610 /-] [Invalid=0 /-]
Literal question	Nature of operation of the enterprise during the reference year
Interviewer's instructions	An enterprise operating for the major part of a year and manufacturing different seasonal items during different months/seasons of the year will not be considered as a seasonal enterprise, if it does not keep separate accounts for these activities. For example, suppose an OAME manufacturing plastic goods made pichkaris during holi and plastic pitchers during rest of the year. If accounts are not separable, it will be considered as a single perennial enterprise. Again, suppose an OAME manufactured agarbatti during one season, fire-crackers during some other season and woollen clothes during a third season. The accounts for these activities are not separable. As the enterprise has run throughout the year, it will be considered as a perennial enterprise and not a seasonal one. Rice mills, etc. operating for major part of the reference year will be considered as a perennial enterprise and not a seasonal one.

Value	Label	Cases	Percentage
1	nature of operation (perennial	76391	94.8%
2	seasonal	3163	3.9%
3	casual	1056	1.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Information	[Type= discrete] [Format=numeric] [Range= 1-12] [Missing=*]
Statistics [NW/ W]	[Valid=80599 /-] [Invalid=38 /-]
Interviewer's instructions	The number of months should be given in whole number. Here, month means a continuous block of 30 days, including scheduled holidays.

Value	Label	Cases	Percentage
1		433	0.5%
2		1012	1.3%
3		1232	1.5%
4		1538	1.9%
5		1683	2.1%
6		1678	2.1%
7		979	1.2%
8		2931	3.6%

File Block-2-Operation and background information-records

#23 B2_q203: No. of months operated

Value	Label	Cases	Percentage
9		1690	2.1%
10		3755	4.7%
11		1499	1.9%
12		62169	77.1%
Sysmiss		38	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B2_q204: No. of hours worked-ref. year

Information	[Type= continuous] [Format=numeric] [Range= 1-24] [Missing=*]
Statistics [NW/ W]	[Valid=80297 /-] [Invalid=340 /-] [Mean=7.119 /-] [StdDev=2.302 /-]
Interviewer's instructions	In these items, normal working hours in a day within the reference month/year, including days spent on maintenance of machinery will be reported. In item 204, such working hours may be arrived at by considering all the days during the reference year (for seasonal enterprises, days belonging to operating months only), while for item 205, days within the reference month will be considered to get the required number of hours.

#25 B2_q205: No. of hours worked-ref. month

Information	[Type= continuous] [Format=numeric] [Range= 1-24] [Missing=*]
Statistics [NW/ W]	[Valid=80229 /-] [Invalid=408 /-] [Mean=7.058 /-] [StdDev=2.344 /-]
Literal question	Number of hours the enterprise normally worked in a day:
Interviewer's instructions	As given in B2_q204

#26 B2_q206: Whether pursuing mixed activity?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80596 /-] [Invalid=0 /-]
Interviewer's instructions	Code will be 1 for mixed activity and 2 otherwise.

Value	Label	Cases	Percentage
0		2	0.0%
1	Yes	3685	4.6%
2	No	76905	95.4%
5		1	0.0%
6		1	0.0%
7		1	0.0%
8		1	0.0%
9	Invalid	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#27 B2_q207: Type of ownership

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80592 /-] [Invalid=0 /-]
Pre-question	if code in item 207 is any one of the codes 1 to 4. then ask this question
Post-question	if code in item 207 is other than the codes 1 to 4 then go to q.213

Value	Label	Cases	Percentage
1	proprietary (male)	58039	72.0%

File Block-2-Operation and background information-records

#27 B2_q207: Type of ownership

Value	Label	Cases	Percentage
2	proprietary (female)	19049	23.6%
3	partnership with members of the same household	1976	2.5%
4	partnership between members not all from the same household	1196	1.5%
5	co-operative society	83	0.1%
6	limited company (outside public sector)	163	0.2%
9	others	86	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#28 B2_q208: Any other economic activity?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80300 /-] [Invalid=0 /-]
Pre-question	if code in item 207 is any one of the codes 1 to 4. then ask this question
Literal question	Did the working owner (s) undertake any other economic activity during the reference year:
Post-question	if code in item 207 is other than the codes 1 to 4 then go to q.213
Interviewer's instructions	If the working owner (s) carried out multiple activities during the reference year, then code in this item will be 1. If the surveyed enterprise was his (their) only source of income throughout the reference year, code will be 2.

Value	Label	Cases	Percentage
1	Yes	18791	23.4%
2	No	61508	76.6%
3		1	0.0%
9	Invalid	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#29 B2_q209: Present ent.-major source income

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=19148 /-] [Invalid=0 /-]
Pre-question	if code in item 207 is any one of the codes 1 to 4 and entry in item 208 being 1 then ask this question
Literal question	Is the present enterprise major source of annual income of the owner:
Post-question	if code in item 207 is other than the codes 1 to 4 then go to q.213
Interviewer's instructions	Here, the 'owner' will refer to the same person(s) for whom data was collected in item 208. Suppose the owner (or one of the owners) worked as a casual labour in agriculture in addition to the activity of the enterprise during the reference year. If major part of his annual income was derived from this enterprise, then the entry to this item will be 1. Otherwise it will be 2.

Value	Label	Cases	Percentage
0		5	0.0%
1	Yes	8073	42.2%
2	No	11067	57.8%
8		1	0.0%
9		2	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#30 B2_q210: % of annual income

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=11108 /-] [Invalid=0 /-]

File Block-2-Operation and background information-records

#30 B2_q210: % of annual income

Pre-question	if code in item 207 is any one of the codes 1 to 4 and entry in item 208 being 1 then ask this question
Post-question	if code in item 207 is other than the codes 1 to 4 then go to q.213
Interviewer's instructions	Entry '2' in item 209 means that the owner derives a minor part of his annual income from the surveyed enterprise. This part of annual income of the owner as a percentage of his total annual income will be recorded in item 210.

Frequency table not shown (76 Modalities)

#31 B2_q211: NIC Code 2004-Other imp. Activity

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10714 /-] [Invalid=0 /-]
Pre-question	if code in item 207 is any one of the codes 1 to 4 and entry in item 208 being 1 then ask this question
Post-question	if code in item 207 is other than the codes 1 to 4 then go to q.213
Interviewer's instructions	The description of the activity from which the owner derived maximum annual income and corresponding industry-section as per NIC 2004 will be recorded in item 211.

Value	Label	Cases	Percentage
A	Agriculture, Hunting and Forestry	7140	66.6%
B		72	0.7%
C		39	0.4%
D	Manufacturing	991	9.2%
E		31	0.3%

G	Wholesale and Retail Trade; Repair of Motor Vehicles, Motorcycles and Personal and Household Goods	1182	11.0%
H		122	1.1%
I	Transport , Storage and Communications	194	1.8%
J	Financial Intermediation	37	0.3%
K		85	0.8%
L		76	0.7%
M		155	1.4%
N		35	0.3%
O	Other Community, Social and Personal Service Activities	102	1.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#32 B2_q212: General edu.level of working owner

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=79887 /-] [Invalid=0 /-]
Pre-question	if code in item 207 is any one of the codes 1 to 4. then ask this question
Post-question	if code in item 207 is other than the codes 1 to 4 then go to q.213
Interviewer's instructions	For the proprietary or partnership enterprises, the educational qualification of the owner should be entered in codes.

Value	Label	Cases	Percentage
01	not literate	12246	15.3%
02	literate without formal schooling	1099	1.4%
03	literate but below primary	7278	9.1%
04	Primary	16125	20.2%

File Block-2-Operation and background information-records

#32 B2_q212: General edu.level of working owner

Value	Label	Cases	Percentage
05	middle	20584	25.8%
06	secondary	11917	14.9%
07	higher secondary	4950	6.2%
08	diploma/ certificate course	1037	1.3%
10	graduate	3992	5.0%
11	postgraduate or above	659	0.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#33 B2_q213: Whether accounts maintained?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80444 /-] [Invalid=0 /-]
Interviewer's instructions	3.2.11 Three codes have been provided for this item. If the enterprise maintained books of accounts and information on receipts, expenses, assets, etc. is collected from it, code will be 1. If the enterprise informs that they maintained books of accounts, but provides financial information orally, code will be 2. If the enterprise did not maintain any usable books of accounts, then the code will be 3.

Value	Label	Cases	Percentage
1	Yes, accounts usually maintained,and information was collected from books of accounts	1858	2.3%
2	Yes, accounts usually maintained,but information was collected orally	6814	8.5%
3	No usable books of accounts maintained	71772	89.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#34 B2_q214_S: Data collected from date

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80459 /-] [Invalid=0 /-]
Literal question	Data of blocks 3 to 7 collected for the period : Start date(ddmmyy)
Interviewer's instructions	From the discussion on the reference period, it is clear that if the enterprise is ready to provide information from their books of accounts, data will be collected from it for the entire accounting year, which, in most of the cases will be one year. On the other hand, if the enterprise provides information orally, data on operating expenses, receipts, employment, emoluments, etc. will be collected for a one-month period prior to the date of survey. The actual period for which information from the enterprise is collected will be recorded here.

Frequency table not shown (618 Modalities)

#35 B2_q214_E: Data collected to end date

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80460 /-] [Invalid=0 /-]
Literal question	Data of blocks 3 to 7 collected for the period : End date(ddmmyy)
Interviewer's instructions	as given in Q-214-S

Frequency table not shown (536 Modalities)

#36 B2_q215: Location of the enterprise

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80575 /-] [Invalid=0 /-]
Interviewer's instructions	Six codes have been provided for this item. If, both the codes 5 and 6 are applicable for an enterprise, major time criterion will decide the appropriate code.

File Block-2-Operation and background information-records

#36 B2_q215: Location of the enterprise

Value	Label	Cases	Percentage
1	within household premises	41652	51.7%
2	outside household premises:with fixed premises and with permanent structure	33580	41.7%
3	outside household premises:with fixed premises and with temporary structure/kiosk/stall	1658	2.1%
4	outside household premises:with fixed premises but without any structure	1179	1.5%
5	outside household premises:mobile market	652	0.8%
6	without fixed premises (street vendors, etc)	1854	2.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#37 B2_q216: Registered under any act?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80560 /-] [Invalid=0 /-]
Literal question	Registered/ recognised under any act/ authority
Interviewer's instructions	If the enterprise is registered under one or more Acts/ Authorised agencies, code will be 1. Otherwise code will be 2.

Value	Label	Cases	Percentage
1	Yes	17587	21.8%
2	No	62973	78.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#38 B2_q217: Registered under

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=17538 /-] [Invalid=0 /-]
Interviewer's instructions	codes for a maximum of two agencies under which the enterprise got itself registered/ recognised will be noted in items 217 and 218.

Value	Label	Cases	Percentage
01	District Industries Centre as Small Scale Industry (SSI)	5263	30.0%
02	Khadi and Village Industries Commission	214	1.2%
03	Development Commissioner, handicrafts	57	0.3%
04	Development Commissioner, handlooms	64	0.4%
05	Coir Board	19	0.1%
06	Silk Board	2	0.0%
07	Jute Commissioner	2	0.0%
08	municipal corporation, panchayat, local body	9717	55.4%
10	Section 85 of Factories Act	373	2.1%
19	other (please specify)	1827	10.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#39 B2_q218: Registered under

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=4111 /-] [Invalid=0 /-]
Interviewer's instructions	As given in Q217

File Block-2-Operation and background information-records

#39 B2_q218: Registered under

Value	Label	Cases	Percentage
01	District Industries Centre as Small Scale Industry (SSI)	128	3.1%
02	Khadi and Village Industries Commission	112	2.7%
03	Development Commissioner, handicrafts	16	0.4%
04	Development Commissioner, handlooms	23	0.6%

1	Yes	9832	12.2%
2	No	70728	87.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#48 B2_q227: Problems-marketing

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80522 /-] [Invalid=0 /-]
Interviewer's instructions	As given in Q-223

Value	Label	Cases	Percentage
1	Yes	16771	20.8%
2	No	63751	79.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#49 B2_q228: Problems-any other

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80366 /-] [Invalid=0 /-]
Interviewer's instructions	As given in Q-223.For item 228, provision has been made to record code for one additional problem, which is not included in the list of items from 223 to 227.

Value	Label	Cases	Percentage
1	local problems/ harassment	2820	3.5%
2	competition from larger units	16074	20.0%
3	non-availability of labour/ labour problems	1192	1.5%
4	fuel not available or available at exorbitant price	732	0.9%
5	non-recovery of service charges/ fees/ credit	4938	6.1%

File Block-2-Operation and background information-records

#49 B2_q228: Problems-any other

Value	Label	Cases	Percentage
6	no specific problem	51511	64.1%
9	lack of other infrastructure facilities	3099	3.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#50 B2_q229: Undertake on contract basis?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80637 /-] [Invalid=0 /-]
Literal question	Did the enterprise undertake any work on contract basis:
Interviewer's instructions	The enterprises in the unorganised sector tend to be small units. In many cases, the enterprises are observed to be working as per the orders from a bigger unit. In such cases, certain conditions are put on the server unit by the contractor or master unit. Conditions may be on the sale of products, may be on the mode of payment or may be on the supply of raw materials, etc. If the surveyed unit does any amount of work under contract, code against this item will be 1. Otherwise, code will be 2.

Value	Label	Cases	Percentage
1	Yes	15808	19.6%
2	No	64829	80.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#51 B2_q230: Type of contract

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=15819 /-] [Invalid=0 /-]
Pre-question	If an enterprise undertakes work on contract basis (code 1 in item 229), items 230 to 233 will be filled in.
Post-question	if code 2 in item 229 skip to q.234
Interviewer's instructions	Give appropriate code.

Value	Label	Cases	Percentage
1	working solely for enterprise/contractor	9936	62.8%
2	mainly on contract but also for other customers	2781	17.6%
3	mainly for customers but also on contract	3094	19.6%
6		2	0.0%
8		1	0.0%
9		5	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#52 B2_q231: Equipment supplied by

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=15738 /-] [Invalid=0 /-]
Post-question	if code 2 in item 229 skip to q.234
Interviewer's instructions	The same set of three codes is applicable for q-231 and 232

Value	Label	Cases	Percentage
1	self-procured	13268	84.3%
2	supplied by the master unit/contractor	1898	12.1%
3	both	571	3.6%
6		1	0.0%

File Block-2-Operation and background information-records

#52 B2_q231: Equipment supplied by

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#53 B2_q232: Raw materials supplied by

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=15759 /-] [Invalid=0 /-]
Post-question	if code 2 in item 229 skip to q.234
Interviewer's instructions	As in q-232

Value	Label	Cases	Percentage
1	self-procured	2301	14.6%
2	supplied by the master unit/contractor	11385	72.2%
3	both	2073	13.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#54 B2_q233: Design specified by contractor?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=15848 /-] [Invalid=0 /-]
Interviewer's instructions	In certain cases the contractor specifies the design of product to the server unit. This is common in garment manufacturing, shoe manufacturing, tailoring, etc. In such situations, code 1 will be recorded. Otherwise, the code will be 2.

Value	Label	Cases	Percentage
0		1	0.0%
1	Yes	14616	92.2%
2	No	1210	7.6%
3		2	0.0%
5		1	0.0%
8		17	0.1%
9		1	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#55 B2_q234: Types of assistance received-5 yrs.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80488 /-] [Invalid=0 /-]
Literal question	Types of assistance received during the last 5 years (code-1)

Value	Label	Cases	Percentage
1	financial loan (institutional)	5605	7.0%
2	financial loan (non-institutional)	2526	3.1%
3	subsidy	192	0.2%

File Block-2-Operation and background information-records

#56 B2_q235: Types of assistance received-5 yrs.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1737 /-] [Invalid=0 /-]
Literal question	Types of assistance received during the last 5 years (code-2)

Value	Label	Cases	Percentage
1	financial loan (institutional)	239	13.8%
2	financial loan (non-institutional)	487	28.0%
3	subsidy	170	9.8%
4	machinery/ equipment	37	2.1%
5	training	65	3.7%
6	marketing	58	3.3%
7	procurement of raw material	95	5.5%
8	no assistance received from any source	120	6.9%
9	others	466	26.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#57 B2_q236: Status of the enterprise-las 3 yrs.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80558 /-] [Invalid=0 /-]
Interviewer's instructions	The objective of this item is to record the owner's impression about the growth or decline of the enterprise in the recent past (last three years).

Value	Label	Cases	Percentage
1	expanding	16200	20.1%
2	stagnant	41038	50.9%
3	contracting	13174	16.4%
4	operated for less than 3 years	10146	12.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#58 B2_q237: Ent. Type during the ref. year

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=80637 /-] [Invalid=0 /-]
Interviewer's instructions	The actual enterprise type on the basis of total number of workers and number of hired workers normally worked during the reference year will be recorded here. If the enterprise normally ran without any hired worker during the reference year (irrespective of whether it had hired workers during the reference month or not) it will be considered as an OAME and the code will be 1. If it normally ran with 1 or more hired workers, code will be 2 or 3 depending upon whether the total number of workers (working owners, hired workers and other workers all taken together) during the reference year was less than 6 or not.

Value	Label	Cases	Percentage
1	OAME	55029	68.2%
2	NDME	17910	22.2%
3	DME	7698	9.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B3_c1: Item Code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=206327 /-] [Invalid=0 /-]
Source	Reference period for this block will be a reference month, if the enterprise is providing information orally. It will be the reference year if information is provided from their books of accounts
Interviewer's instructions	Items 301 to 306: This sub-block will record the materials consumed in the manufacturing process. Information in respect of at most five major raw materials (excluding intermediate products) used in the manufacturing process is to be recorded in items 301 - 305 for the reference period. Item 306 will record combined value of the remaining raw materials consumed during the reference period. Items 311-319 : record commodities purchased or items consumed in respect of trading and other activities A manufacturing enterprise indulges into such an activity due to a variety of reasons. Some enterprises purchase materials required for producing the items manufactured. It simultaneously sells a part of these materials as well. Some enterprises, in addition to manufacturing, purchases and sells some other commodities. To capture these two types of activities separately, two items have been provided in this sub-block, viz. items 311 and 312. Purchase value of all the materials (which the unit can also use for its manufacturing activity) sold in same condition as purchased, termed as 'goods incidental to manufacturing' will be recorded in item 311. The combined value of purchase of the remaining items traded will be reported against item 312. If the enterprise pursues manufacturing activity mixed with some service activity other than trade, (e.g. restaurant), purchase value corresponding to the items consumed for running this service activity will be recorded in item 313.

Value	Label	Cases	Percentage
301	raw materials consumed	48723	23.6%
302	raw materials consumed	34542	16.7%
303	raw materials consumed	22981	11.1%
304	raw materials consumed	14626	7.1%
305	raw materials consumed	8692	4.2%

File Block-3-Principal operating expenses-records

#22 B3_c1: Item Code

Value	Label	Cases	Percentage
306	other raw materials	19572	9.5%
309	total (items 301 to 306)	49873	24.2%
311	trading and other activities-commodities purchased or items consumed: goods incidental to manufacturing	936	0.5%
312	trading and other activities-commodities purchased or items consumed: other trading items	2402	1.2%
313	Others	481	0.2%
319	total (items 311 to 313)	3499	1.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B3_c3: ASICC Code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=127942 /-] [Invalid=0 /-]

File Block-4-Principal receipts-records

#22 B4_c1: Item Code

Statistics [NW/ W]	[Valid=174142 /-] [Invalid=0 /-]
Definition	Block 4 will record the principal receipts in two sub-blocks corresponding to which the principal expenses have already been collected in block 3. The items are divided into the sub-blocks activity-wise against which the principal receipts will appear.
Interviewer's instructions	Items 401 to 406: products and by-products manufactured.Names of five major products/by-products, ASICC code, unit of quantity, quantity and value of their output will be recorded in columns 2 to 6 against each of the items 401 to 405. For each commodity, the appropriate commodity code is to be taken from ASICC and recorded against items 401 to 405 together with the unit of quantity and quantity produced. If the number of products and by-products exceeds five, the values of remaining products will be added together and the total will be shown against item 406.
	Items 411 to 413: opening, closing and change in stock of semi-finished goods: Semi-finished goods are defined as goods, which are yet to be processed to transform into final product.
	Items 421 to 424: trading: record commodities sold, opening, closing and change in stock. Item 431: receipts from other activities: If the manufacturing unit is engaged in any additional activity other than trading, gross receipts from that activity will be recorded in item 431.

Value	Label	Cases	Percentage	
401	products and by-products manufactured manufactured	30421		17.5%
402	products and by-products manufactured manufactured	7540		4.3%

#22 B41_5_c1: Item Code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=389913 /-] [Invalid=0 /-]
Interviewer's instructions	If some of the items have already been covered under specific activities in block 4, they should not be reported again in block 4.1. There are six items in the block (items 441-446). Item 449 gives the total. Calculation of gross value added for the reference period : The items 501 and 503 are transfer entries from blocks 3, 3.1, 4 and 4.1 and are mostly self-explanatory.

Value	Label	Cases	Percentage
439		1	0.0%
441	receipts from services provided to others including commission charges	55906	14.3%
442	value of own construction of building, furniture and fixtures including own and hired labour charges (please check consistency with item 323)	524	0.1%
443	value of consumption of goods/services produced or traded for own use of the owner or employees (at owner's cost)	17619	4.5%
444	rent receivable on fixed assets (other than land and building)	107	0.0%
445	funding / donations received (including recurring govt. grants and subsidies)	95	0.0%

File Block-4dot1-5-Other receipts and gross value added-records

#22 B41_5_c1: Item Code

Value	Label	Cases	Percentage
446	other receipts (including royalties receivable)	8633	2.2%
449	total (items 441 to 446)	63666	16.3%
501	total operating expenses: [items (309+319+349)]	79406	20.4%
502	distributive expenses, if any@	3318	0.9%
503	total receipts: [items (419+439+449)]	80001	20.5%
509	gross value added (item 503 - item 502 - item 501)	80637	20.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Interviewer's instructions	Block-6: Calculation of average number of workers

Few common instructions for filling up items 601 to 615

entries may be done first for the females, followed by males.

All the calculations of average worker corresponding to the entries of items 601-616 have to be done according to the method of calculation of average number of workers illustrated in this manual of instructions.

Working owner, hired worker, other workers can be either full-time or part-time according to the definitions given abo

For seasonal and casual enterprises, if figures are collected from books of accounts, average number of workers will be calculated based on number of working months.

Generally, for an enterprise, there will be at least one worker

Items 601, 604, 611, 614: Working owner: In case of proprietary or partnership enterprises, if the owners personally work in the enterprise on a fairly regular basis, then they will be considered as working owner.

For full-time female/male working owner, item 601/ item 611 will be positive.
For part-time female/male working owner, item 604/ item 614 will be positive.

Items 602, 605, 612, 615: Hired worker: A hired worker is a person employed directly or through any agency on payment of regular wage/ salary in cash or kind. Apprentices, paid or unpaid, are to be treated as hired workers. Paid household workers, servants and resident workers of the enterprise are also to be considered as hired workers for the purpose of making entry against this item.

For full-time female/male hired worker, item 602/ item 612 will be positive.
For part-time female/male hired worker, item 605/ item 615 will be positive.

Items 603, 606, 613, 616: Other workers: Information regarding the workers not covered in items mentioned in above two paragraphs shall be recorded against this item. This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers/ helpers who are associated with the activities of the enterprise during the reference period will be considered for recording entries against these items.

For female/ male full-time other workers, Item 603/ item 613 will be positive.
For female/ male part-time other workers, item 606/ item 616 will be positive.

Item 619: Total workers: The entry is the sum of all the entries from items 601 to 616.

Block-7:Compensation to workers

File Block-6-7-Employment particulars and Compensation to workers-records

#22 B6_7_c1: Item Code

This block is applicable for enterprises where salary/ wages, bonus etc. in cash or kind or both is payable to the individual workers/ working owner (s) during the reference period. Reference period used for this block will be the same as the one used for block 3. There may be other types of payments like canteen facility, health care facility, sports/recreation club facility, etc. which are paid in kind to a group or to all the workers of the enterprise. All these types of payments, whether individual payments or payments made to a group will be recorded in this block. The entries will be in whole number of rupees.

Items 701 and 702: Salary/wages, allowances and other individual benefits (cash & kind): Salaries/ wages payable for the reference period will be recorded first for the working owners and then for the hired workers in these items.

Items 703 and 704: Imputed value of group benefits (including employer's contribution towards canteen, sports, insurance, etc.): This includes expenses (net cost to the enterprise) made by the employer to provide amenities and benefits in kind to workers as a whole, either free of cost or at subsidised rates. It includes:
(i) Provision of canteen, crèches, sports & recreation clubs, dispensary, etc.

Item 709: Total emoluments: Total of items 701 to 704, the total emoluments payable to all the workers for the reference period shall be recorded here.

Value	Label	Cases	Percentage
601	female full-time - working owner	16502	5.7%
602	female full-time - hired worker	3433	1.2%
603	female full-time - other worker / helper	6347	2.2%
604	female Part-time - working owner	5275	1.8%
605	female Part-time - hired worker	650	0.2%
606	female Part-time - other worker / helper	6451	2.2%
611	male full-time -working owner	57565	20.1%
612	male full-time -hired worker	23220	8.1%
613	male full-time -other worker / helper	11423	4.0%
614	Male-part-time-working owner	4514	1.6%
615	Male-part-time-hired worker	1497	0.5%
616	Male-part-time-other worker / helper	4128	1.4%
619	total (items 601 to 616)	80618	28.1%
701	salary/ wages, allowances and other individual benefits - working owners	3079	1.1%
702	(cash & kind including bonus, retirement benefits, etc. apportioned for the reference period)- hired workers	25148	8.8%
703	imputed value of group benefits - working owners	1891	0.7%
704	(including employer's contribution towards canteen, sports, insurance, etc.)-hired and other workers	8068	2.8%
709	total emoluments (items 701 to 704)	27286	9.5%

#22 B9_c1: Serial no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=23668 /-] [Invalid=0 /-]
Interviewer's instructions	nd is termed as loan. When a loan is granted by a banker/financier to an enterprise, the whole amount is placed at the disposal of the enterprise and interest at an agreed rate is charged thereon from the date of disbursement of the loan. The reference period for amount of loan outstanding will be reference year, while for interest payable, reference period will be the same as one used in blocks 3 to 7. All entries in this block will be made in whole number of rupees.

Value	Label	Cases	Percentage
901	central and state level term lending institutions, government (central, state, local bodies), banks & societies (public sector, commercial, co-operative)	5041	21.3%
902	other institutional agencies	608	2.6%
903	Moneylenders	2508	10.6%
904	business partner(s)	214	0.9%
905	suppliers / contractors	856	3.6%
906	friends and relatives	2999	12.7%
907	Others	561	2.4%
909	total (901 to 907)	10881	46.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B9_c3: Loan outstanding-Amount

Information	[Type= continuous] [Format=numeric] [Range= 0-171108368] [Missing=*]
Statistics [NW/ W]	[Valid=23656 /-] [Invalid=13 /-] [Mean=376594.539 /-] [StdDev=2557552.249 /-]
Interviewer's instructions	Any borrowing in cash or kind to be repaid in cash or kiAmount of loan outstanding, shall be recorded in this column against the appropriate source(s) of loan.

#24 B9_c4: Interest payable

Information	[Type= continuous] [Format=numeric] [Range= 0-10466650] [Missing=*]
Statistics [NW/ W]	[Valid=16419 /-] [Invalid=7250 /-] [Mean=31999.924 /-] [StdDev=220118.106 /-]
Interviewer's instructions	Interest payable during the reference period (Rs): Total interest payable for the reference period for all the loans taken by the enterprise will be recorded here, irrespective of the fact that any of the loans might have been repaid either fully or partly or found to be outstanding.

#25 wgt_combined: Multiplier Combined
