PREFACE

National Sample Survey Organisation (NSSO) conducted an integrated survey of households and service sector enterprises in the 63rd round of NSS during July 2006 - June 2007. The subjects covered were service sector enterprises (excluding trade) and household consumer expenditure. One distinctive feature of survey on service sector enterprises was inclusion of financial enterprises under survey coverage for the first time. The present report is the first one of two reports to be brought out based on the survey on service sector enterprises. Apart from information on estimated number of enterprises and number of workers, the report provides information on operational characteristics of the enterprises like location of enterprise, maintenance of accounts, number of working hours, nature of operation etc. at all India level for different industry groups and at the level of States / UTs for all the industry groups taken together.

Chapter One of the report is introductory. Chapter Two deals with concepts and definitions. Chapter Three of the report gives the summary of the findings. Detailed tables based on the survey are given in Appendix A. The sample design and estimation procedure are given in Appendix B. Facsimile of schedule canvassed during the survey is given in Appendix C.

Survey Design and Research Division of NSSO developed the sample design and survey instruments and also prepared the report. The Field Operations Division of NSSO carried out the fieldwork and the Data Processing Division of NSSO handled the data processing and tabulation work. The Coordination and Publication Division of NSSO coordinated various activities pertaining to the survey.

I am grateful to the Chairman and Members of the then Governing Council of NSSO and also the Chairman and Members of the Steering Committee and Working Group for the NSS 63rd round for their technical guidance at various stages of survey work. I am grateful to all Officers and Staff Members of this Ministry who were associated with the survey for their contribution. Special thanks are also due to the informants who provided the requisite information during data collection in the survey.

The report, I hope, will be useful to planners, policy makers and researchers. Comments and suggestions for improvement will be most welcome.

(S.C.Seddey)

18	Per 1000 distribution of enterprises maintaining accounts; number per 1000 of Non Profit Institutions (NPI) by state / UT	A 158-A 166
19	Percentages of enterprises registered under different acts having PAN/ TAN by activity category	A 167-A 169

Table no	Table description	Page
20	Percentages of enterprises registered under different acts having PAN/TAN by State/UT	A 170-A 172
21	Number per 1000 of enterprises registered under different acts / authorities and by activity category	A 173-A 190
22	Number per 1000 of enterprises registered under different act / authority and by state / UT	A 191-A 208
23	Number per 1000 of enterprises by nature of problems faced and by activity category	A 209-A 217
24	Number per 1000 of enterprises by nature of problems faced and by state / UT	A 218-A 226
25	Number per 1000 of enterprises working on contract by enterprise type and by activity category	A 227-A 229
26	Number per 1000 of enterprises working on contract by enterprise type and by state / UT	A 230-A 232
27	Number per 1000 of enterprises receiving assistance by state/UT	A 233-A 241
28	Number per 1000 of enterprises pursuing mixed activity by state/UT	A 242-A 244
29	Per 1000 distribution of enterprises with mixed activity by industry section (NIC 2004) of their minor activity	A 245-A 247
30	Per 1000 distribution of enterprises by other economic activities and major source of annual income of owner of the enterprise for each activity category (for proprietary and partnership enterprises only)	A 248-A 250
31	Per 1000 distribution of enterprises by number of working hours of the enterprise in a normal day during the reference year and reference month for each activity category	A 251-A 259
32	Per 1000 distribution of enterprises by number of working hours of the enterprise in a normal day during the reference year and reference month by State/ UT	A 260-A 268
33	Per 1000 distribution of enterprises by number of months operated during last 365 days and by activity category	A 269-A 277
34	Per 1000 distribution of enterprises by number of months operated during last 365 days and by state / UT	A 278-A 286
35	Estimated number of workers by activity category and by state/UT	A 287-A 304
36	Loan transaction per enterprise of self-help group by state/ UT	A 305-A 313
37	Loan transaction per enterprise of co-operative credit society by state/ UT	A 314-A 322

सेवा-क्षेत्र उद्यमों की प्रचालनात्मक विशेषताएं
(जुलाई 2006 - जून 2007)

मुख्य परिणाम

यह सर्वेक्षण 5573 ग्रामों एवं 7698 नगरीय खंडों में किया गया। अंततोगत्वा कुल 190282 उद्यम सर्वेक्षित किए गए (जिनमें 438 सूची ढांचा उद्यम शामिल थे)।

- यह आकलित किया गया कि वर्ष 2006-07 के दौरान भारत में करीब 1.65 करोड़* सेवा क्षेत्र उद्यम कार्य कर रहे थे।
- आकलित उद्यमों की कुल संख्या में से 60% ग्रामीण भारत में थे और 40% नगरीय भारत में।
- कुल उद्यमों में 85% स्व-कार्यरत उद्यम थे एवं शेष 15% प्रतिष्ठान थे।
- उद्यमों की कुल संख्या में उत्तर प्रदेश का भाग सबसे उच्च (14%) था, उसके बाद पश्चिम बंगाल (13%), आन्ध्र प्रदेश (10%), महाराष्ट्र (9%) एवं तमिलनाडू (7%) थे। ये पांचों राज्य मिलकर अखिल भारतीय स्तर पर उद्यमों का 53% बनाते थे।
- 2006-07 के दौरान सेवा क्षेत्र उद्यमों में करीब 3.35 करोड़ व्यक्तियों के कार्यरत होने का अनुमान लगाया गया है।
- कामगारों की संख्या के हिसाब से ऊपर के पांच राज्य थे उत्तर प्रदेश (12%), आन्ध्र प्रदेश (11%), महाराष्ट्र (10%), पश्चिम बंगाल (10%) और तमिलनाडू (9%)। सेवा क्षेत्र के कुल कामगारों का 52% इन पांच राज्यों के नाम था।
- प्रति उद्यम कामगारों की संख्या करीब 2.03 थी।
- करीब 90% उद्यम मालिकाना उद्यम थे और 7% सहकारी सोसाइटियां एवं स्वयं सेवा समूह थे।
- करीब 59% उद्यम किसी भी एजेन्सी द्वारा पंजीकृत नहीं थे।
- लगभग 74% उद्यमों के पास व्यापार परिचालन के लिए अपना निश्चित परिसर था, जिनमें से 32% पारिवारिक परिसरों में स्थित थे और 41% पारिवारिक परिसरों के बाहर थे। शेष 26% उद्यमों के पास परिचालन के लिए अपना कोई निश्चित परिसर नहीं था।
- सभी उद्यमों का करीब 99% स्वरूप में बारहमासी थे, जबकि 91% उद्यमों ने संदर्भ वर्ष के दौरान 9 महीनों से भी अधिक अवधि तक परिचालन किया था।
- मालिकाना और भागीदारी उद्यमों में करीब 81% कार्य करने वाले स्वामी या प्रबंधक भागीदार कुछ औपचारिक शिक्षा के साथ साक्षर थे।
- करीब 86% उद्यमों को किसी सरकारी या गैर-सरकारी एजेन्सी से कोई सहायता प्राप्त नहीं हुई थी।
- करीब 2% उद्यमों ने ठेकेदारी पर कुछ कार्य हाथ में लिया था।
- करीब 32% उद्यमों ने कुछ अन्य आर्थिक क्रियाकलाप किया था।
- करीब 5% उद्यम मिश्रित क्रियाकलाप में लगे हुए थे।
- करीब 10% उद्यम लेखा रखते थे।

* (1 करोड़ = 10⁷)

Operational Characteristics of Service Sector Enterprises (Excluding Trade)
(July 2006-June 2007)
Highlights

The survey was conducted in 5573 villages and 7698 urban blocks. A total of 190282 enterprises (including 438 list frame enterprises) were ultimately surveyed.

- About 1.65 crore¹ service sector enterprises were estimated to be working in India during 2006-07.
- Of the total number of enterprises estimated, 60% was in rural India and 40% in urban India.
- OAEs constituted 85% of all enterprises and the remaining 15% were establishments.
- Uttar Pradesh had the highest share in total number of enterprises (14%) followed by West Bengal (13%), Andhra Pradesh (10%), Maharashtra (9%) and Tamil Nadu (7%). These five states accounted for 53% of enterprises at all-India level
- About 3.35 crore persons were estimated to be working in service sector enterprises during 2006-07.
- The top five states in terms of their share of workers were Uttar Pradesh (12%), Andhra Pradesh (11%), Maharashtra (10%), West Bengal (10%) and Tamil Nadu (9%). These five states accounted for 52% of total workers of the service sector
- The number of workers per enterprise was about 2.03.
- About 90% of enterprises were proprietary enterprises and 7% were cooperative societies and self-help groups.
- About 59% of enterprises were not registered with any agency.
- About 74% of enterprises were having fixed premises of operation of business, out of which 32% were located in the household premises and 41% were located outside household premises. The remaining 26% of enterprises had no fixed premises of operation.
- While about 99% of all enterprises were perennial in nature, 91% of enterprises operated more than 9 months during the reference year.
- About 81% of working owners or managing partners of proprietary and partnership enterprises were literate with some formal education.

¹ (1 crore = 10⁷)

- About 86% of enterprises did not receive any assistance from any government or non-government agencies.
- About 2% of enterprises had undertaken at least some work on contract basis.
- Nearly 32 % of enterprises had also undertaken some other economic activity.
- About 5% of enterprises were pursuing mixed activity.
- About 10% of enterprises were maintaining accounts.

Chapter One

Introduction

1.1 General

1.1.1 An all-India survey on service sector enterprises (excluding trade) was carried out by the National Sample Survey Organisation (NSSO) as part of the 63rd round of National Sample Survey (NSS) during July 2006 – June 2007. The other subject of enquiry, which formed part of this round, was annual survey on household consumer expenditure.

1.1.2 Service sector is the most important segment of economy in terms of its contribution to the overall GDP. As per the latest available National Accounts Statistics, during 2007-08, the service sector had a share of about 53% in the GDP at factor cost¹. It is a diverse domain of economic activities, sizes and operational characteristics of units. The entire range of units in the service sector consist of very big corporate entities accounting for bulk of output as well as large number of very small and tiny enterprises with substantial share in employment. It is second only to agriculture in employment generation. Further, the service sector has been recognized universally as the prime driver of accelerated and diversified growth of the economy. However, major data gaps exist in all the segments of this sector because of their impressive growth and spread in the geographical domain. To give a few examples, data on private non-financial services are not available regularly. Also, major data gaps exist with regard to private non-banking financial sectors (NBFCs), Self-Help Groups (SHGs), Co-operative credit societies, Micro-finance institutions etc. This survey was primarily designed to fill these gaps. Additional data on transport sector was collected to help understand the pattern of use of commercial vehicles in the country. Last survey of service sector enterprises was conducted during July 2001-June 2002, as part of NSS 57th round.

1.1.3 The household-based non-agricultural activities, irrespective of their scale of operations, were covered in the surveys of NSSO in the early periods. The non-household based units in the unorganised sector thus remained outside the coverage, primarily due to non-availability of a comprehensive frame and background information needed for formulating an efficient sampling design. The need for auxiliary information on areas of concentration of enterprises for stratification purpose was strongly felt for developing more efficient sampling designs. This demand ultimately culminated in the conduct of periodic Economic Censuses (EC), which provided the frame for the follow-up surveys on non-agricultural enterprises including the non-household based units in the service sector.

1.1.4 With the launching of the first EC in 1977 (five ECs have been conducted so far), the follow-up surveys of EC on unorganised manufacturing and service sector enterprises generally used the village and block level information on number of enterprises/workers as per the EC for selection of villages and urban blocks in the first stage. The approach of data collection from

¹ CSO Press Release dated 30th May, 2008.

NSS Report no. 528: Service Sector in India, 2006 – 2007: Operational Characteristics of Enterprises

enterprises was also changed from the 'household approach' used earlier (i.e. prior to the launching of EC) to the 'site approach' wherever such sites existed.

1.2 The Survey in Brief

1.2.1 As stated already, NSSO conducted an integrated survey of enterprises and households in its 63rd round during July 2006 - June 2007. The main focus of the survey was on enterprises belonging to the service sector excluding trade and the information was collected through Schedule 2.345 designed for the purpose. A copy of the schedule is given in **Appendix C**. In addition, survey on household consumer expenditure was carried out during this period.

1.2.2 **Coverage of Services Sector:** The 63rd round covered broadly service sector enterprises engaged in the activities of hotels and restaurants (Section H of NIC 04); transport, storage and communication (I); financial intermediation (J); real estate, renting and business activities (K); education (M); health and social work (N) and other community, social and personal service activities (O). A striking feature of the current survey was inclusion of financial intermediation (J) not covered in earlier surveys on unorganised services sector.

1.2.2.1 However, under the broad activities noted above, the survey did not cover the following industries/activities:

- i) Transport via railways, air transport, transport via pipeline (groups 601, 603 and division 62 of NIC '04),
- ii) Operating of real estate of self owned residential buildings (sub-class 70103 of NIC '04),
- iii) Monetary intermediation (group 651 of NIC 2004) - the obtaining of funds in the form of transferable deposits i.e. funds that are fixed in money terms and obtained on a day-to-day basis and this includes activities of central banks and monetary institutions other than central banks viz. commercial banks, discount houses, savings banks etc. It may be mentioned that data for this sector are covered through regular surveys of RBI.
- iv) Activities of trade unions (sub-class 91200), religious organizations (sub-class 91910) & political organizations (sub-class 91920). Note that a part of sub-class 91910 relating to activities of individuals who provided services directly to worshippers like priests etc was covered.

1.2.2.2 Among the industries under coverage of survey, the following units were excluded from the coverage of the survey:

- i) All Government and Public Sector Enterprises.

- ii) All government and government aided educational institutions (A government-aided educational institution meant an institution where entire salary of all the teaching and non-teaching staff was borne by the government).
- iii) Among the service sector units registered under the Factories Act, 1948, units appearing in the latest Annual Survey of Industries (ASI) frame (i.e., ASI frame 2004-05).
- iv) Enterprises which operated for less than 30 days (less than 15 days for seasonal enterprises) during last 365 days preceding the date of survey.

1.2.2.3 The survey also did not cover the service sector enterprises engaged in the activities of wholesale and retail trade, repair of motor vehicles, motorcycles and personal and household goods (G); public administration and defence (L); production activities of private households and activities of private households as employers (P) and extra-territorial organisations and bodies (Q) (*hereafter 'service sector enterprises' would mean 'service sector enterprises under coverage of the survey'*).

1.2.2.4 The different Industry Sections mentioned above were further sub-divided to form relatively uniform groups/sub-groups. The coverage of the different activities in the present round has been given in **Table 0** at the end of this chapter.

1.2.3 **Difference in coverage of industries with the previous survey:** Coverage in the current survey differed with the previous one (i.e. NSS 57th round) only in respect of the following industries:

- Financial intermediation (NIC Section J) and industry code 9199 (activities of other membership organization not elsewhere classified) covered in 63rd round but excluded from coverage in 57th round.
- Industry code 601(only non-mechanised transport activities related to transport via railways) and 911 (activities of business, employers and professional organizations) covered in 57th round but excluded from coverage in 63rd round.

1.2.3.1 Apart from the differences noted above, the other industries covered in the current round (**vide Table 0**) are identical with the coverage of industries in 57th round.

1.2.4 **Geographical Coverage:** The survey covered the whole of the Indian Union except (i) Leh (Ladakh), Kargil, Punch and Rajauri districts of Jammu & Kashmir, (ii) interior villages situated beyond 5 km of a bus route in Nagaland, (iii) villages of Andaman and Nicobar Islands, which remain inaccessible throughout the year. Thus the corresponding State/UT level estimates and the all-India results presented in this report related to the areas covered under survey.

1.2.5 **Sub round:** The entire survey period (1st July 2006 to 30th June 2007) was divided into four sub-rounds of three months' duration each (Sub-round 1: July-September 2006, Sub-round 2:

October-December 2006, Sub-round 3: January-March 2007, Sub-round 4: April-June 2007) and equal numbers of sample villages and blocks were allocated to each sub-round. Each sample village/block was surveyed during the sub-round period to which it was allocated. This restriction was not strictly enforced in only certain areas with poor accessibility. Within a particular sub-round, the field work was spread out evenly over different months to the extent possible.

1.2.6 Outline of Sample Design: For the survey on the service sector, two frames were used in 63rd round survey viz. **List frame** and **Area frame**.

1.2.6.1 List Frame: Enterprise surveys using only area frame for sampling had been conducted periodically by NSSO in the past. But the size distributions (by number of workers or gross value added) of the enterprises being highly skewed for many of the service sector activities, representations of few large units having very high share of GVA in the industry had most often been inadequate. Thus, it was felt essential to adopt a strategy ensuring proper representation of larger units so that efficiency of estimates of GVA is improved. Use of list frame comprising *relatively large units* was accordingly envisaged in this regard. Bearing constraints of resources in mind, a list of 998 big service sector companies distributed all over India was used as list frame. The list frame covered both financial and non-financial service sector enterprises. These big units belonging to private corporate sector were meant for survey on complete enumeration basis. However, among these 998 list frame units, only 438 units could ultimately be identified/surveyed because the remaining units were either not found to be eligible for survey (for example, being government or public sector enterprises) or were not identifiable in the field due to incomplete address in frame or change of locations. If the surveyed list frame unit had branches, then a combined Schedule 2.345 covering all branches was filled up. However, these companies and their branches were excluded from the coverage of area frame survey to avoid duplication.

1.2.6.2 Area Frame: In the area frame, a stratified multi-stage sampling design was adopted in 63rd round. First-stage units (FSUs) were villages (Panchayat wards in Kerala) in rural areas and Urban Frame Survey (UFS) blocks in urban areas. For a few towns where UFS was not conducted, towns were treated as FSUs. The ultimate stage units were service sector enterprises in both the sectors. Relatively larger FSUs were sub-divided into smaller parts called hamlet-groups (hg) in the rural areas and sub-blocks in the urban areas. In case of large FSUs requiring hamlet-group (hg) / sub-block (sb) formation, one intermediate stage in the sampling involved the selection of three hg's / sb's from each FSU out of a minimum of four hg's/sb's formed in the FSU. One hg/sb with maximum number of enterprises of a specific type was selected with probability '1' and called segment 1 (details given in **Appendix B**) and two more hg's/sb's selected at random from the list of remaining hamlet groups of the FSU constituted segment 2. Within the segments as noted above, eight Second Stage Strata (SSS) classified by type of industries x enterprise types were formed. The ultimate stage units (USUs) i.e. the service sector enterprises were selected from the eligible enterprises of the respective SSS of each segment by SRSWOR. However, within the whole FSU relatively bigger service sector enterprises having 50 or more workers that were eligible for survey (i.e. having operated for at least 30/15 days during the reference year

respectively for non-seasonal/seasonal enterprises) were separately listed (segment 9) and the schedule was canvassed in all these listed enterprises of segment 9. In other words, no sampling was done in segment 9 unlike other two segments. As regards the first stage stratification, two basic strata were formed within each district of a State/UT: rural stratum comprising all rural areas of the district and urban stratum consisting of all urban areas of the district. However, each city with a population of one million or more as per Census 2001 was invariably treated as a separate stratum by itself. For details of stratification, sub-stratification and selection of sample FSUs, reference may be made to **Appendix B** of this Report.

1.2.6.3 Design-based estimates of aggregates for any selected survey characteristic were obtained separately for list frame and area frame. Finally these two sets of estimates were added to get the pooled aggregate estimate for the combined frame. In this report, discussion will be mainly focused on the pooled estimate based on two types of frames used in the survey.

1.2.7 **Items of information and method of data collection:** Schedule 2.345 was designed for collection of data from the service sector enterprises. The schedule was organized into 19 blocks. The format of the schedule is placed as **Appendix C** of the report. The items of information collected through different blocks of the schedule included the following:

- Particulars of operation and background information of the enterprise
- Principal operating expenses
- Other operating expenses
- Principal receipts
- Other receipts
- Other receipts/expenditures (non-entrepreneurial) for non-financial enterprises
- Gross value added
- Employment particulars
- Compensation to workers
- Fixed assets owned and rent payable on hired assets
- Financial liabilities

1.2.7.1 The above items of information from any enterprise were collected either from books of accounts of the sample enterprises or through oral enquiry depending upon whether the enterprises maintained books of accounts and also provided data from it or not. Reference periods used for various items of information are discussed in **Chapter Two**.

1.2.8 **Sample Size and its limitation:** A total of 13,322 first stage units (of which sample villages were 5,601 in number) were selected for this survey. However, only 13,271 first stage units could ultimately be surveyed. The number of sample FSUs allotted for survey and actually surveyed are given in **Table 0.1** and the number of enterprises surveyed in **Table 0.2** for different states. The number of enterprises surveyed for various NIC sections/activities is given in **Table 0.3** for all-India only.

1.2.8.1 In the area frame, 1,89,844 enterprises (83,184 from rural India and 1,06,660 from urban India) spread over 5573 villages and 7698 urban blocks across the country were surveyed. From the list frame as already mentioned, data could be collected from only 438 enterprises (for state/UT wise distribution of allotted and surveyed numbers of enterprises as per the list frame, reference may be made to **Appendix Table 2**). Thus a large percentage (56%) of list frame enterprises became casualties primarily on account of being non-traceable or non-operative/closed during the reference year (**vide Appendix Table 2**). Similarly, Out of 378 enterprises in segment 9 of area frame, only 266 enterprises could be surveyed (**vide Appendix Table 3**). Thus, about 30% of big enterprises (having 50 or more workers) constituting segment 9 of area frame, were casualties. About 36 % of such casualty enterprises were due to either informant being non-cooperative or enterprise being found to be outside survey coverage at the detailed enquiry stage. It is important to mention here that even though a very significant percentage of enterprises belonging to list frame and segment 9 of area frame became casualty, theoretically the pooled estimate based on the list frame and area frame pertains to the universe of the service sector under coverage. The estimation procedure developed for the purpose (**see Appendix B**) also ensured this.

1.2.8.2 Thus, altogether a total of 1,90,282 service sector enterprises considering both list frame and area frame were surveyed. In the appendix tables, although estimates are presented at disaggregated level i.e. sector (rural/urban/combined) x enterprise type (OAE/Establishment/All) by NIC sections/activity code (for all-India) or by State/UT, sample size at the ultimate level of disaggregating may sometimes be very small, which may have bearing on the precision of estimates. The users of this report are, therefore, advised to look at the related sample size while using the survey results particularly at the disaggregated level.

1.3 Plan of release of reports: Based on the data collected through Schedule 2.345 in NSS 63rd round, two reports will be brought out. The present one is the first in the series. The report discusses, among other things, the operational characteristics of service sector enterprises including its size and employment in brief. The second and the last report will discuss the details of input, output and value added of such enterprises including its fixed assets, loans and capital formation.

1.4 Layout of the present report: The report contains three Chapters (including the present introductory one) and three Appendices. Chapter Two deals with the concepts and definitions of various terms used in the survey. Chapter Three discusses the main findings of the survey based on the data collected through central sample i.e. data collected by the field staff of NSSO. Detailed tables are presented in Appendix A. The sample design and estimation procedure is given in Appendix B. A facsimile of the schedule of enquiry used in the survey is given in Appendix C.

Table 0: List of Industries (NIC'04) covered under the survey

NIC-2004		Description
Code	Activity	
55	HOTELS AND RESTAURANTS	<p>A hotel is an enterprise that provides lodging services with or without arrangements for meals, other prepared food and refreshments. Dharamshala type lodging places, private guest/rest houses, tourist lodges etc. which provide short-stay accommodation were covered under hotels <i>provided they were run by private individuals/organszations.</i></p> <p><i>However similar facilities if provided by Govt./PSU/Local body/Statutory bodies (e.g. ISI, IIT, Universities etc.) were excluded from the purview of the coverage of this survey.</i></p> <p>A restaurant generally provides eating and drinking services where prepared meals, food and refreshments and other snacks are sold for immediate consumption without any provision for lodging.</p> <p>Such enterprises are variously known as restaurants, cafes, cafeteria, snack bars, lunch counters, refreshment stands, milk bar canteens, etc. Bars and other drinking places were also treated as restaurants. Canteens located in offices, factories, etc. were treated as restaurants if they were operated by private contractors. <i>But departmental canteens run by government were excluded.</i></p>
602	OTHER LAND TRANSPORT	All types of passenger transport by land (excluding railway) and freight/goods transport by road were covered.
61	WATER TRANSPORT	All kinds of water transport were covered.
63	SUPPORTING AND AUXILLIARY TRANSPORT ACTIVITIES; ACTIVITIES OF TRAVEL AGENCIES	Activity of cargo handling, storage and warehousing, supporting services to land transport like operation of railway stations, bus stations, highway bridges, toll roads, vehicular tunnels; parking lots and left luggage facilities at the railway stations, bus stations, traffic control activities, supporting services to water transport such as operation and maintenance of piers, docks, pilotage, loading and unloading of vessels, supporting services to water transport such as operation and maintenance of piers, docks, pilotage, and loading and unloading of vessels, activity of travel agency and tour operators, activities of other transport agency, supporting services incidental to transport such as packing, freighting, travel agency etc. were covered.
64	POST AND TELECOMMUNICATIONS	<p>All enterprises providing communication services, not owned by government, Public Sector undertakings and local bodies were covered.</p> <p>This included courier services, ISD/STD/ PCO booths, voice mail services through computer networking, video/fax services, phone plus services, voiced and non-voiced leased circuits, telex/FAX/data services through computer network, radio paging, e-mail, video conferencing, internet, audio services and</p>

NIC-2004		Description
Code	Activity	
		activity of cable operators etc.
659	OTHER FINANCIAL INTERMEDIATION. [This group includes financial intermediation other than that conducted by monetary institutions.]	<p>Monetary intermediation e.g. banking etc. were excluded from coverage.</p> <p>Activities of hire - purchase financing, housing finance companies, commercial loan companies, other credit activities including pawn shops, other financial intermediation, Mutual Funds, Chit fund/Kuri companies, Investment Companies,</p> <p>Money lending from own source were considered as an enterprise with separate NIC code (65925). Self-help groups and co-operative credit societies were also given separate NIC codes 65994 and 65995 respectively.</p>
66	INSURANCE AND PENSION FUNDING, EXCEPT COMPULSORY SOCIAL SECURITY	Life insurance [this class includes life insurance (including reinsurance) and other long-term insurance, with or without a substantial saving element, including the collection and investment of funds], pension funding [this class includes the provision of retirement incomes, including activities involving the collection and investment of funds (Funding and administration of compulsory social security programmes are classified in class 7530)], and non-life insurance were covered.
67	ACTIVITIES AUXILIARY TO FINANCIAL INTERMEDIATION	Administration of financial markets, security dealing activities, activities auxiliary to financial intermediation, activities of financial advisers, mortgage advisers and brokers, foreign exchange services, activities auxiliary to insurance and pension funding, activities of insurance agents, average and loss adjusters, actuaries and salvage administrators etc were covered.
70	REAL ESTATE ACTIVITIES	<p>It included activities like: (i) purchase, sale, letting and operating of real estate i.e. residential/non-residential buildings, (ii) developing and subdividing real estate into lots, (iii) lessors of real property and (iv) real estate agents, brokers and managers engaged in renting, buying and selling, managing and appraising real estate on a contract or fee basis. Renting of marriage halls, etc. was considered as an enterprise.</p> <p>Operating of real estate of self owned residential buildings (NIC code 70103) were not included.</p>
71	RENTING OF MACHINERY AND EQUIPMENT WITHOUT OPERATOR AND OF PERSONAL AND HOUSEHOLD GOODS	<p>Renting of transport equipment, other machinery and equipment [like agricultural machinery and equipment, construction and civil engineering machinery and equipment, office machinery and equipment (including computers)], personal and household goods</p> <p>(like tents, electrical appliances, furniture, video cassettes, CDs, audio cassettes and records etc., books, journals and magazines, musical instruments, bicycle, footwear etc.) were covered.</p>

NIC-2004		Description
Code	Activity	
72	COMPUTER AND RELATED ACTIVITIES	Hardware consultancy, software publishing; software consultancy, supply and maintenance; data processing, maintenance and repair of office, accounting and computing machinery, other computer related activities [for example maintenance of websites of other firms/ creation of multimedia presentations for other firms etc.] were covered.
73	RESEARCH AND DEVELOPMENT	Research and experimental development on natural sciences and engineering, social sciences and humanities were covered
74	OTHER BUSINESS ACTIVITIES	Legal, accounting, book-keeping and auditing activities; tax consultancy; market research and public opinion polling; business and management consultancy, architectural, engineering and other technical activities, advertising, labour recruitment and provision of personnel, investigation and security activities, building-cleaning and industrial cleaning activities, photographic activities, packaging activities, photostat, blue-printing, xeroxing, copying of documents, ammonia printing, fashion design related to textiles, wearing apparel, shoes, jewelry, furniture, Interior decoration, secretarial activities such as telephone answering, stenographic, duplicating & mailing etc. were covered
80	EDUCATION	<p>All Govt. or Govt.- aided educational institutions were outside the survey coverage. Educational institutions where salaries of the teachers/ staffs are funded fully by the Government were considered as Govt. aided educational institution.</p> <p>All private educational institutions were covered whether or not recognised. This included management training institutes, computer training centres, nursing schools, schools of music, drama, dance, fine arts, modelling, fashion designing, yoga and physical education and general coaching centres (e.g. for various competitive examinations) etc. are to be covered. This also included adult education centers.</p>
85	HEALTH AND SOCIAL WORK	<p>All enterprises engaged in health and medical services <i>other than those owned by government, public sector undertakings, local bodies</i> were covered, irrespective of the system of medicine.</p> <p>Hospital activities including those of general and specialized hospitals, sanatoria, asylums, rehabilitation centres, dental centres, nursing homes and other health institutions having accommodation facilities, nurses, physiotherapist etc., independent diagnostic/pathological laboratories, independent blood banks, ambulance services etc. were covered.</p> <p>All private dispensaries, clinics and consultation chambers run by doctors were covered. An employed doctor and para-medical person (such as midwife, dai etc.) doing private practice was covered and his/her private practice alone was considered as an enterprise. The survey also covered activities of veterinary activities including bird hospitals under NIC code 852.</p>

NIC-2004		Description
Code	Activity	
		Social work with accommodation such as activities of orphanages, children boarding homes and hostels, residential nurseries, homes for aged, physically or mentally handicapped persons were covered under NIC code 8531. Social work without accommodation involving variety of social counseling, welfare, refugee, referral and similar services to individuals and families in their homes or elsewhere (e.g. day care centres for children, handicapped etc.) were covered under NIC code 8532
90	SEWAGE AND REFUSE DISPOSAL, SANITATION AND SIMILAR ACTIVITIES	Garbage collection, transportation and disposal, removal of human wastes and their treatment and disposal, including maintenance of sewers and drains, outdoor sweeping and watering of streets etc. were covered.
9191	ACTIVITIES OF RELIGIOUS ORGANISATIONS	Individuals who provide services directly to worshippers were only covered.
9199	ACTIVITIES OF OTHER MEMBERSHIP ORGANISATIONS N.E.C.	Included rotary clubs, student associations, war veterans' associations, book clubs, philatelic clubs, associations of minority groups, and the activities of other similar associations / organisations.
92	RECREATIONAL, CULTURAL AND SPORTING ACTIVITIES	Motion picture, radio, television and other entertainment activities; news agency activities; library, archives, museums and other cultural activities; sporting and other recreational activities were covered.
93	OTHER SERVICE ACTIVITIES	Persons providing services to the households, for example cooks, tutors, etc., by visiting the houses of the employer (service consuming households) were not considered as self-employed. However, if some persons provided legal, accounting or similar services to different enterprises on a fee basis, they were treated as running own account enterprise.

Description of NIC activity categories:

Hotels - H1, restaurants – H2, Hotels & restaurants - H; Storage and warehousing – I1, Mechanized road transport – I2, Non-mechanised motor transport, water transport and other related activities –I3, communication – I4, Transport, storage & communication – I; Non-banking financial intermediation except insurance and pension funding – J1, Insurance and pension funding and auxiliary activities – J2, Financial intermediation – J; Real estate, renting and business activities – K, Education – M, Health and social work – N, Other community, social and personal service activities – O.

See Appendix Table 5 for more detail.

Chapter Two

Concepts and Definitions

2.1 Concepts and definitions of certain terms used in the survey are discussed below.

2.2 **Enterprise:** An enterprise is an undertaking engaged in the production and/or distribution of some goods and/or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household or by several households jointly, or by an institutional body.

2.3 **Household Enterprise:** A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household(s) or not. In other words, all proprietary and partnership enterprises are household enterprises.

2.4 **Non-household Enterprise:** Non-household enterprises are those which are institutional i.e. owned and run by the public sector (Central or State Government, local self-governments, local bodies, government undertakings, etc.), corporate sector, co-operative societies, other type of societies, institutions, associations, trusts, etc. Non-household enterprises covered under public sector were not included in the current survey.

2.5 **Own-account Enterprise:** An enterprise, which is run without any hired worker employed on a fairly regular basis², is termed as own account enterprise.

2.6 **Establishment:** An enterprise which employs at least one hired worker on a fairly regular basis is termed as establishment. Paid or unpaid apprentices, paid household member/servant/resident worker in an enterprise are considered hired workers.

2.7 **Perennial Enterprise:** Enterprises, which usually operate more or less regularly throughout the year, are called perennial enterprises.

2.8 **Seasonal Enterprise:** Seasonal enterprises are those which are usually run during a particular season or fixed months of a year.

2.9 **Casual Enterprise:** Casual enterprises are those which operate occasionally (may be disjoint periods of time throughout the year) but total number of days operated in the last 365 days is 30 days or more.

² “fairly regular basis” means the major part of the period when operation(s) of an enterprise are carried out during a reference period.

2.10 Servicing Enterprise: A servicing enterprise or service sector enterprise is engaged in activities carried out for the benefit of a consuming unit and typically consists of changes in the condition of consuming units realized by the activities of servicing unit at the demand of the consuming unit. It is possible for a unit to produce a service for its own consumption provided that the type of activity is such that it could have been carried out by another unit. Some examples³ of changes that a producer of service brings about in the condition of consumers of service are:

- a) Changes in the condition of consumer's goods: the producer works directly on goods owned by the consumer by transporting, cleaning, repairing or otherwise transforming them;
- b) Changes in the physical condition of persons: the producer transports the persons, provides them with accommodation, provides them with medical or surgical treatments, improves their appearance etc;
- c) Changes in the mental condition of persons: the producer provides education, information, advice, entertainment or similar services;
- d) Changes in the general economic state of the institutional unit itself: the producer provides insurance, financial intermediation, protection, guarantees, etc.

2.11 Reference Period: The reference period for recording details of various items depended primarily on whether the enterprise under survey could provide information from their books of accounts, or they could provide information orally.

Case 1: Enterprises that provided information by recollection

2.11.1 Here, three kinds of reference periods were used to collect data in different blocks of the schedule viz. reference month, reference year and last date of the reference month.

2.11.2 **Reference Month:** This reference period was used to collect data on various receipts and expenses as well as value added, employment, emoluments, rent and interest payments for the enterprises providing oral information.

For perennial and casual enterprises, 'Reference Month' referred to the last 30 days (preceding the date of survey) irrespective of the number of days of operation.

For seasonal enterprises, consider the following two cases-

- **Case 1:** Working continuously for 30 days or more (including scheduled holidays) in the current season: - 'Reference Month' referred to the last 30 days (preceding the date of survey).
- **Case 2:** Worked for less than 30 days in the current season: - 'Reference Month' referred to an average month in the last working season.

³ Vide 1993 SNA, para 6.10, page 123

If an enterprise was unable to provide information for the last 30 days, but could provide it for the latest completed calendar month, this calendar month was considered as 'Reference Month'.

2.11.3 Reference Year: For items like net additions to fixed assets owned, number of months operated, number of other economic activities pursued etc., data were collected for the entire 'Reference Year'. It was last 365 days preceding the date of survey, if 'reference month' of that enterprise was 'last 30 days'. For the enterprises where 'reference month' was 'last calendar month', 'reference year' was last 12 calendar months taken together. For seasonal enterprises of case 2 above (i.e., seasonal enterprises which had operated for less than 30 days during the current season), 'Reference Year' was a continuous period of 365 days starting from the first day of the corresponding working season.

2.11.4 Last date of the reference month: For some of the items like value of fixed assets, amount of loan outstanding, etc., the reference period used was as follows:

It was last date of the 'Reference Month', which was the same as the last date of the 'Reference Year'. However, opening stock of semi-finished goods manufactured, opening stock of goods traded were collected for the beginning of the first day of the 'Reference Month'.

Case 2: Enterprises that provided data from their books of accounts

2.11.5 In this case, two kinds of reference periods were used to collect data in different blocks of the schedule, 'Reference Year' and 'last date of the reference year'.

2.11.6 Reference Year: This was the last completed accounting year of the enterprise under survey, which in most cases was the accounting year 2005-06. If books of accounts for 2005-06 were not finalised, data were collected for 2004-05. However, during fourth sub-round (April, 2007 –June, 2007), if the books of accounts for 2006-07 were available for any enterprise, data were collected for the accounting year 2005-06. Various receipts, expenses, value added as well as employment, emoluments, rent, interest, net additions to fixed assets owned, for the enterprises were recorded for the last completed accounting year.

2.11.7 First/ last date of reference year: For some of the items like value of fixed assets, amount of loan outstanding, etc., this reference period was used. It was last date of the 'Reference Year'. For items like opening stock of semi-finished goods manufactured, opening stock of goods traded, the beginning of the first date of the reference year was the point of reference.

2.12 Worker: A worker is defined as one who participates either full time or part time in the activity of the enterprise. The worker may serve the enterprise in any capacity - primary or supervisory. He/she may or may not receive wages / salaries in return to his / her work incidental to or connected with the enterprise activity. A worker need not mean that the same person is working continuously; it only refers to a position. Persons working for less than or equal to half of the normal working hours of the enterprise on a fairly regular basis are considered as part time workers. Those who work for more than half of the period of normal working hours of the

enterprise on a fairly regular basis are considered as full time workers. Two part-time workers in an enterprise are counted as 2 and not 1.

2.13 Working Owner: The owner who personally works in the proprietary or partnership enterprises on a fairly regular basis is called working owner. In fact, in most of the own-account enterprises the owner himself/ herself manages all activities of the enterprise without the help of anyone (on a fairly regular basis). In the case of partnership enterprises, if only one partner or some of the partners or all the partners work in the enterprise on a fairly regular basis then they are considered as ‘working owners’.

2.14 Hired Worker: A hired worker is a person employed directly or through any agency on payment of regular wage / salary in cash or kind. Apprentices, paid or unpaid, are to be treated as hired workers. Paid household workers, servants and resident workers of the enterprise are also considered as hired workers.

2.15 Other Worker / Helper: This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers / helpers who are associated with the activities of the enterprise during the reference month are considered in this category.

2.16 Mixed Activity: There are enterprises that carry out a number of activities simultaneously. For example, a bakery may also sell cold drinks, a rice mill may sell sugar, a factory may run a hospital in its premises, etc. Each such activity was treated as a separate enterprise if information for them was separately available. If the accounts were not separable then the data pertained to the enterprise as a whole and the enterprise was classified as having mixed activities and the activities of such enterprises are a mixture of NIC’s. The activities may be mixed at any level of NIC, but for the present survey an enterprise was considered to have mixed activities if its activities were different at 2-digit level of NIC-2004. The appropriate NIC in such cases was determined on the basis of major activity. Major activity refers to the activity which yielded maximum income/turnover/employment. The above criteria were applied in the given order, i.e., income first, then turnover and then employment, to determine the major activity.

2.17 Multiple Activity: Since many of the entrepreneurs belonging to the unorganised sector operate at small or marginal levels, the phenomenon of carrying out more than one activity simultaneously or at different points of time is quite prevalent. If the activities were carried out at one point of time at the same location and the information was not separately available, then it was taken as “mixed activity”. Carrying out of more than one economic activity by the entrepreneur during the reference year is called multiple activities. It differs from mixed activities in the sense that former is with respect to the entrepreneur whereas the latter is with respect to the enterprise. However, an entrepreneur of a manufacturing enterprise manufacturing woollen garments before winter and cotton clothes before summer will not be considered as carrying out multiple activities. Some examples of multiple activities are: i) a person providing computer services during day-time

as an own account worker and also providing tuition in the evening, ii) A household servant is making paper envelopes in free time iii) a person carrying out agricultural activity at sowing / harvesting season and doing carpentry at the same time or at other times, etc.

2.18 Working on Contract: The enterprises in the unorganised sector are mainly small units. In many cases, the enterprises are seen to be working as per orders from a bigger unit. In such cases, certain conditions are put on the servicing unit by the contractor or master unit. Conditions may pertain to sale of products, supply of raw materials, mode of payment etc. In many cases, the contractor specifies the design of the product to the servicing unit e.g. garment manufacturing, shoe manufacturing etc. If the surveyed enterprise had undertaken any work on contract during the reference year, it was considered as 'enterprises working on contract'.

2.19 Financial enterprises: Financial enterprises are enterprises that are principally engaged in financial intermediation or in auxiliary financial activities which are closely related to financial intermediation. Financial intermediation is a productive activity in which an institutional unit incurs liabilities on its own account for the purpose of acquiring financial assets by engaging in financial transactions on the market. The role of financial intermediaries is to channel funds from lenders to borrowers by intermediating between them.

2.20 Self-Help Group: A Self-help Group (SHG) is a voluntary gathering of people who share a common problem, condition or history. By coming together, members share and support ideas on how to cope and live a more productive and fulfilling life. Membership is usually free, on-going and open to new members. These groups are formed at local level mostly by under-privileged persons with the idea of developing financial stability and money management capacity through internal loaning of their own savings. SHGs also play an important role in health care system. Members take responsibility for each other in self-help groups.

2.20.1 SHG's are generally formed with 10 to 20 members. All the members contribute equally (say 1 or 2 rupees each day) to form a monthly corpus. SHG's with some proven track record of stability can also approach banks or other financial institutions for loans in the name of the group, which can also be used as corpus of the SHG. This corpus is lent to one or two members (many-a-times by rotation) who pay back this loan amount with a certain amount of interest. The interest component can be divided by the members among themselves. The member/members who contract the loan can use the amount for any purpose, household or enterprise. It may be noted that in these cases, the activity of the SHG is confined to providing loans to the members and the members can pursue any activity of their choice. Such SHG's were considered as engaged in financial intermediation. If such a SHG was registered as a cooperative credit society, then it was treated as a cooperative credit society and not a SHG. Thus all such SHG's and co-operative credit societies were considered as financial enterprises and data were recorded in the same manner as for other financial enterprises.

2.21 Non-profit Institutions (NPIs): Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of

income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but any surpluses they happen to make cannot be appropriated by other institutional units. The articles of association by which they are established are drawn up in such a way that the institutional units which control or manage them are not entitled to a share in any profits or other income which they receive. For this reason, they are frequently exempted from various kinds of taxes. The objectives of NPIs created by other institutional units - whether persons, corporations, or government - are varied. For example, NPIs may be created to provide services for the benefit of the persons or corporations who control or finance them; or they may be created for charitable, philanthropic or welfare reasons to provide goods or services to other persons in need; or they may be intended to provide health or education services for a fee, but not for profit; or they may be intended to promote the interests of pressure groups in business or politics; etc. Although they may provide services to groups of persons or institutional units, they are, by convention, deemed to produce only individual services and not collective services.

2.21.1 NPIs may be financed and controlled by government agencies or non-governmental agencies. An NPI which is mainly financed and controlled by non-governmental agencies is called a Private NPI.

Chapter Three

Summary of Findings

3.1 The present survey covers all the private services excluding trade. The coverage excludes Government and public sector services. The present report, the first in the series, presents estimates of some characteristics of service sector enterprises like type of enterprise (ownership), their location, maintenance of written accounts, registration status, number of months of operation, problems faced, etc. A summary of these results is presented and discussed in this section. Detailed tables are given in **Appendix A**, which provides estimates separately for rural, urban and for both sectors combined at the all-India and State/UT level. In addition, information for ‘Own Account Enterprises (OAEs)’ and ‘establishments’ have been presented separately. The marginal totals and the sum of the proportions presented in various detailed tables may, in some cases, differ slightly due to rounding off (*hereafter ‘enterprises’ would refer to ‘enterprises under survey coverage’*).

3.2 Certain estimates have been given for 17 major states. These major States have been identified on the basis of number of enterprises (number of enterprises exceeding 1.50 lakhs⁴). Also each of these states had population of 20 million or more as per 2001 census. The ‘major states’ are (names in abbreviated form in brackets): Andhra Pradesh (AP), Assam (ASM), Bihar (BHR), Chhattisgarh (CTG), Gujarat (GUJ), Haryana (HAR), Jharkhand (JRK), Karnataka (KTK), Kerala (KER), Madhya Pradesh (MP), Maharashtra (MAH), Orissa (ORS), Punjab (PUN), Rajasthan (RAJ), Tamil Nadu (TN), Uttar Pradesh (UP) and West Bengal (WB).

3.3 The term ‘enterprise’ is used in general to represent OAEs and also establishments. In the statements, ‘all’ is used to denote all the enterprises taken together. A “-” has been used in the statements and tables if no enterprise was surveyed in that particular level of disaggregation. On the other hand, the figure “0” appears in some levels of disaggregation when the estimated figure is very low and has become 0 due to rounding off.

3.4 **Sample number of enterprises:** Information was collected from 1.90 lakh enterprises engaged in the activities of the service sector excluding trade throughout the country. About 44 per cent of these enterprises surveyed belonged to the rural sector (**vide Table 0.2**). Moreover, 78 per cent of the total surveyed enterprises were OAEs (**vide Table 0.3**).

3.5 **Estimated number of enterprises:** Before looking into various characteristics of the enterprises in the service sector, it may be worthwhile to know the extent of their presence in the economy as a whole as well as in different activities as revealed by the survey. During 2006-07, about 1.65 crore⁵ enterprises were engaged in the service sector activities excluding trade. While about 60 per cent of such enterprises were located in rural areas, 40 per cent were located in urban areas. The break-up of these estimates is shown in **Statement 1**. The percentage distribution of

⁴ (1lakh = 10⁵)

⁵ (1 crore = 10⁷)

enterprises in the service sector by enterprise type is also shown in **Chart 1** for rural and urban areas and both. It revealed that OAEs (85%) had the dominant share of enterprises under survey coverage. Comparative estimates of estimated number of enterprises by enterprise types and sector is given in **Statement 1A**.

Statement 1: Estimated number of enterprises by enterprise types and sector in 63rd Round

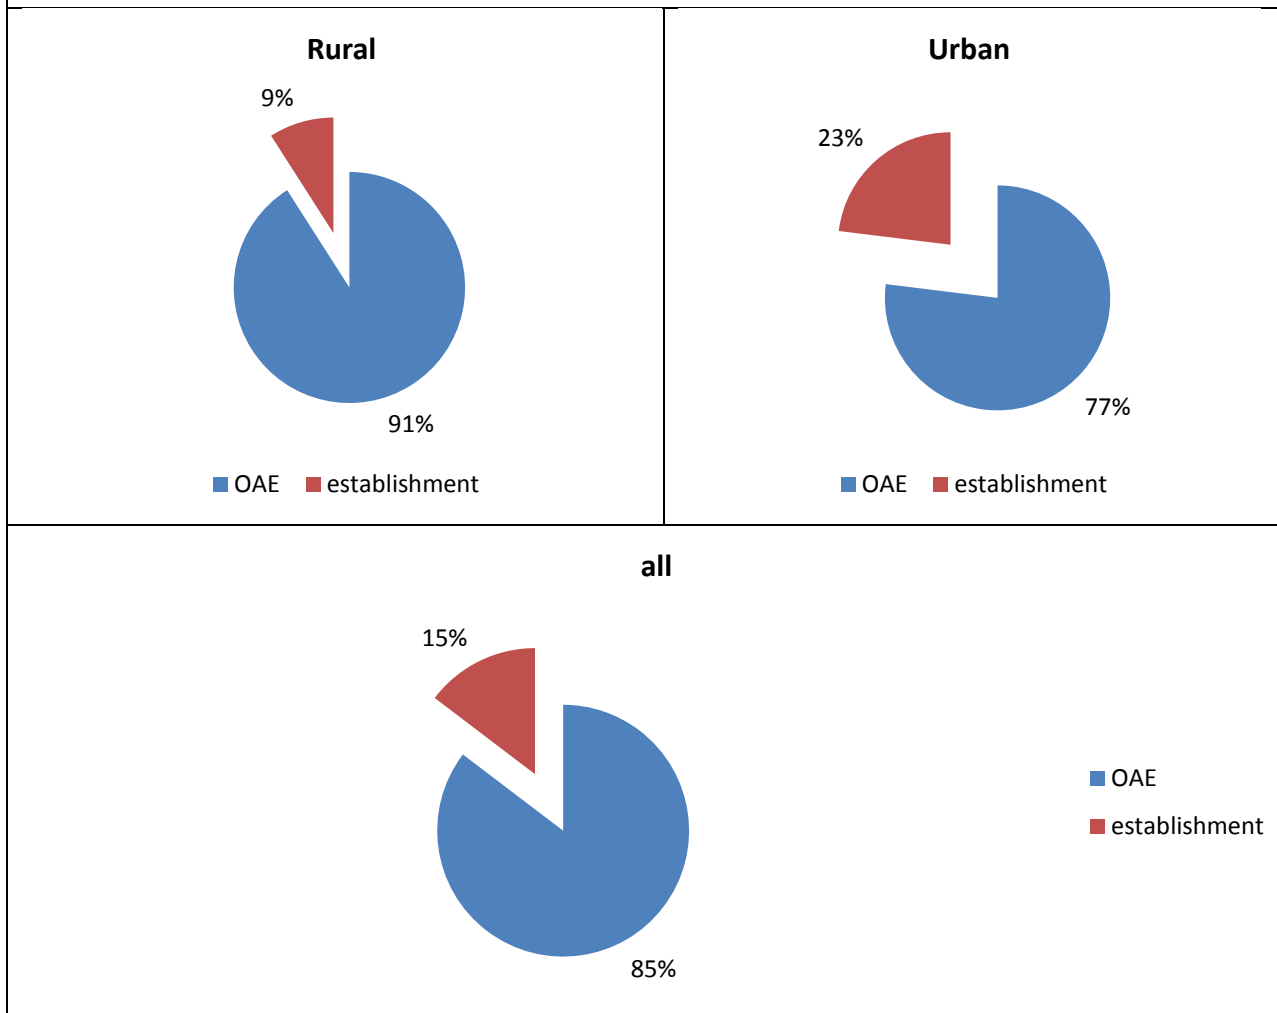

sector	number of enterprises (in '000)		
	OAE	Establishments	all
	(2)	(3)	(4)
rural	9004	896	9900
urban	5088	1524	6612

Chart 1: Percentage distribution of enterprises categorized by enterprise types and sector

3.5.1 **Statement 2** gives the percentage distribution of enterprises by activity types. The section ‘transport, storage & communication (I)’ had the highest percentage (38%) of enterprises for both rural & urban sectors and also for combined sector. ‘Other community, social & personal services (O)’ had next highest share (19%) of enterprises followed by ‘hotel & restaurants (H)’ (12%), ‘financial intermediation (J)’ (9%). The enterprises categorised as ‘hotels (H1)’ or ‘storage and warehouse (I1)’ were very few – whose share was less than 1 per cent of the total enterprises.

Hotels - H1, restaurants - H2, Hotels & restaurants - H; Storage and warehousing - I1, Mechanized road transport - I2, Non-mechanised motor transport, water transport and other related activities -I3, communication - I4, Transport, storage & communication - I; Non-banking financial intermediation except insurance and pension funding - J1, Insurance and pension funding and auxiliary activities - J2, Financial intermediation - J; Real estate, renting and business activities - K, Education - M, Health and social work - N, Other community, social and personal service activities - O

See Appendix Table 6 for more detail.

3.5.2 **Statement 3** presents the States and UTs in descending order of estimated number of enterprises. It is seen that Uttar Pradesh had the highest share (14%) in total number of enterprises followed by West Bengal (13%), Andhra Pradesh (10%), Maharashtra (9%) and Tamil Nadu (7%). Thus these five states accounted for 53% of enterprises at all-India level. Uttar Pradesh had the highest number of OAEs while Maharashtra had the highest number of establishments.

Statement 3: Estimated number of enterprises in descending order in different States/UTs.

State / UT	estimated number of enterprises (in '00)			% share

See Appendix Table 6 for more detail.

3.5.3 Percentage distribution of enterprises by State/UT separately for each enterprise type and sector is presented in **Statement 4**. It is seen that West Bengal and Uttar Pradesh were the top two states having almost equal share of enterprises for rural India. However, significant variation was noticed between the two states in terms of percentage of establishments for rural India though this was not so in case of OAEs. Maharashtra and Uttar Pradesh were the top two states having almost equal share of enterprises for urban India. Here also the difference between the two states in terms of percentage of establishments was more significant than in case of OAEs.

Statement 4: Percentage distribution of enterprises by State/UT separately for each enterprise type and sector

See Appendix Table 6 for more detail.

3.6 Estimated number of workers: Statement 5 presents different States/UTs in descending order of estimated number of workers. It revealed that Uttar Pradesh had the highest share in total number of workers (12%) followed by Andhra Pradesh (11%), Maharashtra (10%), West Bengal (10%) and Tamil Nadu (9%). Thus these five states accounted for 52% of total workers of the service sector. It is interesting to see that on account of proportionately higher share of

NSS Report no. 528: Service Sector in India, 2006 – 2007: Operational Characteristics of Enterprises

establishments, the sequence of top five states according to number of workers were not identical with top five states according to number of enterprises.

Statement 5: Estimated number of workers in descending order in different States/UTs.

State / UT	estimated number of workers (in '00)			% share

See Appendix Table 35 for more detail.

3.6.1 Projected population in the working age-group (15-59) and percentage of service sector workers is presented in **Statement 5A** for major states. Although no restriction on age of workers was imposed while collecting data of workers in the surveyed enterprises, percentage of workers falling below age 15 or above age 59 might not be significant so as to vitiate the calculated percentages. At all-India level, roughly 5% of working age population were working in service sector enterprises. This percentage was the highest in Kerala (10.2%) followed by Orissa (8.0%), Andhra Pradesh (7.2%), Tamil Nadu (6.9%) and West Bengal (6.2%). It may be seen that number

of service sector workers did not strictly conform to population in the age group (15-59) across the states. For example, Maharashtra and West Bengal had higher population in the age group (15-59) than Andhra Pradesh but had less number of workers than Andhra Pradesh. Among the major states, Bihar had the lowest (2.6%) percentage of service sector workers in the population of age group (15-59).

Statement 5A: Percentage of service sector workers in population (age-group 15-59) in Major States.

Major States	Average estimated number of workers (in '000) (in descending order) during July 2006 - June 2007	Projected Population as on 1 st Oct., 2006 (in '000)*	Projected Population of age group 15-59 (in '000)* as on 1 st March, 2006	Service sector workers as a percentage of population of age group (15-59)
(1)	(2)	(3)	(4)	(5)
Uttar Pradesh	4074	185330	101686	4.0
Andhra Pradesh	3710	81219	51395	7.2
Maharashtra	3394	105740	65484	5.2
West Bengal	3374	85768	54037	6.2
Tamil Nadu	2943	65435	42680	6.9
Kerala	2187	33426	21530	10.2
Orissa	1924	39121	24068	8.0
Karnataka	1793	56647	35823	5.0
Bihar	1309	91631	50151	2.6

*Source: Report of the technical group on Population Projection, May 2006-Office of the Registrar General and Census Commissioner. See Appendix Table 35 for more detail.

3.7 The share of workers in various activities in the service sector is presented in **Statement 6**. In India, about 3.35 crore persons worked in the enterprises belonging to service sector under coverage, the rural and urban shares in employment being 54 and 46 per cent, respectively. The distribution of workers over the sectors of activity differed, to some extent, with the distribution of enterprises over the corresponding sectors. It can be seen that the percentage of workers engaged in enterprises belonging to 'transport, storage and communication (I)' (25%) was the highest followed by 'financial intermediation (J)' 17%, 'hotels and restaurants(H)' (15%), 'other community, social and personal services(O)' (15%), and 'education(M)' (12%). Except for

‘transport, storage and communication (I), rural–urban differential with respect to number of workers was significant in respect of all other broad activities.

Statement 6: Percentage distribution of workers by type of activities separately for each sector and enterprise type

See Appendix Table 35 for more detail.

3.8 Type of ownership of enterprises: One of the principal characteristics of an enterprise is the type of ownership it has and it may be interesting to study the distribution pattern by type of ownership. **Statement 7** gives the percentage distribution of enterprises by type of ownership of the enterprise categorized by type of enterprise separately for rural, urban and combined sector. The distribution is also depicted in **Chart 2**. Proprietary enterprises (i.e. enterprises owned by a single household) had the highest share (90%) of service sector enterprises, out of which only 8 per cent of the owner proprietors were females and the rest males. Female-owned proprietary enterprises numbered more in urban areas than in rural areas. The share of female-owned proprietary enterprises was 10 % in urban areas against 6% in rural areas. Only a little more than

one per cent of enterprises were operated on a partnership basis. Co-operative society/SHG constituted about 7% of the total enterprises. The share of 'others' (1%) in the total number of enterprises is also negligible.

Statement 7: Percentage distribution of enterprises by type of ownership

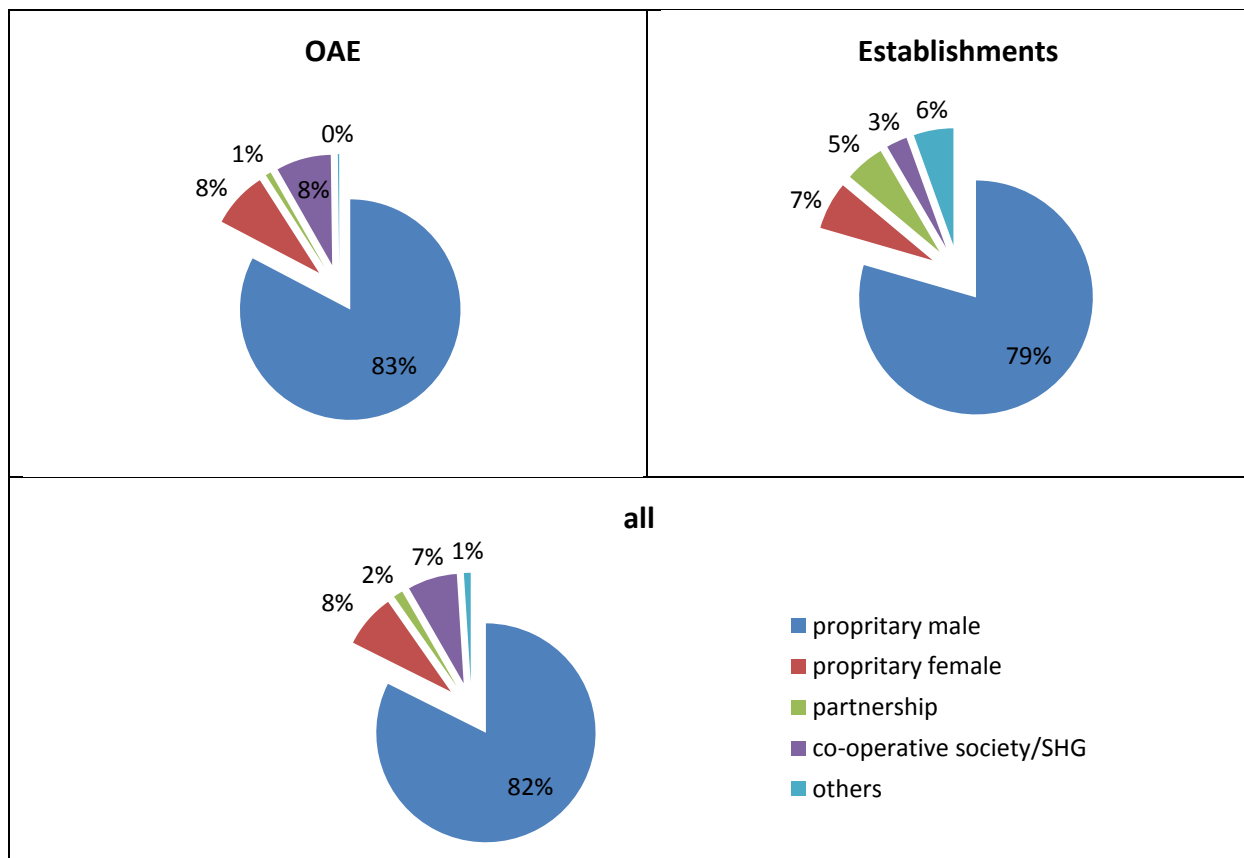

all-India

type of ownership	percentage distribution of enterprises								
	rural			urban			all		
	OAE	establishments	all	OAE	establishments	all	OAE	establishments	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
<u>proprietary:</u>									
male	80.7	82.1	80.9	86.4	77.9	84.4	82.8	79.4	82.3
female	6.7	4.0	6.4	10.8	8.1	10.2	8.2	6.6	7.9
<u>partnership between:</u>									
members of same household	0.3	1.1	0.4	0.6	2.6	1.0	0.4	2.0	0.6
different household	0.3	3.2	0.6	0.4	3.7	1.2	0.4	3.5	0.8
co-operative society/SHG	11.7	4.7	11.0	1.6	1.9	1.7	8.0	2.9	7.3

all	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

* 'others' included limited company (outside public sector) and all other enterprises.

See Appendix Table 9 for more detail.

Chart 2: Percentage distribution of enterprises by type of ownership for each enterprise type

3.8.1 The corresponding distribution of enterprises by type of ownership is given in **Statement 8** separately for rural and urban areas of each State/UT. It is seen that male proprietary enterprises dominated the service sector enterprises in rural and urban areas in all states. The share of male proprietary enterprises is more than seventy per cent in both rural and urban areas for most of the States/UTs. In rural areas among the major states, the percentage of proprietary enterprises owned by females was the maximum in Assam(13%) followed by Delhi(10%), Kerala(10%), Andhra Pradesh (9%), Tamil Nadu (8%) whereas in urban areas the top five states in respect of female owned proprietary enterprises were Kerala (15%), Maharashtra (13%), Tamil Nadu (12%), West Bengal (12%) & Andhra Pradesh (11%). Noticeably, in the north-eastern States where the female headed households are, generally, in large proportions, the proportions of female proprietors were also high as compared to other States and UTs.

Statement 8: Percentage distribution of enterprises by type of ownership separately for rural and urban sectors of each State/UT

State/UT	percentage of enterprises

See Appendix Table 10 for more details.

3.9 Nature of operation: As already mentioned in Chapter One, the majority of enterprises surveyed belonged to unorganised service sector. Enterprises in the unorganised sector do not sometimes operate throughout the year. The number of months of operation of an enterprise largely depends on the type of activity it carries out. A small proportion of enterprises operate only in seasons when the raw materials for the enterprise are available or certain services are in demand in the season. Broadly, an enterprise may operate more or less throughout the year or in seasons or intermittently throughout the year and accordingly they are termed as perennial, seasonal and casual enterprises, respectively. The distribution of enterprises by the nature of operation is given **Statement 9**. About 99% of the total enterprises were perennial while the seasonal and casual enterprises together constituted a little more than 1 % of the total enterprises. The distribution of service enterprises in respect of nature of operation do not differ significantly between rural and urban areas, or between OAE and establishments.

Statement 9: Percentage distribution of enterprises by nature of operation separately for each enterprise type and sector

all-India

nature of operation	percentage distribution of enterprises								
	rural			urban			all		
	OAE	establishments	all	OAE	establishments	all	OAE	establishments	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
perennial	98.1	96.4	97.9	99.5	99.4	99.5	98.6	98.3	98.6
seasonal	1.5	3.4	1.7	0.3	0.5	0.4	1.1	1.6	1.1
casual	0.4	0.2	0.4	0.1	0.0	0.1	0.3	0.1	0.3
all	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

See Appendix Table 7 for more detail.

3.10 Number of months operated: **Statement 10** gives the distribution of enterprises by number of months operated during the last 365 days. About 91% of the enterprises had worked for 9 months or more during the last 365 days while about 3% of the enterprises had operated for less than a quarter of the same period. More enterprises in urban areas had operated for longer duration than in rural areas. In urban areas, the percentages of enterprises having specified duration of operation were nearly equal among OAEs and establishments. Interestingly, the distribution of enterprises over months of operation is more or less even for rural and urban areas.

Statement 10: Percentage distribution of enterprises by number of months operated during the last 365 days, separately by sector and type of enterprise

no. of months of operation	percentage of enterprises								
	rural			urban			all		
	OAE	establishments	all	OAE	establishments	all	OAE	establishments	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
0 – 3	2.5	3.1	2.6	2.4	2.5	2.4	2.5	2.7	2.5
4 – 6	4.0	6.0	4.1	3.3	3.2	3.2	3.7	4.2	3.8
7 – 9	3.1	2.9	3.1	2.5	2.3	2.4	2.9	2.5	2.8

all	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

See Appendix Table 33 for more detail.

3.11 Number of working hours: Percentage distribution of enterprises by working hours in a normal day during the reference year and reference month by sector and type of enterprise is shown in **Statement 11**. Distribution of enterprises by number of working hours was almost the same in the reference year and the reference month. It is seen that about 43% of all enterprises had worked more than 8 hours in a normal day. More enterprises in urban areas worked more than 8 hours in a day than in rural areas and about 9% of enterprises worked less than four hours in a day in urban areas as compared with 20% in rural areas. Percentage of enterprises working 7 hours or less was 64% in rural areas against 45% in urban areas. Interestingly, more establishments in rural areas (10%) worked for less than 4 hours in a normal day than in urban areas (4%). Among OAEs, percentage of enterprises having worked for more than 8 hours was more in urban areas (53%) as compared to corresponding percentage in rural areas (35%).

Statement 11: Percentage distribution of enterprises by working hours in a normal day during the reference year and reference month separately by sector and type of enterprise

working hours in a normal day		percentage of enterprises								
		rural			urban			all		
		OAE	establishments	all	OAE	establishments	all	OAME	establishments	all

percentage of enterprises		90.9	9.1	100.0	77.0	23.0	100.0	85.3	14.7	100.0

See Appendix Table 6 and 31 for more detail.

3.12 Location of enterprises: One of the characteristics of the enterprises in the unorganised sector is the presence of units that do not have fixed location. They operate as street vendors or as mobile market. On the other hand, many of them, particularly the OAEs, operate from within the household premises. It can be seen from **Statement 12** that about 74% enterprises run the business at fixed location either within the household premises or outside and about 26% operated their business without any fixed location. Around 3% of the enterprises operated under the sky without any structure but had a fixed location. They had the characteristics of street vendors i.e. those who operate on the streets or mobile market. The corresponding percentage was less in the case of establishments (10%) as compared to OAEs (29%). The percentage distribution of enterprises by their location at all-India level is shown in **Chart 3**. About 85% of establishments had fixed location as compared to 65% in case of OAEs. The estimates for the States/UTs are given in **Statement 13** taking all types of enterprises together. If the enterprises located within household premises are considered, the proportion was the highest in Andhra Pradesh (54%) among rural areas of major states and in West Bengal (36%) among urban areas of major states.

Statement 12: Percentage distribution of enterprises by location, separately for each enterprise type and sector

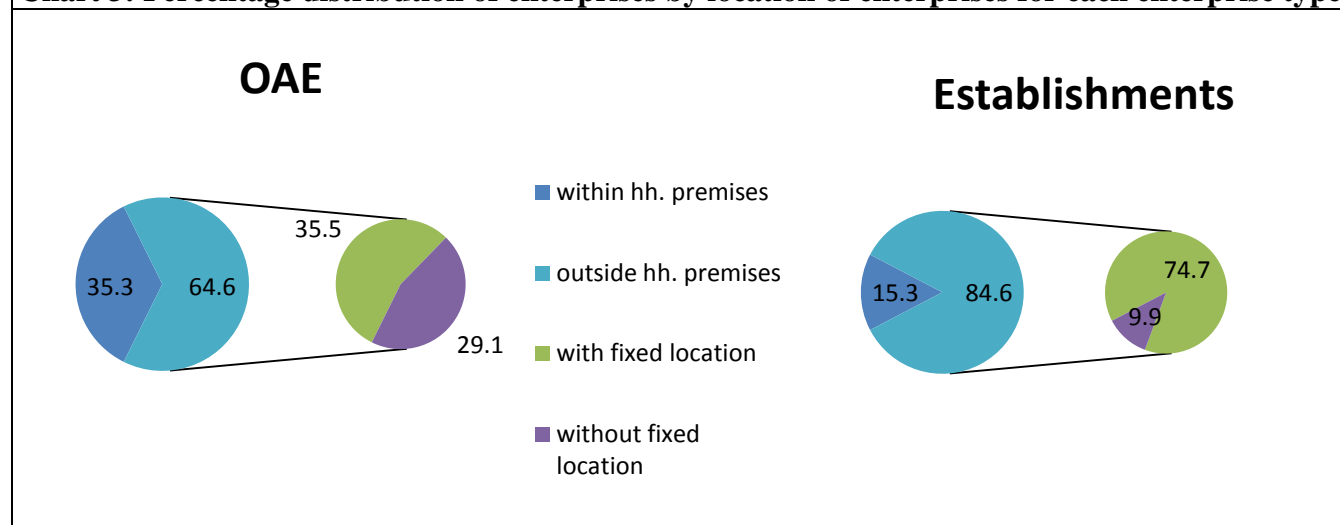

all-India

location of enterprise	percentage distribution of enterprises								
	rural			urban			all

See Appendix Table 16 for more detail.

3.13 Maintenance of accounts: Statement 14 gives percentage of service enterprises that maintained written accounts. This is especially relevant in the context of unincorporated enterprises in the household sector. At all-India level, about 10% of service sector enterprises were reported to have maintained accounts. This proportion was nearly 7% for OAEs, which form a majority of the service enterprises, and 24% for establishments. The proportion of enterprises maintaining accounts was more or less same in both rural and urban areas. Rural-urban differential among enterprises providing data from their books of accounts was not significant.

Statement 14: Percentage of enterprises maintaining accounts, separately by sector and type of enterprise.

all-India					
sector	enterprise type	maintenance of accounts			
		accounts usually maintained		no usable books of accounts maintained	all
		data recorded from books of accounts	data provided orally		
(1)	(2)	(3)	(4)	(5)	(6)
rural	OAE	0.8	7.8	91.4	100.0
	establishments	3.2	12.5	84.3	100.0
	all	1.0	8.2	90.7	100.0
urban	OAE	0.2	4.6	95.2	100.0
	establishments	7.3	21.4	71.3	100.0
	all	1.8	8.5	89.7	100.0
all	OAE	0.6	6.7	92.7	100.0
	establishments	5.8	18.1	76.1	100.0
	all	1.3	8.3	90.3	100.0

See Appendix Table 17 for more detail.

3.14 Educational level of working owner/managing partner: Statement 15 presents percentage distribution of proprietary and partnership enterprises by educational level of working owner/managing partner of the enterprise. At all-India level, about 17% of working owners/managing partners were not literate. Rural-urban differential is significant among working owners/managing partners categorized as ‘not literate’ (rural-21%; urban-11%) and ‘graduate/post graduate’ (rural-9%; urban-24%). Percentages in respect of other categories of educational level differed little among rural and urban areas.

Statement 15: Percentage distribution of proprietary and partnership enterprises by educational level of working owner/managing partner separately for each sector

all-India							
sector	percentage of enterprises						all
	not literate	literate with no formal schooling	literate with education up to higher secondary level	diploma /certificate course	graduate/post graduate	n.r	
rural	21.0	2.1	65.7	1.8	9.2	0.2	100.0
urban	11.3	1.1	61.2	2.4	23.8	0.2	100.0
all	16.9	1.7	63.7	2.1	15.4	0.2	100.0

See Appendix Table 13 for more detail.

3.15 Social group of owner: Information collected on the social group of the owner / partner of the enterprise for the proprietary and partnership enterprises is presented in **Statement 16**. About 61% of the proprietary or partnership service sector enterprises were owned by persons belonging to Scheduled Tribes (ST), Scheduled Castes (SC) and Other Backward Classes (OBC). This proportion was more in case of OAEs (64%) than establishments (48%). Again, more OAEs in the rural areas (68%) were run by entrepreneurs from the backward sections than OAEs in urban areas (56%).

Statement 16: Percentage distribution of proprietary and partnership enterprises by social group of their owner / managing partner separately for each sector and enterprise type

See Appendix Table 12 for more detail.

3.16 Non-profit institutions: The information on whether the service enterprise netted was a private Non-Profit Institution (NPI) or not, was also collected during this survey. The definition of an NPI is given in **Chapter Two**. It may be noted here that information was collected on whether the enterprise surveyed was private NPI or not as government and public sector enterprises were outside the survey coverage. The presence of private NPI categorised by enterprise types and sectors at all-India level is presented in **Statement 17**. Private NPIs constituted roughly 2% of all OAEs at all-India level and their presence among establishments was about 4%. The overall percentage of private NPIs was around 2% in the service sector under coverage. The corresponding estimates for the States/UTs are given in **Statement 18**. Among the major states, Madhya Pradesh (8%), Kerala (4%) & Chhattisgarh (3%) were the top three states in terms of proportion of private NPIs.

Statement 17: Percentage of Private Non-Profit Institutions (NPI) categorized by enterprise type and sector.

3.17 **Status of registration:** **Statement 19** gives the distribution of enterprises by status of registration. About 41% of all enterprises were registered under any Act or with any registration authority. The types of registration or authorities of registration included Companies Act, 1956, Municipal Corporation, Panchayat, Local Body, Shops and Establishments Act, Sales Tax Act, Motor Vehicles Act, Indian Vessels Act/ Merchant Shipping Act, RBI/NABARD/ /IRDA/SEBI, Bar Council, Chartered Accountants Act, NASSCOM, Directorate of Education/AICTE/NCTE, Medical Practitioners Act, Co-operative Societies Act, Societies Act, Indian Charitable Act, Cinematograph Act, Factories Act, 1948 and others. The percentage of OAEs registered with at least one authority or under at least one Act was 37% whereas it was 66% in the case of establishments. The overall proportion of registered enterprises was higher in urban areas (47%) as compared to rural areas (37%). Also, the proportion of both registered OAEs and registered establishments was higher in urban areas than in rural areas. The percentage of registered enterprises categorized by enterprise types and activities is given in **Statement 20**. It revealed that the sub-sector ‘Mechanised road transport (I2)’ (89%) had the highest percentage of registered enterprises followed by ‘Non-banking financial intermediation except insurance and pension funding (JI)’ (82%), ‘Hotels (H1)’ (76%), ‘Insurance and pension funding and auxiliary activities (J2)’ (74%) and ‘Health and social work (N)’(58%). However, among the broad activities (NIC Sections), ‘Financial intermediation (J)’ had the highest percentage (81%) of registered enterprises.

Description of NIC activity categories:

Hotels - H1, restaurants – H2, Hotels & restaurants - H; Storage and warehousing – I1, Mechanized road transport – I2, Non-mechanised motor transport, water transport and other related activities –I3, communication – I4, Transport, storage & communication – I; Non-banking financial intermediation except insurance and pension funding – J1, Insurance and pension funding and auxiliary activities – J2, Financial intermediation – J; Real estate, renting and business activities – K, Education – M, Health and social work – N, Other community, social and personal service activities – O.

See Appendix Table 21 for more detail.

3.17.1 **Chart 4** depicts the status of registration in 17 major states. It is seen that among the major states, Kerala had the highest percentage (71%) of enterprises registered under different acts/authority followed by Maharashtra (63%), Gujarat (59%) and Karnataka (56%).

Chart 4: Percentage of enterprises registered with/under any Act/Authority in the major States

See Appendix Table 22 for more detail.

3.17.2 **Registration under Companies Act, 1956:** The majority (14%) of enterprises was registered under Municipal Corporation, Panchayat, Local Body (**vide Appendix Table 21**). However, the percentage of enterprises registered under Companies Act, 1956 is separately presented in **Statement 21**. Only less than 1 % of service sector enterprises were reported to be registered under the Companies Act, though the corresponding percentage in case of establishments was about 2%. The registration under Companies Act among OAEs was negligible.

Statement 21: Percentage of enterprises registered under Companies Act, 1956 categorized by enterprise type and sector

sector	all-India		
	percentage of enterprises registered		
	OAE	Establishments	all
(1)	(2)	(3)	(4)
rural	0.2	0.7	0.2
urban	0.2	2.3	0.7
all	0.2	1.7	0.4

See Appendix Table 21 for more detail

3.17.3 **Percentage of registered non-proprietary enterprises having PAN/TAN:** For all registered non-proprietary enterprises, information was asked whether the enterprise was allotted a PAN (Permanent Account Number) and a TAN (Tax Deduction Account Number) by the Income Tax Authorities. For registered partnership enterprises, personal PAN allotted to any partner/working owner was excluded. Percentage of non-proprietary enterprises registered under any act and percentage of registered non-proprietary enterprises having PAN/TAN is indicated in **Statement 22**. It can be seen that about 79% of non-proprietary enterprises in the service sector were registered under/with any act/authority. Percentage of registered non-proprietary enterprises did not differ significantly between rural and urban areas, being around 79%. However, at all-India level, only 6% of such enterprises were having PAN and percentage of such enterprises having TAN were only 2%. In rural areas, proportions of such enterprises having either TAN or PAN were negligible but corresponding percentages in urban areas were significant, being 24% and 12% respectively.

Statement 22: Percentages of enterprises registered under different acts having PAN/TAN

Sector	estimated no. of enterprises (all ownership type combinations)	among all enterprises (including proprietary),% registered under any act (0.0)	total no. of enterprises other than proprietary enterprises	among all enterprises other than proprietary enterprises % registered under any act (0.0)	among the non-proprietary enterprises registered under any act,% (0.0) having

See Appendix Table 19 for more detail.

3.18 Specific problem faced in operation: Information on different types of problems faced by the enterprises in carrying out their day-to-day operation was collected. Although the enterprise might have faced multiple problems, provision was made for recording only two types of problems faced in a given order (vide page C-2, Appendix C). **Statement 23** gives the percentage of enterprises reporting specific problems faced. About 43% of all enterprises reported not having faced any specific problem in their day-to-day operation ‘Competition from larger units’ (22%) and ‘shortage of capital’ (22%) were the two main problems faced by the enterprises. The ‘competition from larger units’ was the dominant problem in urban areas (26%) as compared to rural areas (19%). Rural-urban differential is not very significant in respect of problems like ‘shortage of capital’, ‘local problems/harassment’ and also these percentages did not appreciably differ between OAEs and establishments.

Statement 23: Percentage of enterprises reporting any specific problem faced separately by sector and enterprise type

all-India									
type of problem faced	percentage of enterprises reporting specific problems								
	rural			urban			all		
	OAE	establishment	all	OAE	establishment	all	OAE	establishment	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
no specific problem	42.6	35.5	42.0	43.4	45.8	43.9	42.9	41.9	42.8
specific problem faced:									
1. shortage of capital	22.7	23.4	22.8	20.9	16.3	19.9	22.1	18.9	21.6
2. marketing of products/ services	14.6	12.6	14.4	11.1	9.0	10.6	13.4	10.3	12.9
3. local problem/ harassment	8.2	8.9	8.3	7.4	6.4	7.2	7.9	7.4	7.8
4. competition from larger units	18.3	23.0	18.7	26.1	27.0	26.3	21.1	25.5	21.7
5. non-recovery of service charges	9.9	13.7	10.3	4.7	6.1	5.1	8.1	8.9	8.2
6. others*	10.5	17.5	11.2	10.6	15.4	11.8	10.6	16.2	11.4

* others is the residual category which include non-availability of electricity connection, problem of power cut, non-availability of labour/ labour problems, fuel not available/ very costly. See appendix table 23 for more detail.

See Appendix Table 23 for more detail.

3.19 **Working on contract:** In certain cases, the enterprises in this segment of economy might be working as per the orders from a bigger unit. In such cases certain conditions on the sale of product, mode of payment, supply of raw material etc. are put by the contractor or master unit. The percentage of enterprises under such contract is given in **Statement 24**. Only about 2% of the total enterprises in the service sector had undertaken at least some work on contract basis. The percentage was a little higher for establishments than for OAEs. The rural-urban differential was negligible.

Statement 24: Percentage of enterprises working on contract categorized by enterprise type and sector

sector	percentage of enterprises		
	OAE	establishment	all
	(1)	(2)	(3)
rural	2.4	4.2	2.6
urban	2.1	3.5	2.4
all	2.3	3.8	2.5

See Appendix Table 25 for more detail.

3.20 **Enterprises pursuing mixed activity:** **Statement 25** presents the percentage of enterprises pursuing mixed activity by sector and type of enterprise. About 5% of enterprises pursued mixed activity. Percentage of enterprises pursuing mixed activity was higher in urban areas (16%) than in rural areas (3%). However, among enterprises pursuing mixed activity OAEs had a proportionate share of 82%.

Statement 25: Percentage distribution of enterprises pursuing mixed activity by sector and type of enterprise

sector	percentage of enterprises pursuing mixed activity	among enterprises pursuing mixed activity percentage distribution by type of enterprise		
		OAE	establishments	all
		(1)	(2)	(3)
rural	3.0	91.0	9.0	100.0
urban	15.6	71.5	28.5	100.0
all	4.8	81.7	18.3	100.0

See Appendix Table 28 for more detail.

3.21 **Enterprises receiving assistance:** **Statement 26** gives the proportion of enterprises receiving assistance separately by type of assistance received. Kinds of assistance include loans, subsidies, machines/equipment, training, marketing assistance procurement of raw materials and others. Provision was made in the schedule for recording information on two such kinds of assistances received. Only about 14 % of the enterprises had reported receiving assistance of any kind. About 12 % of enterprises received assistance in the form of loans. Higher percentage of

enterprises reported not receiving assistance in urban areas (89%) than in rural areas (84%). The establishments (22%) had, however, received more assistance than OAEs (13%).

Statement 26: Percentage of enterprises receiving assistance by type of assistance received categorized by enterprise type and sector

all-India

type of assistance received	percentage of enterprises receiving any assistance								
	rural			urban			all		
	OAE	establishment	all	OAE	establishment	all	OAE	establishment	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
1. loan	13.5	23.6	14.4	7.6	15.4	9.4	11.4	18.5	12.4
2. subsidy	0.8	0.7	0.8	0.2	0.3	0.2	0.6	0.4	0.5
3. machinery/equipment	0.2	0.2	0.2	0.1	0.2	0.1	0.2	0.2	0.2

7. others	1.2	3.2	1.4	0.8	2.6	1.2	1.1	2.8	1.3
percentage of enterprises not receiving any assistance	84.7	71.0	83.5	91.0	81.7	88.9	87.0	77.7	85.7

See Appendix Table 27 for more detail.

3.22 Other economic activities undertaken: Many of the proprietary and partnership enterprises were engaged in other economic activities along with the activities of the surveyed enterprise either concurrently or at different points of time. **Statement 27** gives the percentage of enterprises pursuing either single activity or multiple activities separately for rural, urban and combined sector. At all-India level about 32% of enterprises were pursuing multiple activities. The percentage of enterprises pursuing multiple activities was significantly higher in rural areas (41%) than in urban areas (18%). Again, the proportion of enterprises having major income coming from the surveyed enterprise was more in rural areas than in urban areas.

Statement 27: Percentage distribution of enterprises by other economic activities and major source of annual income of the owner/major partner (for proprietary and partnership enterprises)

sector	owner pursuing single activity	owner pursuing multiple activity		all
		and major income coming from the surveyed enterprise	and major income not coming from the surveyed enterprise	
(1)	(2)	(3)	(4)	(5)
rural	58.7	15.3	26.0	100.0
urban	81.7	5.3	13.0	100.0
all	68.4	11.1	20.5	100.0

See Appendix Table 30 for more detail.

3.23 Loan transactions of Self-help groups: Estimated number of self-help groups and details of loan transactions are given for major states in **Statement 28** (For definition of self-help group, see Chapter 2). It revealed that Andhra Pradesh had the highest number of self-help groups engaged in providing credit to its members, followed by Tamil Nadu, Kerala, Karnataka, and West Bengal. It may be seen that for majority of the states, average number of members was between 10 and 20. **However, for certain states like Gujarat, Punjab and Madhya Pradesh, the estimated number of self-help groups and corresponding average number of members etc. are based on a very small sample size as indicated in the Column 11.** Proportion of members having loans outstanding by various purposes of loan taken is also given in **Statement 28**. It may be mentioned that each member could have taken loans for different purposes concurrently. It can be seen that for majority of the States, highest proportion of members had taken loans for ‘self-employment activity of self/household members’ followed by ‘household expenses, including expenses on social functions’.

Statement 28: Loan transactions per self-help group for Major States for all enterprise types

Major States	average no. of members (0.0) per SHG	average no. of members of SHG with loans outstanding	no. per 1000 members with outstanding loans for						no. of self-help groups engaged in giving loans	
			self-employment activity of self/household member	Re-payment of other debts	meeting household capital expenditure like house building, etc.	meeting medical expenses of self/relatives	household expenses, including expenses on social functions	others	estimated	sample
			(4)	(5)	(6)	(7)	(8)	(9)

all-India	14.4	10	304	73	66	63	169	49	1143158	10631

See Appendix Table 36 for more detail.

3.24 **Loan transactions of cooperative credit societies:** Estimated number of cooperative credit societies and details of loan transactions are given for major states in **Statement 29**. It may be seen that Maharashtra had the highest number of cooperative credit societies followed by West Bengal, Kerala, Gujarat, and Orissa. **However, for 9 out of 17 states in Statement 29, the estimates are based on very small sample size.** Hence, users are advised caution in using estimates given for such states. In case of cooperative credit societies also, for majority of states, highest proportion of members had taken loans for ‘self-employment activity of self/household members’ followed by ‘household expenses, including expenses on social functions’. It may be mentioned that each member could have taken loans for different purposes concurrently.

Statement 29: Loan transactions per co-operative credit society for Major States for all enterprise types

Major State	average no. of members (0.0) per society	average no. of members of society with loans outstanding	no. per 1000 members with outstanding loans for						no. of cooperative credit societies	
			self-employment activity of self/household member	Re-payment of other debts	meeting household capital expenditure like house building, etc.	meeting medical expenses of self/relatives	household expenses, including expenses on social functions	others	estimated	sample

See Appendix Table 37 for more detail.

3.25 **Comparative estimates of some important characteristics:** **Statement 30** gives comparative estimates of the current survey (July 2006- June 2007) and the previous survey (July 2001- June 2002) of service sector enterprises after excluding the sector financial intermediation (J), which accounted for major difference in coverage between the two survey periods. The other differences in respect of coverage in the two surveys as noted in para 1.2.3 are not expected to affect the comparison significantly. It is seen that there was no significant change in percentage of enterprises in rural and urban sectors. Also OAEs and proprietary enterprises dominated the service sector enterprises with respective percentages about 84% and 99% in both survey periods. While the ‘percentages of enterprises not registered with any agency’ had increased from 61% in 2001-02 to 63% in 2006-07, the ‘percentage of enterprises without fixed premises’ had declined from 32% to 28% during the same period. While the share of top five states in total number of enterprises had a marginal fall from about 54% to 52%, share of the top state Uttar Pradesh declined from about 17% to 15%. It is interesting to note that top four States were identical both in 2001-02 and 2006-07 and their percentage shares did not reveal noteworthy differences.

Statement 30: Some important characteristics over the last two rounds at all-India level

	57 th round (2001-02)		63 rd round (2006-07)*	
	R	U	R	U
Percentage of enterprises (sector-wise)				
		59.4		57.7
		40.6		42.3
Percentage of OAEs in total number of enterprises	83.5		84.6	
Percentage of proprietary enterprises	98.7		98.8	
Percentage of enterprises not registered with any agency	61.3		63.2	
Percentage of enterprises without fixed premises	32.4		28.2	
Percentage of enterprises operating perennially	98.3		98.4	
Estimated number of enterprises (in'000)	14472		14998	
Estimated number of workers (in'000)	26556		27742	
Average number of workers per enterprise	1.8		1.8	
Share of top five states in total number of enterprises	UP	17.19	UP	14.71
	WB	10.79	WB	12.81
	AP	9.29	AP	9.35
	MAH	8.21	MAH	8.95
	BHR	8.17	TN	6.57
	Total	53.65	Total	52.40
Percentage of enterprises with no. of months of operation 9 or more	88.7		91.0	
Percentage of enterprises working on contract	2.2		2.6	
Percentage of SC/ST/OBC owner/partners in proprietary and partnership enterprises	60.8		61.4	

* Percentages and estimates calculated by excluding enterprises covered under financial intermediation (J).

3.26 Precision of estimates: Relative Standard Errors (RSEs) of estimated number of enterprises and estimated number of workers categorized activity/sector and state/sector are given in **Statements 31-34** to show the reliability of estimates. It may be seen that barring hotels (H1) and Storage and Warehousing (I1), RSEs are less than 5% at all-India level both for estimated number of enterprises and estimated number of workers for all other activity categories, indicating that estimates are fairly reliable. High RSEs in respect of estimates of both the above characteristics for the activity category Storage and Warehousing (I1) might be due to very low sample size. It may be mentioned that majority of storage and warehousing units are covered under organized manufacturing segment through the Annual Survey of Industries (ASI). In the current survey, quite a few list frame units under category I1 became casualty on account of being covered under ASI. Hence, readers are advised to exercise due caution in using estimates in such cases. For the major states, RSEs of estimated number of enterprises are less than 10% except Assam and Jharkhand (**vide Statements 33-34**). However, RSEs of estimated number of workers are less than 10% except Jharkhand. For the union territories and certain north-eastern states, the high RSEs (20% and above) might be due to inadequate sample size in the respective States/UTs. The data users are advised to use the estimates with caution particularly in cases where RSEs of estimates are high (say, more than 15% or so).

Statement 31: RSEs of estimated number of enterprises by activity category and sector

activity	no. of enterprises surveyed			estimated no. of enterprises (in '000)			RSE (%)

Appendix B
Coverage, Sample Design,
Estimation Procedure

Note on Sample Design and Estimation Procedure

1. Introduction:

1.1 The National Sample Survey (NSS), set up by the Government of India in 1950 to collect socio-economic data employing scientific sampling methods, started its sixty-third round from 1st July 2006.

1.2 The sixty-third round of NSS was earmarked for collection of data on economic and operational characteristics of enterprises in service sector (excluding trade) and also on household consumer expenditure. The field operations of the survey commenced on 1st July 2006 and continued up to 30th June 2007.

1.3 Last survey of service sector enterprises was conducted in the 57th round of NSS during July 2001 to June 2002.

The present survey was basically a repetition of the 57th round survey in terms of concepts and definitions. However, financial sector had been included in the coverage of this round.

2. Outline of Survey Programme

2.1 **Subject Coverage:** The 63rd round (July 2006 - June 2007) of NSS was earmarked for survey on service sector enterprises (excluding Trade). All service sector enterprises, which were not covered under the Annual Survey of Industries (ASI), were under coverage of the survey. Government and public sector undertakings were not under survey coverage. Usual annual survey on household consumer expenditure was also carried out during this round.

2.2 **Geographical coverage:** The survey covered the whole of the Indian Union *except* (i) Leh (Ladakh) and Kargil, Punch and Rajauri districts of Jammu & Kashmir (central sample), (ii) interior villages of Nagaland situated beyond five kilometres of the bus route and (iii) villages in Andaman and Nicobar Islands which remained inaccessible throughout the year.

2.3 **Period of survey and work programme:** The period of survey was of one year duration starting on 1st July 2006 and ending on 30th June 2007. The survey period of this round was divided into four sub-rounds of three months duration each as follows:

- sub-round 1 : July - September 2006
- sub-round 2 : October - December 2006
- sub-round 3 : January - March 2007
- sub-round 4 : April - June 2007

In each of these four sub-rounds, equal number of sample villages/ blocks (FSUs) were allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Attempt was made to survey each of the FSUs during the sub-round to which it had been allotted. *Because of the arduous field conditions, this restriction was not strictly enforced in Andaman and Nicobar Islands, Lakshadweep, rural areas of Arunachal Pradesh and Nagaland.*

2.4 Schedules of enquiry: During this round, the following schedules of enquiry were canvassed:

Schedule 0.0	: list of households and non-agricultural enterprises
Schedule 2.345	: service sector enterprises (excluding trade)
Schedule 1.0	: household consumer expenditure

Participation of States: In this round all the States and Union Territories except Andaman & Nicobar Islands, Dadra & Nagar Haveli, Chandigarh, Lakshadweep and Andhra Pradesh (for schedule 1.0) participated at least on an equal matching basis. The following was the matching pattern of the participating States/ UTs.

Nagaland (U)	: triple
U.P., J & K, Manipur	: double
Kerala, Goa, Maharashtra (U)	: one and half
Remaining States/ UTs	: equal

3. Sample Design

3.1 Outline of sample design: Two frames had been used for the 63rd round survey viz. List frame and Area frame.

3.2 List frame: A list of 998 service sector companies distributed all over India had been used as list frame. The list of financial sector enterprises had been supplied by RBI. For the other service sector enterprises the list had been supplied by the Ministry of Company Affairs.

For all the companies in the list frame, information was collected considering all the branch offices. A combined schedule 2.345 was filled up for the list frame companies covering all the branches.

All these companies in the list frame were surveyed. However, these companies and their branch offices were excluded from the coverage of the area frame survey to avoid duplication.

There was no sub-round restriction for the list frame units.

All the enterprises in the list frame were common to both central and state samples.

The list frame units were surveyed by the central agency only. It was decided that DPD would supply validated data regarding list frame units to the respective State agencies.

3.3 Area frame:

A stratified multi-stage design had been adopted for the 63rd round survey. The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. In addition, for the newly declared towns and out growths (OGs) in census 2001 for which UFS had not been done, a separate list was prepared and this list had been used as a frame for such towns and OGs in urban sector. For these towns and OGs the whole town/ OG were considered as FSU. The ultimate stage units (USU) were service sector enterprises, in both the sectors. In the case of large villages/ towns/ blocks requiring hamlet-group (hg)/ sub-block (sb) formation, one intermediate stage was the selection of hgs/ sbs from each FSU.

The list of villages as per census 2001 had been used as frame for the rural sector.

In the urban sector, three kinds of frames had been used:

- (a) For the 27 towns with population 10 lakhs or more (as per Census 2001), EC-98 had been used as frame.
- (b) For other UFS towns, the latest available list of UFS blocks had been used as frame.
- (c) For non-UFS towns list of such towns/ OGs had been used as frame.

3.4 Stratification: Within each district of a State/ UT, two basic strata had been formed:

i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them also formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum. There were 27 towns with population 10 lakhs or more at all-India level as per census 2001.

3.5 Sub-stratification for area frame:

3.5.1 Rural sector: If 'r' be the sample size allocated for a rural stratum, the number of sub-strata formed was ' $r/2$ '. The villages within a district as per frame was first arranged in ascending order of population. Then sub-strata 1 to ' $r/2$ ' had been demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

3.5.2 Urban sector:

- (a) For the 27 cities where EC-98 frame had been used: A number of sub-strata had been formed within each stratum based on EC-98 information as under:

sub-stratum 1: all FSUs having at least one establishment (i.e. enterprise with at least one hired worker) of Financial sector (NIC 2004 codes: 659, 66, 67) under coverage of survey.

sub-stratum 2: all FSUs, excluding those in the already formed sub-stratum 1, having at least one establishment under coverage of survey belonging to any of the NIC 2004 codes: 72, 73, 92.

sub-stratum 3: all FSUs, excluding those in the already formed sub-strata, having at least one establishment under coverage of survey belonging to any of the NIC 2004 codes: 61, 6302, 70, 71, 90, 9191, 9199.

sub-stratum 4: all FSUs, excluding those in the already formed sub-strata, having at least one establishment under coverage of survey belonging to any of the NIC 2004 codes: 602, 6301, 6303, 6304, 6309, 85.

sub-stratum 5: all FSUs, excluding those in the already formed sub-strata, having at least one establishment in any one of the Section H, I, J, K, M, N, O of NIC 2004 under coverage of survey.

sub-stratum 6: all FSUs, excluding those in the already formed sub-strata, having at least one own account enterprise (OAE) i.e. enterprise with no hired worker in any one of the Section H, I, J, K, M, N, O of NIC 2004 under coverage of survey.

sub-stratum 7: rest of FSUs of the stratum.

(b) For other cities and towns of urban stratum of a district: Three sub-strata were formed as follows:

sub-stratum 1: all UFS blocks (i.e. UFS blocks as per the latest UFS) identified as Industrial Area (IA) or Bazar Area (BA) or Hospital Area (HA) or Slum Area (SA).

sub-stratum 2: remaining UFS blocks.

sub-stratum 3: non-UFS towns/ OGs of Census 2001

3.6 Total sample size: 13322 FSUs for area frame and 998 service sector companies for list frame had been allocated at all-India level for central sample on the basis of investigator strength. For state sample, 16892 FSUs had been allocated for area frame.

3.7 Allocation of total samples to States and UTs: The total (all-India) sample FSUs had been allocated to the States and UTs in proportion to number of workers in service sector enterprises as per EC '98 engaged in the activities under coverage of the survey subject to the availability of investigators ensuring more or less uniform work-load per investigator. (Hereafter, "**workers**")

will mean **workers in service sector enterprises as per EC '98 engaged in the activities under coverage of this round**).

3.8 Allocation of State/ UT level sample to Rural and Urban sectors: State/UT level sample sizes had been allocated to rural and urban sectors in proportion to the total number of workers.

3.9 Allocation to strata: Within each sector of a State/UT, the respective sample size had been allocated to the different strata in proportion to the stratum population as per census 2001.

3.10 Allocation to sub-strata:

3.10.1 Rural sector: Allocation to each sub-stratum was 2 except in a few sub-strata.

3.10.2 Urban sector:

For 27 million plus cities in the urban sector, stratum allocations had been distributed over the sub-strata in proportion to the number of *workers*.

For other urban strata, maximum of 2 FSUs were allocated to sub-stratum 3. Rest of the stratum allocation were divided among the sub-strata 1 & 2 in proportion to number of FSUs in the sub-strata with double weightage to sub-stratum 1. Minimum sub-stratum allocation was 2 for sub-strata 1 & 2.

3.11 Selection of FSUs: Samples had been drawn in the form of two independent sub-samples in each stratum × sub-stratum.

Rural sector: FSUs had been selected by PPSWR with size as ‘other workers’ (i.e. total workers – household industry workers – agricultural labourers – cultivators) as per census 2001.

Urban sector:

(a) For 27 million plus cities: FSUs had been selected by PPSWR with the number of workers as size.

(b) For other cities/towns: FSUs had been selected by SRSWOR.

3.12 Selection of hamlet-groups/ sub-blocks / enterprises - important steps

3.12.1 Formation of segment 9: All non-agricultural enterprises having 50 or more workers in the entire FSU and having operated at least one day during last 365 days preceding the day of survey (hereinafter to be called as ‘big’ enterprises for brevity) were listed and all the eligible units under coverage were surveyed. All the listed big units (whether under coverage or not) constituted segment 9. All eligible enterprises under coverage were surveyed in segment 9.

3.12.2 Criterion for hamlet-group/ sub-block formation: Having constituted segment 9 as stated above, it was determined whether listing was to be done in the whole sample FSU or not.

For this, approximate present population (P) and approximate total number of non-agricultural enterprises (E) for the whole FSU were ascertained first from knowledgeable persons. Depending upon the values of 'P' and 'E', it was divided into a suitable number (say, D) of 'hamlet-groups' in the rural sector and 'sub-blocks' in the urban sector as stated below.

population (P)	no. of hgs/ sbs to be formed	no. of non-agricultural enterprises (E)	no. of hgs/ sbs to be formed
less than 1200	1	less than 120	1
1200 - 1599	4	120 - 159	4
1600 - 1999	5	160 - 199	5
2000 - 2399	6	200 - 239	6
and so on	...	and so on	...

However, while considering enterprise criteria, segment 9 enterprises, if any, were excluded i.e. the value of 'E' above might have been adjusted in respect of the number of enterprises in segment 9. For rural areas of Himachal Pradesh, Sikkim and Poonch, Rajouri, Udhampur, Doda districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups were formed as follows.

approximate present population of the sample village	no. of hgs to be formed
less than 600 (no hamlet-groups)	1
600 to 799	4
800 to 999	5
1000 to 1199	6
.....and so on	

For enterprise criterion, procedure was not changed for the above areas.

The higher of the two values as per population and enterprise criteria was accepted as the number of hgs/ sbs actually formed.

3.12.3 Formation of hamlet-groups/ sub-blocks: In case hamlet-groups/ sub-blocks were formed in the sample FSU, the same was done by more or less equalizing population. However, it was ensured that the hamlet-groups/ sub-blocks formed were clearly identifiable in terms of physical landmarks.

3.12.4 Formation of segments 1 and 2: After formation of hg / sb in the large FSUs, three hg's/ sb's were selected for listing in the following manner – hg with maximum number of service sector enterprise under survey coverage, failing which, with maximum number of non-

agricultural enterprises, failing which, with maximum percentage share of population was always selected and termed as **Segment 1**; two more hgs/ sbs were selected with SRSWOR and combined to constitute **Segment 2**.

3.12.5 Listing of households/ enterprises and formation of their frame: Having determined the area(s) to be considered for listing, the next step was to list all the households and non-agricultural enterprises (NAEs) [including those found to be temporarily locked after ascertaining temporariness of locking of households/ NAEs through local enquiry]. Although all non-agricultural enterprises were to be listed, only the service sector enterprises as given in para 2.1 were covered for the survey. Thus, Govt. service sector enterprises / PSUs/ enterprises under the coverage of ASI frame (2004 – 05) were not considered for survey. Further, those service sector enterprises which operated for at least 30 days (15 days for seasonal enterprises) during the reference year (i.e. last 365 days preceding the date of survey) only qualified for survey. Such enterprises will hereafter be referred to as ‘**eligible enterprises**’.

Listing and selection of enterprises were done separately for segment 1 and segment 2. For segment 2, hg/sb with order of selection number 1 was listed first and that with order of selection number 2 was listed next but selection of enterprises was made from the combined list.

3.12.6 Formation of Second Stage Strata and allocation of enterprises for schedule 2.345:

In each of the segments 1, 2 and 9 of the sample FSU, eligible enterprises under coverage were divided into **8** (eight) second stage strata (SSS) as follows:

(i) establishments:

- SSS 1 – financial intermediation excluding monetary intermediation but including money lending, self help group (SHG), co-operative credit society (659), insurance and pension funding except compulsory social security (66), activities auxiliary to financial intermediation (67);
- SSS 2 – storage and warehousing (6302), computer and related activities (72), research and development (73);
- SSS 3 – water transport (61), sewage and refuse disposal, sanitation (90), membership organizations (91);
- SSS 4 – hotels etc. (551), supporting and auxiliary transport activities, activities of travel agencies excluding storage and warehousing (6301, 6303, 6304, 6309), post and courier activities (641), real estate (701), architectural, engineering etc. (742), advertising (743), human health (851), motion pictures, radio, TV and other entertainment (921);
- SSS 5 – rest of the establishments;

(ii) OAEs:

- SSS 6 – financial intermediation excluding monetary intermediation but including money lending, self help group (SHG), co-operative credit society (659), insurance and pension funding, except compulsory social security (66), activities auxiliary to financial intermediation (67);
- SSS 7 – real state (70), computer and related activities (72), research and development (73),

other business activities (74);
SSS 8 – rest of the OAEs.

The number of enterprises to be surveyed for schedules 2.345 in each FSU were as follows (excluding big enterprises in segment 9).

SSS no.	number of enterprises to be surveyed for schedule 2.345	
	without hg/ sb formation	with hg/ sb formation (for each segment)
1	2	1
2	2	1
3	2	1
4	4	2
5	4	2
6	2	1
7	4	2
8	4	2
total	24	12

From each SSS the sample enterprises for schedule 2.345 were selected by SRSWOR.

4. Estimation Procedure

4.1 Notations:

s = subscript for s-th stratum

t = subscript for t-th sub-stratum

m = subscript for sub-sample (m = 1, 2)

i = subscript for i-th FSU [village (panchayat ward) / block/ non-UFS town or OG]

d = subscript for a segment (d = 1, 2, 9)

j = subscript for j-th second stage stratum in an FSU/ segment (j = 1, 2, 3, 4, 5, 6, 7 or 8)

k = subscript for k-th sample enterprise under a particular second stage stratum within an FSU/ segment

l = subscript for l-th list frame company

D = total number of hamlet-groups/sub-blocks formed in the sample village (panchayat ward) / block

$D^* = 1$ if $D = 1$

$= (D - 1) / 2$ for FSUs with $D > 1$

N = total number of FSUs in any urban sub-stratum belonging to the strata other than million plus cities

Z = total size of a rural sub-stratum or urban sub-stratum of million plus cities (= sum of sizes for all the FSUs of a sub-stratum)

z = size of sample village/block used for selection.

n = number of sample village / block/ non-UFS town or OG surveyed including zero cases but excluding casualty for a particular sub-sample and sub-stratum.

E = total number of enterprises listed in a second-stage stratum of a village/block/ non-UFS town or OG /segment of sample FSU

e = number of enterprises surveyed in a second-stage stratum of a village/block/ non-UFS town or OG /segment of sample FSU

x, y = observed value of characteristics x, y under estimation

\hat{X} , \hat{Y} = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

$y_{stmidjk}$ = observed value of the characteristic y for the k-th enterprise in the j-th second stage stratum of the d-th segment (d = 1, 2, 9) of the i-th FSU belonging to the m-th sub-sample for the t-th sub-stratum of s-th stratum;

However, for ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

4.2A Formulae for estimation of aggregates for a particular sub-sample and stratum in rural / urban sector in case of Area Frame:

4.2A.1 Schedules 2.345:

4.2A.1.1 Rural:

Estimation formula for a sub-stratum:

(i) For enterprises selected in j-th second stage stratum:

$$\hat{Y}_j = \frac{Z}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_i} \left[\sum_{k=1}^{e_{i9j}} y_{i9jk} + \frac{E_{i1j}}{e_{i1j}} \sum_{k=1}^{e_{i1j}} y_{i1jk} + D_i^* \times \frac{E_{i2j}}{e_{i2j}} \sum_{k=1}^{e_{i2j}} y_{i2jk} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

4.2A.1.2 Urban:

(a) Estimation formula for a sub-stratum of million plus cities:

(i) For enterprises selected in j-th second stage stratum:

$$\hat{Y}_j = \frac{Z}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_i} \left[\sum_{k=1}^{e_{i9j}} y_{i9jk} + \frac{E_{i1j}}{e_{i1j}} \sum_{k=1}^{e_{i1j}} y_{i1jk} + D_i^* \times \frac{E_{i2j}}{e_{i2j}} \sum_{k=1}^{e_{i2j}} y_{i2jk} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

(b) Estimation formula for a sub-stratum of other strata:

(i) For enterprises selected in j-th second stage stratum:

$$\hat{Y}_j = \frac{N}{n_j} \sum_{i=1}^{n_j} \left[\sum_{k=1}^{e_{i9j}} y_{i9jk} + \frac{E_{i1j}}{e_{i1j}} \sum_{k=1}^{e_{i1j}} y_{i1jk} + D_i^* \times \frac{E_{i2j}}{e_{i2j}} \sum_{k=1}^{e_{i2j}} y_{i2jk} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

Note: For segment 9, an adjustment may be necessary if $E \neq e$ for a second-stage stratum due to casualty at the detailed enquiry stage. In that case, contribution of segment 9 (i.e. $\sum_{k=1}^{e_{i9j}} y_{i9jk}$) in the

above formulae may be replaced by $\frac{L_{i9j}}{e_{i9j}} \sum_{k=1}^{e_{i9j}} y_{i9jk}$, where L_{i9j} = (number of enterprises of segment 9 with survey code 1) + (number of enterprises of segment 9 with survey code 3 and reason for casualty codes 4 & 9).

$L_{i9j} = e_{i9j}$ if there was no casualty or there was casualty but with reason for casualty code as 1/ 2/ 3/ 5.

4.2A.2 Estimate for a stratum:

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

4.2A.3 Overall Estimate for Aggregates for Area Frame:

Overall estimate for aggregates for a stratum (\hat{Y}_s) based on two sub-samples was obtained as:

$$\hat{Y}_s = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{sm}$$

4.2A.4 Overall Area Frame Estimate of Aggregates at State/UT/all-India level:

The overall estimate \hat{Y} at the State/ UT/ all-India level was obtained by summing the area frame estimates (\hat{Y}_s) of stratum over all strata belonging to the State/ UT/ all-India.

4.2B Estimates from List Frame companies for Schedule 2.345 at all-India level:

$$Y = \frac{L}{L'} \sum_{l=1}^{L'} y_l,$$

where

L = (number of list frame companies with survey code 1 in item 19, block 1, schedule 2.345) + (number of list frame companies with survey code 3 and reason for casualty codes 4 & 9 in item 20, block 1, schedule 2.345)

$L' = (\text{number of list frame companies with survey code 1 in item 19, block 1, schedule 2.345})$

L and L' was equal if there was no casualty or there was casualty but the reason for casualty code was 1/2/3/5 in item 20, block 1, schedule 2.345.

Estimates were generated for any NIC category, Division, Group etc., by restricting L, L' to that particular domain.

4.2C Estimates for List Frame companies for Schedule 2.345 at *sector* × *State/UT* level:

Estimate were generated for rural/urban sector of State/UT by taking into account the information provided in block 7.1 for branches. Following procedure was adopted:

- (i) If a list frame company had no branch, then its *sector* × *State/UT* was determined by the location given in the list frame of companies.
- (ii) If a list frame company had branches over different sectors and States/UTs, estimates of any aggregate (e.g. GVA etc.) for any *sector* × *State/UT* were obtained **in a proportionate manner**. The proportion was the ratio of the number of workers of the company (taking into account all the branches) located in a particular *sector* × *State/UT* (to be obtained from block 7.1) to the total number of workers of the company given in column (5) of block 7.1 against 'total' in the last row.

4.3 Overall Estimate of Aggregates at State/UT/all-India level for schedule 2.345:

The overall estimate \hat{Y} at the State/ UT/ all-India level for the schedule 2.345 was obtained by summing the area frame estimates and list frame estimates of aggregates for the State/ UT/ all-India.

4.4 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the overall estimate of the aggregates Y and X (sum of area frame and list frame estimates) for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) was obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$.

4.5 Estimates of Error: There was no sampling for the list frame enterprises since it was the census of all units. The variance comprised only that due to area frame units. The estimated variances of the estimates were as follows:

4.5.1 For aggregate \hat{Y} :

$$V\hat{a}r(\hat{Y}) = \sum_s V\hat{a}r(\hat{Y}_s)$$

where $V\hat{a}r(\hat{Y}_s)$ are as given below.

4.5.1.1 For strata with PPSWR selection at first stage:

$$Var_{ppswr}(\hat{Y}_s) = \left[\sum_t \frac{1}{n_{st}(n_{st}-1)} \sum_{i=1}^{n_{st}} \left(\frac{Z_{st} \hat{Y}_{sti}}{z_{sti}} - \hat{Y}_{st} \right)^2 \right],$$

where $\hat{Y}_{sti} = \sum_j \hat{Y}_{stij}$ and

$$\hat{Y}_{stij} = \left[\sum_{k=1}^{e_{sti9j}} y_{sti9jk} + \frac{E_{sti1j}}{e_{sti1j}} \sum_{k=1}^{e_{sti1j}} y_{sti1jk} + D_{sti}^* \times \frac{E_{sti2j}}{e_{sti2j}} \sum_{k=1}^{e_{sti2j}} y_{sti2jk} \right]$$

4.5.1.2 For strata with SRSWOR selection at first stage:

$$Var_{srswor}(\hat{Y}_s) = \sum_t \frac{1}{4} (\hat{Y}_{st1} - \hat{Y}_{st2})^2,$$

where \hat{Y}_{st1} and \hat{Y}_{st2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.5.2 For ratio \hat{R} :

$$M\hat{S}E(\hat{R}) = \frac{1}{(\hat{X})^2} \left[\sum_s M\hat{S}E_s(\hat{R}) + \sum_{s'} M\hat{S}E_{s'}(\hat{R}) \right]$$

where s, s' indicate respectively the strata with PPSWR and SRSWOR selection at first stage.

4.5.2.1 For strata with PPSWR selection at first stage:

$$M\hat{S}E_s(\hat{R}) = \sum_t \frac{1}{n_{st}(n_{st}-1)} \sum_{i=1}^{n_{st}} \left[\frac{Z_{st}}{z_{sti}} (\hat{Y}_{sti} - \hat{R}\hat{X}_{sti}) - (\hat{Y}_{st} - \hat{R}\hat{X}_{st}) \right]^2$$

where

$$\hat{Y}_{sti} = \sum_j \hat{Y}_{stij}, \quad \hat{X}_{sti} = \sum_j \hat{X}_{stij},$$

and

$$\hat{Y}_{stij} = \left[\sum_{k=1}^{e_{sti9j}} y_{sti9jk} + \frac{E_{sti1j}}{e_{sti1j}} \sum_{k=1}^{e_{sti1j}} y_{sti1jk} + D_{sti}^* \times \frac{E_{sti2j}}{e_{sti2j}} \sum_{k=1}^{e_{sti2j}} y_{sti2jk} \right],$$

$$\hat{X}_{stij} = \left[\sum_{k=1}^{e_{st9j}} x_{sti9jk} + \frac{E_{sti1j}}{e_{sti1j}} \sum_{k=1}^{e_{st1j}} x_{sti1jk} + D_{sti}^* \times \frac{E_{sti2j}}{e_{sti2j}} \sum_{k=1}^{e_{st2j}} x_{sti2jk} \right]$$

4.5.2.2 For strata with SRSWOR selection at first stage:

$$M\hat{S}E_s(\hat{R}) = \sum_t \frac{1}{4} \left[\left(\hat{Y}_{s't1} - \hat{Y}_{s't2} \right)^2 + \hat{R}^2 \left(\hat{Y}_{s't1} - \hat{X}_{s't2} \right)^2 - 2\hat{R} \left(\hat{Y}_{s't1} - \hat{Y}_{s't2} \right) \left(\hat{Y}_{s't1} - \hat{X}_{s't2} \right) \right]$$

where $\hat{Y}_{s't1}$ and $\hat{Y}_{s't2}$ are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.6 Estimates of RSE:

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

4.7 Multipliers for Area frame enterprises:

The formulae for multipliers for a sub-sample for Schedule 2.345 are given below:

sector	sub-stratum	formula for multipliers		
		segment 9	segment 1	segment 2
rural	all	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{L_{stmi9j}}{e_{stmi9j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stmi1j}}{e_{stmi1j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D_{stmi}^* \times \frac{E_{stmi2j}}{e_{stmi2j}}$
urban	for million plus cities	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{L_{stmi9j}}{e_{stmi9j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stmi1j}}{e_{stmi1j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D_{stmi}^* \times \frac{E_{stmi2j}}{e_{stmi2j}}$
	for other strata	$\frac{N_{st}}{n_{stmj}} \times \frac{L_{stmi9j}}{e_{stmi9j}}$	$\frac{N_{st}}{n_{stmj}} \times \frac{E_{stmi1j}}{e_{stmi1j}}$	$\frac{N_{st}}{n_{stmj}} \times D_{stmi}^* \times \frac{E_{stmi2j}}{e_{stmi2j}}$

Note: (i) For estimating any characteristic for any domain not specifically considered in sample design, indicator variable may have been used.

- (ii) Multipliers had to be computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule.
- (iii) For estimating number of villages possessing a characteristic, $D_{stmi}^* = 1$ in the relevant multipliers and there was only one multiplier for the village.

5. Treatment for zero cases, casualty cases etc.:

5.1 While counting the number of FSUs surveyed (n_{stm}) in a sub-stratum, all the FSUs with survey codes 1 to 6 in schedule 0.0 were considered. In addition, if no SSU was available in the frame for a particular schedule, then also that FSU was treated as surveyed in respect of that schedule. However, if the SSUs of a particular schedule type were available in the frame of the FSU but none of these could be surveyed then that FSU had to be treated as casualty and it was not treated as surveyed in respect of that schedule.

5.2 *Casualty cases*: FSUs with survey code 7 as per schedule 0.0 were treated as casualties. In addition to this, an FSU, although surveyed, might have been treated as casualty for a particular schedule type and a particular *second stage stratum* as given in the following para:

5.2.1 Similarly, FSUs with survey codes 1 and 4 as per schedule 0.0 having number of enterprises in the frame of j-th second stage stratum greater than 0 but number of enterprises surveyed according to data file, considering all three segments together, as nil (i.e. $E_{i9j} + E_{i1j} + E_{i2j} > 0$ but $e_{i9j} + e_{i1j} + e_{i2j} = 0$) were taken as casualties for j-th second stage stratum

All the FSUs with survey codes 1 to 6 as per schedule 0.0 minus the number of casualties as identified above were taken as the number of surveyed FSUs (n_{stmj}) for that sub-stratum \times second stage stratum.

5.2.2 When casualty for j-th second stage stratum occurred for a particular segment but not for the other segment, the FSU was not treated as casualty but some adjustments in the value of E for the other segment were done as follows:

- (i) Suppose for segment 1, $E_{i1j} > 0$ but $e_{i1j} = 0$ while for segment 2, $E_{i2j} > 0$ and $e_{i2j} > 0$. In that case $D_i^* \times E_{i2j}$ will be replaced by $(E_{i1j} + D_i^* \times E_{i2j})$ in the formula for multiplier of segment 2.
- (ii) Suppose for segment 1, $E_{i1j} > 0$ and $e_{i1j} > 0$ while for segment 2, $E_{i2j} > 0$ but $e_{i2j} = 0$. In that case E_{i1j} will be replaced by $(E_{i1j} + D_i^* \times E_{i2j})$ in the formula for multiplier of segment 1.

However, segment 9 need not be clubbed with segment 1 or segment 2 if segment 9 enterprises were surveyed but no enterprise could be surveyed from segments 1 / 2.

It may be noted that n_{stmj} would be same for segments 1 & 2 of an FSU.

6. Treatment in cases of void second-stage strata/sub-strata /strata/NSS region at FSU or enterprise level

6.1 A sub-stratum might be void because of the casualty of all the FSUs belonging to the sub-stratum. This might have occurred in one sub-sample or in both the sub-samples. If it related to only one sub-sample, then estimate for the void sub-stratum might have been replaced with the estimate as obtained from the other sub-sample for the same sub-stratum.

6.2 When a sub-stratum was void in both the sub-samples, the following procedure was recommended:

Case(I): Sub-stratum void cases at FSU levels (i.e. all FSUs having survey code 7):

- i) If one of the rural sub-strata 1, 2, 3, 4, etc. was void then it might be merged with a sub-stratum having the next higher population size class of villages within the same district. Sub-stratum 1 might be merged with sub-stratum 2, sub-stratum 2 with sub-stratum 3 and so on. If last sub-stratum was void, it was merged with the previous sub-stratum.
- (ii) In the case of urban million plus cities, if any of sub-stratum 1/2/3/4 cities was void then it might be merged with sub-stratum 5 of the same stratum. If sub-stratum 5 was void, it might be merged with sub-stratum 6 and vice versa. If sub-stratum 7 was void, it might be merged with sub-stratum 6.
- (iii) In the case of other urban strata, if sub-stratum 1 was void, it might be merged with sub-stratum 2 and vice versa. If sub-stratum 3 was void, instruction was issued to contact SDRD for necessary guidelines.
- (iv) If all the sub-strata in a district were void, it might have been excluded from the coverage of the survey. The state level estimates were based on the estimates of districts for which estimates were available and remarks to that effect were added in appropriate places.

Case (II): Stratum void case at second stage stratum level (i.e. all the FSUs are casualties for a particular second stage stratum):

An FSU might be a casualty for a particular *second stage stratum* although survey code is not 7. If all the FSUs of a sub-stratum became casualties in this manner for a particular *second stage stratum*, the sub-stratum became void. In such cases, sub-strata were merged with other sub-strata for all the second stage strata as in *Case (I) above*.

However, if whole district/stratum became void in this manner for a particular second stage stratum, adjustment for this type of stratum void case may have been done according to the following guidelines.

The adjustment was made involving other strata (within NSS region) of the State/U.T. Suppose A, B, C and D were the four strata in the State/UT/Region and stratum C was void for j-th *second stage stratum*. If \hat{Y}_{aj} , \hat{Y}_{bj} and \hat{Y}_{dj} were the aggregate estimates for the strata A, B and D respectively, then the estimate \hat{Y}_{cj} for stratum C were obtained as $\left(\frac{\hat{Y}_{aj} + \hat{Y}_{bj} + \hat{Y}_{dj}}{Z_a + Z_b + Z_d} \times Z_c \right)$ where Z_a , Z_b , Z_c and Z_d were the sizes of strata A, B, C and D respectively.

6.3 It may be noted that allocation of sample FSUs was not done according to sub-stratum \times sub-round. Hence all the sub-rounds were not represented in a sub-stratum. Sub-round wise estimates, therefore, cannot be generated without merging the sub-strata.

Appendix C
Schedule 2.345

RURAL		*
URBAN		

CENTRAL		*
STATE		

GOVERNMENT OF INDIA
NATIONAL SAMPLE SURVEY ORGANISATION
SOCIO-ECONOMIC SURVEY
SIXTY-THIRD ROUND: JULY 2006 – JUNE 2007

SCHEDULE 2.345: SERVICE SECTOR ENTERPRISES (EXCLUDING TRADE)

[0] descriptive identification of sample enterprise	
1. state / u.t.:	6. ward /inv. unit / UFS block:
2. district:	7. name of owner:
3. tehsil / town*:	8. name of informant:
4. village name:	9. name and address of the enterprise:
5. serial no. of hamlet:	

[1] identification of sample enterprise								
item no.	item	code				item no.	item	code
1.	serial number of sample village/block (area frame) / company (list frame)					11.	sub – round	
						12.	sub – sample	
						13.	FOD sub-region [#]	
2.	frame used (list-1, area-2)					14.	segment number (1 / 2 / 9)	
3.	round number	6	3			15.	second stage stratum (code)	
4.	schedule number	2	3	4	5	16.	sample enterprise number	
5.	sample (central-1, state-2) (put '1' for list frame)					17.	informant code	
6.	sector (rural - 1, urban - 2)					18.	response code	
7.	state – region					19.	survey code	
8.	district					20.	if item 19 is 2 or 3	reason for casualty (list frame)/ substitution of original enterprise (area frame)
9.	stratum							
10.	sub-stratum					21.	PSL no. as per ASI frame (for 'list frame' units only, if applicable)	

CODES FOR BLOCK 1

item 17 : **informant code** : owner/partner – 1, manager – 2, others working in the enterprise – 9

item 18 : **response code** (to be filled up after filling up the entire schedule):

informant : co-operative and capable – 1, co-operative but not capable – 2, busy – 3, reluctant – 4, others – 9

item 19 : **survey code**: original enterprise surveyed – 1, substitute surveyed – 2, casualty – 3

item 20 : **reason for**

casualty (list frame): enterprise: Government/ PSU/under the coverage of ASI-1, non-operative/closed during the reference year-2, non-traceable-3, in operation during the reference year but data could not be collected-4, enterprise found to be outside survey coverage at detailed enquiry stage-5, others(specify)-9

substitution of original enterprise (area frame): informant : busy – 1, not available – 2, non-cooperative – 3, enterprise found to be outside survey coverage at detailed enquiry stage-4, others – 9

* Tick mark (✓) may be put in appropriate place.

Not applicable for Arunachal Pradesh, Manipur, Mizoram and Tripura.

CODES FOR BLOCK 2.1

item 208: type of ownership			
proprietary (male).....	1	co-operative society/ self-help group.....	5
proprietary (female).....	2	private limited company.....	6
partnership with members of the same household.....	3	public limited company.....	7
partnership between members not all from the same household...	4	others.....	9
item 213: general educational level of the working owner

Blocks to be filled and reference period by major activity and source of data

Data will be recorded from books of accounts, if maintained by the enterprise.

Major Activity	Blocks to be filled	Reference period	
		Books of Accounts	oral
Financial	1, 2.1, 2.3 (for SHG & co-op credit society), 6 to 13	FY 2005-06, if ready or	Reference month
Non-financial	1, 2.1, 2.2 (for transport), 3 to 5, 7 to 13	FY 2004-05	

Also fill block 7.1 for branch-wise data of list frame companies.

[2.1] particulars of operation and background information																								
was the enterprise pursuing mixed activity during reference year? (<i>yes – 1, no – 2</i>)											201.													
description of major activity during the reference year:																								
5-digit code as per NIC 2004											202.													
if item 201 is '1' description of <i>most important minor activity</i> during the reference period :																								
5-digit code as per NIC 2004											203.													
nature of operation (<i>perennial – 1, seasonal – 2, casual – 3</i>)											204.													
number of months (in whole number) operated during the reference year											205.													
number of hours the enterprise normally worked in a day											during the reference year			206.										
											during the reference month			207.										
type of ownership (code)											208.													
if item 208 is '1' to '4'	did the working owner (s) undertake any other economic activity during the reference year? (<i>yes – 1, no – 2</i>)										209.													
	if item 209 is '1'	was the present enterprise the major source of annual income of the working owner (s)? (<i>yes – 1, no – 2</i>)									210.													
		if item 210 is '2'	% of annual income of the working owner (s) derived from the enterprise under survey (in whole number)									211.												
	description of most important other activity (give 'X' if major income is from non-economic activity like pension, etc.)																							
	industry section (one of A to Q or X) as per NIC 2004									212.														
	general educational level of working owner (code)											213.												
	social group of working owner (<i>ST-1, SC-2, OBC-3, others-9</i>)											214.												
	total no. of EFPs of the working owner (<i>EFP: enterprises with fixed premises</i>)											215.												
total no. of EFPs of the working owner <i>with same activity (same as item 202 at 2-digit level)</i>											216.													
whether accounts maintained (code)											217.													
data of blocks 3 to 5 (oral non. fin.)/7- 10 (B/S non. fin)/ 6-10 (fin.) collected for the period											from	D	D	M	M	Y	Y	to	D	D	M	M	Y	Y
											218.								219.					
location of the enterprise (code)											220.													
whether private non-profit institution? (<i>yes-1,no -2</i>)											221.													
nature of problems faced, if any, during the reference year(<i>at most 2 codes in the order of code list</i>)											222.													
											223.													
did the enterprise undertake any work on contract basis? (<i>yes – 1, no – 2</i>)											224.													
major destination agency for sale of output (<i>households-1, government- 2, resident financial enterprises-3, resident non-financial enterprises-4,NPIs-5, non-residents-6</i>)											225.													
types of assistance received during the last five years (code) (<i>at most 2 codes may be given in descending order of the importance of assistance</i>)											226.													
											227.													
enterprise type during the reference year (Own Account Enterprise-1, Establishment-2)											228.													
following questions of block 2.1 may be enquired after filling data in blocks 2.2 to 11																								
whether this enterprise registered/ recognised under any act/ authority? (<i>yes – 1, no – 2</i>)											229.													
if item 229 is '1'	whether this enterprise registered under Companies Act, 1956? (<i>yes – 1, no – 2</i>)										230.													
	if item 208 is '3' to '9'	Whether having a PAN for this enterprise? (<i>yes – 1, no – 2</i>)									231.													
		Whether having a TAN for this enterprise? (<i>yes – 1, no – 2</i>)									232.													
	Whether this enterprise is registered as a service tax assessee? (<i>yes – 1, no – 2</i>)										233.													
	other Acts/authorities of registration/ recognition of this enterprise(<i>at most 2 codes in the order of code list</i>) if item 234/235 is 19, please specify the registration agency:										234.													
										235.														

[2.2] details of vehicles operated (owned) during last 30 days/ last calendar month (applicable for Land Transport (NIC 2004 class 6021, 6022 and 6023))							
type of vehicle	item no.	no. of vehicles				payload capacity (in tonnes, whole no.)	total distance covered (in km)
		total	of age				
			less than 5 years	5-9 years	10 years or more		
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Freight transport by motor vehicles (NIC code 60231)							
trailers	236.						
10-wheeler	237.						
6-wheeler	238.						
MCV (3 to 5 tonnes)	239.						
LCV (1.5 to 3 tonnes)	240.						
others	241.						
Freight transport other than by motor vehicles (NIC code 60232)							
animal drawn	242.						
others	243.						
Passenger land transport by motor vehicles (NIC codes 6021, 60221)							
bus/minibus	244.						
taxi/ trekker/jeep	245.						
auto-rickshaw	246.						
others	247.						
Passenger land transport other than by motor vehicles (NIC codes 60222)							
rickshaw/van	248.						
animal drawn carts	249.						
others	250.						

[2.3] loan transactions of the Self-Help Group (NIC code 65994) / Co-operative Credit Society (NIC code 65995)		
description	item no.	no. of members as on date of survey
(1)	(2)	(3)
no. of members with loans outstanding (only loans taken from this enterprise will be considered)	251.	
self-employment activity of self/ household member	252.	
repayment of other debts	253.	
meeting household capital expenditure like house building, etc.	254.	
meeting medical expenses of self/relatives	255.	
household expenses, including expenses on social functions	256.	
others	257.	
total number of members of the society/ SHG	258.
