Overview

ABSTRACT
The national sample survey (NSS), set-up by the government of India in 1950 to collect socio-economic data employing scientific sampling methods, completed its forty-ninth round as a six months survey during the period January to June,1993.

Housing condition of the people is one of the very important indicators of the socio-economic development of the country. Statistical data on housing condition in qualitative and quantitative terms are needed periodically for an assessment of housing stock and formulation of housing policies and programmes. NSS 49th round was devoted mainly to the survey on housing condition and migration with special emphasis on slum dwellers. An integrated schedule was designed for collecting data on 'housing condition' as well as ' migration '. Also,households living in the slums were adequately represented in the sample of households where the integrated schedule was canvassed.The present study was different from the earlier study in the sense that the coverage in the present round was much wider. Detailed information on migration have been made with a view to throw data on different facets of migration. For this reason we find separate migration data for males & females, migrant households, return migrants, the structure of the residence of the migrants' households before & after migration, status of the migrants before and after migration and other details on migration. It is to be noted that comprehensive data on out-migrants & return-migrants were collected for the first time in the 49th round.

KIND OF DATA
Sample survey data [ssd]

UNITS OF ANALYSIS
Randomly selected households based on sampling procedure and members of the household

Scope

NOTES
A comprehensive survey on `housing condition` was earlier carried out by the NSSO in its 44th round (1988-89) operations. Data on immigration were last collected as a part of the fourth quinquennial survey on employment and unemployment during 1987-88 (NSS 43rd round). In view of the importance of upto date statistical intelligence regarding housing stock as well as additions - both in quantitative and qualitative terms - for formulation of housing policies, the NSS 49th round has mainly been devoted to the survey on housing condition. As the last survey on the conditions of the slum dwellers was carried out by the NSSO over 15 years back, special emphasis was given to obtain the needed information to study the conditions of the slum dwellers. But the slum dwellers consisted of mainly migrant labour, so an integrated schedule to collect information on both the housing condition and migration with emphasis on slum dwellers was formulated for the 49th round survey. The schedule was framed to collect housing statistics relating to information on (i) the characteristics of the stock of residential housing and amenities currently available and (ii) addition through construction of buildings for habitation purpose. Relating to migration, collected information on out migration and also international migration. In addition,

collected information on conditions of slum dwellers and also utilisation of public distribution system in respect of essential commodities.

The present study was different from the earlier study in the sense that the coverage in the present round was much wider. Ddetailed information on migration have been made with a view to throw data on different facets of migration. For this reason we find separate migration data for males & females, migrant households, return migrants, the structure of the residence of the migrants' households before & after migration, status of the migrants before and after migration and other details on migration. It is to be noted that comprehensive data on out-migrants & return-migrants have been collected for the first time in the 49th round.

KEYWORDS
Housing condition, Building, Migration, Usual place of residence(UPR), Flood risk, Approach Road, Dwelling, Living facilities, Building construction, Public distribution system(PDS), Slum dwellers, Return-migrant, Out-migrant

Coverage

GEOGRAPHIC COVERAGE
The survey covered the whole of Indian union excepting (i) Ladakh and kargil districts of Jammu & kashmir (ii) 768 interior villages of Nagaland (out of a total of 1119 villages) located beyond 5 kms. of a bus route and (iii) 172 villages in Andaman & Nicobar islands (out of a total of 520 villages) which are inaccessible throughout the year.

UNIVERSE
The survey used the interview method of data collection from a sample of randomly selected households and members of the household

Sampling

Sampling Procedure

A two-stage stratified design was adopted for the 49th round survey. The first-stage units(fsu) were census villages in the rural sector and U.F.S. (Urban Frame Survey) blocks in the urban sector (However, for some of the newly declared towns of 1991 census for which UFS frames were not available, census EBs were first-stage units). The second-stage units were households in both the sectors. In the central sample altogether 5072 sample villages and 2928 urban sample blocks at all-India level were selected. Sixteen households were selected per sample village/block in each of which the schedule of enquiry was canvassed. The number of
sample households actually surveyed for the enquiry was 119403.

Sample frame for fsus : Mostly the 1981 census lists of villages constituted the sampling frame for rural sector. For Nagaland, the villages located within 5 kms. of a bus route constituted the sampling frame. For Andaman and Nicobar Islands, the list of accessible villages was used as the sampling frame. For the Urban sector, the lists of NSS Urban Frame Survey (UFS) blocks have been considered as the sampling frame in most cases. However, 1991 house listing EBs (Enumeration blocks) were considered as the sampling frame for some of the new towns of 1991 census, for which UFS frames were not available.

Stratification for rural sector : States have been divided into NSS regions by grouping contiguous districts similar in respect of population density and crop pattern. In Gujarat, however, some districts have been split for the purpose of region formation, considering the location of dry areas and distribution of tribal population in the state. In the rural sector, each district with 1981 / 1991 census rural population less than, 1.8 million/2 million formed a separate stratum. Districts with larger population were divided into two or more strata, by grouping contiguous tehsils.

Stratification for urban sector : In the urban sector, strata were formed, within the NSS region, according to census population size classes of towns. Each city with population 10 lakhs or more formed a separate stratum. Further, within each region, the different towns were grouped to form three different strata on the basis of their respective census population as follows : all towns with population less than 50,000 as stratum 1, those with population 50,000 to 1,99,999 as stratum-2 and those with population 2,00,000 to 9,99,999 as stratum-3.

Sample size for fsu's : The central sample comprised of 5072 villages and 2928 blocks.

Selection of first stage units : The sample villages have been selected with probability proportional to population with replacement and the sample blocks by simple random sampling without replacement. Selection was done in both the sectors in the form of two independent sub-samples.

Deviations from Sample Design

There was no deviation from the original sample deviation.

Weighting

Sample weights were calculated and included in each of the data files
Variable 'Wgt_SS' refers to Multiplier for each Subsample.
Variable 'Wgt_Combined' refers to Combined Multiplier.

Questionnaires

Overview

The questionnaire consisted of 13 blocks as given below :
Block - 0 : descriptive identification of sample household
Block - 1 : identification of sample household
Block - 2 : particulars of field operations
Block - 3 : household characteristics
Block - 4 : demographic and migration particulars of members of household
Block - 5 : building and environment particulars
Block - 6 : particulars of the dwelling
Block - 7 : particulars of living facilities
Block - 8 : particulars of building construction for residential purpose
Block - 9 : particulars of dwelling/land owned elsewhere
Block - 10 : use of public distribution system(pds)
Block - 11 : some general particulars of slum dwellers
Block - 12 : remarks by investigator
Block - 13 : comments by supervisory officer(s)

Data Collection

Data Collection Dates

Start	End	Cycle
1993-01-01	1993-03-31	N/A
1993-04-01	1993-06-30	N/A

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The survey period of six months for this round is divided into two sub-rounds of three months` Equal number of sample villages and blocks were allotted for survey in each of these two sub-rounds. Each village/ block was surveyed during the sub-round period to which it was allotted. Because of the arduous field condition, this restriction not strictly enforced in Andaman & Nicobar Island, Lakshadweep and rural areas of Arunachal Pradesh and Nagaland.

Questionnaires

The questionnaire consisted of 13 blocks as given below :
Block - 0 : descriptive identification of sample household
Block - 1 : identification of sample household
Block - 2 : particulars of field operations
Block - 3 : household characteristics
Block - 4 : demographic and migration particulars of members of household
Block - 5 : building and environment particulars
Block - 6 : particulars of the dwelling
Block - 7 : particulars of living facilities
Block - 8 : particulars of building construction for residential purpose
Block - 9 : particulars of dwelling/land owned elsewhere
Block - 10 : use of public distribution system(pds)
Block - 11 : some general particulars of slum dwellers
Block - 12 : remarks by investigator
Block - 13 : comments by supervisory officer(s)

Valid cases: 119421
Invalid: 0

Description

States have been divided into regions by grouping contiguous districts similar in respect of population density and crop pattern. In Gujarat, however, some districts have been split for the purpose of region formation, considering the location of dry areas and the distribution of tribal population in the state.

n the rural sector, within each region, each districts treated as a separate stratum. However, if the census population of the district is greater than or equal to 1.8 million or 2 million (depending upon whether 1981 or 1991 census frame is used for selection of villages), the district has been split into two or more strata, by grouping contiguous tehsils to form strata. In Gujarat, in the case of districts extending over more than one region, the part of a district falling in each region constitutes a separate stratum.

In the urban sector, strata are formed, again within the NSS region on the basis of the census population size classes of towns. Each city with population 10 lakhs or more is treated as a separate stratum. Further, within each region, the different towns are grouped to form 3 different strata on the basis of their respective census population.

Literal question

Stratum No

Sub-stratum (Sub_stratum)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Description

To net a sufficient number of households living in slums, each stratum in the urban sector is divided into 2 sub-strata as follows. All the UFS blocks of the stratum having area type and the remaining UFS blocks of the stratum constitute sub-stratum 2, "slum area" in the UFS frame constitute sub-stratum 1. No sub-stratification is done in the rural sector.

Literal question

Village/Block Sr. No.(FSU) (FSU)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 5

Valid cases: 119421
Invalid: 0

Description

Village/Block Sr. No.(FSU) (FSU)
File: Block-3-Part-1-household characteristics records

RURAL:The first-stage sampling unit (FSU) , is also the unit of survey in rural areas is the census village. In most of the cases, it is the 1981 census village. It is indicated in the sample list whether the sample FSU is the 1981 census village or some other (i. e. 1991 or 1971) census village
URBAN:The NSS Urban Frame Survey (UFS) block is the unit of survey as well as the first-stage unit for urban areas. Different UFS frames according to the completion of the urban frame survey and the availability of the relevant records have been used for selection of FSUs. For newly declared towns of 1991 census for which UFS frame has not been available for selection the 1991 census Ebs are the units of survey as well as FSUs.

Village/Block Sr. No.(First Stage Unit)

Hamlet Group/Sub-block No. (Sub_block_No)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Description

Large villages and blocks having present population 1200 or more will be divided into a suitable number of hamlet-groups and sub-blocks respectively in a way to have approximately equal population content.

Literal question

Hamlet Group/Sub-block No.

Second-stage stratum no. (Stage2stratum_No)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Description

The households with at lest one out-migrant during the last 5 years (who was formerly a member of the household and currently living) or an immigrant (who is presently a member of the household) but migrated (in or out) for employment or education will constitute second-stage stratum 1 while the remaining households will constitute second-stage stratum 2. 2. For the purpose a person is to be considered immigrant if his/her place of enumeration is different from his/her last usual residence, if any. The usual residence (for the purpose of the survey) is defined as a place (village / town where the person has stayed continuously for a period of six months or more. Similarly , a former member will be considered as out-migrant if he/she is staying elsewhere i. e. in another village / town other than the one under survey.

Informant's relation to head (B1_q16)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Literal question

Informant `s relation to head

Interviewer instructions

Relation of the informant with the head of the household will be recorded in terms of codes.

Response Code (B1_q17)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Literal question

Response Code

Interviewer instructions

This item will be filled-in on the basis of the impression formed by the investigator regarding the overall response of the informant after collecting the required information for all items of blocks 3 to 11.

Survey Code (B1_q18)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Literal question

Survey Code

Interviewer instructions

Entry against this item will be made in terms of codes. Code 1 will be entered if the originally selected household has been surveyed. code-2 will be recorded if instead of the original household, a substitute household has been surveyed. If neither to originally selected household nor a substitute could be surveyed i.e., if the sample household is a casualty, code 3 is to be recorded. In such cases, only blocks 0-2, 12 & 13 will be filled-in and on top of the front page of the schedule, the word `casualty` will be written in block capitals.

Reason for substitution(code) (B1_q19)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Literal question

Reason for substitution of the original household

Interviewer instructions

If the originally selected sample household could not be surveyed, irrespective of whether substituted household could be surveyed or not, the reason, there of will be recorded against this item in terms of codes.

Household Size (B3_q1)
File: Block-3-Part-1-household characteristics records

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0
Range: 1-39

Valid cases: 119421
Invalid: 0
Minimum: 1
Maximum: 39
Mean: 5
Standard deviation: 2.7

Literal question

Household Size

Interviewer instructions

Size refers to the number of normally resident members of the household as listed in block 4. The total number of normally resident members of the household (i.e., the last serial number in column 1 of block 4) will be recorded in a 2 digit formation against this item. Thus `5` will be recorded as `05`.

Land Possessed (Code) (B3_q2)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 119421
Invalid: 0

Literal question

Land Possessed (Code)

Interviewer instructions

Land possessed is given by land owned (including land under `owner like possession) plus land leased in minus land leased out plus land held by the household but neither owned nor leased in (i.e., encroached land). A piece of land is considered to be owned by the household if permanent heritable possession with or without the right to transfer the title is vested in a member or the members of the household. Land held in owner like possession, say, under perpetual lease, hereditary tenure, long term leases for 30 years or more etc., will also be considered as land owned. For a piece of land under the possession of the household, if the household lacks title of ownership and also it does not have lease agreement for the use of land transacted either, verbally or in writing, such land will be considered as "neither owned nor lease-in". In certain tribal areas, land is possessed by an individual tribal in accordance with traditional tribal rights from local chieftains or village council etc. sometimes the tight of ownership is vested in the community. In all such cases the persons possessing or occupying the land will be considered as the owner. In collecting information regarding land possessed, the actual position as obtained on the date of survey will be considered. It may be noted that the " area of land possessed" to be recorded against this item should not include the area of land owned, leased-in etc., by the servant/paying guest who are considered as the normal members of the household. For the purpose of recording the land possessed by the household, the area of the land in hectares is to be considered. Once the area is ascertained the appropriate code for the class intervals in which the area falls is to be recorded against this item. Codes

Monthly Consumer Expenditure (B3_q3)
File: Block-3-Part-1-household characteristics records

Overview	

Type: Continuous
Format: numeric
Width: 5
Decimals: 0
Range: 0-63600

Valid cases: 119421
Invalid: 0
Minimum: 0
Maximum: 63600
Mean: 1339.4
Standard deviation: 1002.2

Literal question

Average monthly consumer expenditure (Rs)

Interviewer instructions

This is the expenditure of a household on domestic consumption and is same as the expenditure covered in the consumer expenditure surveys of NSS. The average monthly consumer expenditure worked out on the basis of the preceding 12 months from the date of survey will be recorded against this item. The expenditure will be entered in whole number in rupees.

Social Group (Code) (B3_q4)
File: Block-3-Part-1-household characteristics records

Overview	

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Literal question

Social Group (Code)

Interviewer instructions

Social group refers to one of the following groups viz, scheduled tribe , schedule caste and others, scheduled caste will also include ` Neo-Buddhists`. The group to which the household members belong will be the one to be considered. If different members of the household claim to belong to different social groups, the social group to which the head of the household belongs will be considered as the social group of the household.
Social group will be recorded in codes

No. of family nuclei (B3_q5)
File: Block-3-Part-1-household characteristics records

Overview	

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-14

Valid cases: 119421
Invalid: 0

Literal question

Number of family nuclei

Interviewer instructions

No. of family nuclei (B3_q5)
File: Block-3-Part-1-household characteristics records

Family nucleus or alternatively nuclear family is the basic family unit consisting of the mother and father with their children. The simplest case is the of a married couple with unmarried children. Each of the following cases will consists of separate family nucleus.
(i) a married couple with or without their unmarried children.
(ii) one parent (i.e, father or mother) living with one or more unmarried children.
Children referred to in (i) & (ii) above may also be widowed, separated or divorced but without any child of their own. If also includes step children and adopted children.
(iii) in the case of a husband having more than one wife (i.e, case of polygamy) the husband and each wife will constitute one Family nucleus and there will be as many family nuclei as the number of wives.
(iv) in the case of one wife living with more than one husband in the household (i. e., case of polyandry) the wife with all her husbands together forms one family nucleus.
(v) in the case of brothers and / or sister(s) who are unmarried, separated, widowed living together, the number of family nuclei is zero.
A single member household does not form a family nucleus. A man and woman living together without formal marriage will be treated as having zero nucleus family. Similarly, friends, cousins etc. staying together will also not constitute a family nucleus. A married couple staying with unmarried friends and relatives etc. will form only one family nucleus. Further a member in a household will be considered only in one family nucleus except in case of polygamy. The number of family nucleus in the household as ascertained following the above concepts will be recorded against this item.

H.H. moved during 365 days (B3_q6)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Literal question

Whether the household moved to the village/town of enumeration during the last 365 days (yes-1, no-2)

Interviewer instructions

This is for recording the information on movement of the sample household. If the entire household, as now being enumerated has moved to the place of enumeration during the last 365 days preceding the date of survey, the same will be considered for recording `yes` against this item. If one member of the household has moved ahead of other members to the present household and others have joined later (but all of them during the reference year) such cases will also be considered for recording `yes`. Where, some members of the household were born or married into households which have moved, during the last year, the entire household is to be treated as moved to the place of enumeration. Within a village or town, shifting or house from one locality to another should not be considered as movement. The entry will be recorded in codes, i.e., 1 for `yes` and 2 for `no`.

Location of last residence (B3_q7)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Pre question

Check code in Q6=1. If 1(yes) proceed

Literal question

Location of last residence (code)

Post question

If code in Q6 other than 1 skip to Q 11

Interviewer instructions

Item 7 to 10 will be filled up only if the household has moved to the place of enumeration during the last 365 days i.e., only if the entry in item 6 is `1`. The type of the place from which the household moved to the place of enumeration is to be recorded here. The location, therefore, refers to whether the place was rural or urban in the same district or state etc.

Nature of movement (B3_q8)
File: Block-3-Part-1-household characteristics records

Overview	
Type: Discrete	Valid cases: 119421
Format: character	Invalid: 0
Width: 1	

Pre question

Check code in Q6=1. If 1(yes) proceed

Literal question

Nature of movement (temporary : seasonal - 1, non-seasonal - 2, permanent - 3)

Post question

If code in Q6 other than 1 skip to Q 11

Interviewer instructions

The movement of the household to the place of enumeration may be only a temporary movement (i. e., the household intends to move again to the original place or another place within six months) or a permanent movement (i. e., the household intends to stay (or has stayed) at the place of enumeration for more than six months). A temporary movement could be a seasonal movement or non-seasonal. This nature of movement will be recorded in code

Reason for movement (code) (B3_q9)
File: Block-3-Part-1-household characteristics records

Overview	
Type: Discrete	Valid cases: 119421
Format: character	Invalid: 0
Width: 2	

Pre question

Check code in Q6=1. If 1(yes) proceed

Literal question

Reason for movement (code)

Post question

If code in Q6 other than 1 skip to Q 11

Interviewer instructions

For each household reported as having moved, the reason for such movement will be ascertained and recorded in codes. While ascertaining the reason, it may be noted that though different members of the household may have differing reasons to record, only that factor which is the basic reason for the decision to shift the household should be considered. This has to be ascertained through proper probings. This reasons for movement categorised with their corresponding codes

Type of structure (code) (B3_q10)
File: Block-3-Part-1-household characteristics records

Overview	
Type: Discrete	Valid cases: 119421
Format: character	Invalid: 0
Width: 1	

Pre question

Check code in Q6=1. If 1(yes) proceed

Literal question

Type of structure where household lived last (pucca-1, semi-pucca-2, serviceable katcha-3, non-serviceable katcha-4, no structura-5).

Post question

If code in Q6 other than 1 skip to Q 11

Interviewer instructions

Type of structure (code) (B3_q10)
File: Block-3-Part-1-household characteristics records

For the household which has moved to the place of enumeration, the type of structure where the household lived before movement to the place of enumeration is to be ascertained. The places and structures where the household had lived as a stop gap measure (period less than six months) before moving to the place of enumeration are to be ignored for the purpose. The type of structure refers to the materials used for different parts of building and is to be identified as per the definitions given earlier for each of the different type of structure viz, pucca, semi pucca, serviceable and non-serviceable katcha. If the household had no structure to live in, it is also to be entered against this item. The relevant code for the various types mentioned above only is to be recorded against this item.

Any former member stayed outside (B3_q11)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119421
Invalid: 0

Literal question

Did any former member of the household leave the household for stay outside the state during the last 5 years (yes : abroad-1, India-2, no : 3)

Interviewer instructions

In order to collect data on out migration to other states in the country, as also emigration to other countries, information regarding the persons who have left the household and gone outside the state where the household is located is to be collected. Code 1 or 2 will be given depending on if any member of the household has taken up residence in another state or gone abroad during the last 5 years. In case no member has left the household code 3 will be given. It is important to note that only those persons who were members of the household at the time and their departure and are presently alive and staying in another state or abroad are to be considered. Any member who had gone abroad during the last five years but returned to the household or to another place within the state will not be considered. Persons gone out for purely temporary purposes for short periods, say, for meetings/conferences of official tours or tourism purpose, participation in games, sports etc. will not be considered. Where more than on former member of the household are staying outside, and one is abroad and the other(s) in India, code 1 may be recorded, ie, person(s) staying abroad getting priority.

No. of former members (B3_q12)
File: Block-3-Part-1-household characteristics records

Overview

Type: Discrete
Format: numeric

File: Block-3-Part-2-Persons--Particulars of past members outside-records

Overview

Type: Discrete	Valid cases: 17292
Format: character	Invalid: 0
Width: 1	

Literal question

Where residing (in abroad-1, Indis-2)?

Interviewer instructions

For each person who is staying outside the state, the place where he/she is now staying (viz , abroad or in India) is to be recorded in this column.

Reason of migration(code) (B3_q12_c5)
File: Block-3-Part-2-Persons--Particulars of past members outside-records

Overview

Type: Discrete	Valid cases: 17292
Format: character	Invalid: 0
Width: 1	

Literal question

Reason for migration (code)

Interviewer instructions

Migration here refers to the movement of the household members to a place outside state. The reason for such movement is to be ascertained for each of the members listed in col.1 of this item and noted in this column. While ascertaining the reasons for migration of persons who have first moved to a state and then to another state of abroad, the following procedure may be adopted. In the case of persons who have moved to state A and then to state B, the reason is to be recorded for the first move. In the case of persons who first moved to state A and then to country C, the reason for moving to country C is to be recorded. In case of persons who moved to country C and then to country D, the reason for going to country C is to be recorded.
Lastly, if a person has moved from country C to state A the reason for moving to state A is to be recorded. The reasons for migration are coded

Period since leaving(years) (B3_q12_c6)
File: Block-3-Part-2-Persons--Particulars of past members outside-records

Overview

Type: Continuous	Valid cases: 17292
Format: numeric	Invalid: 0
Width: 2	Minimum: 0
Decimals: 0	Maximum: 89
Range: 0-89	Mean: 2.3
	Standard deviation: 2.4

Literal question

Period since leaving(years)

Interviewer instructions

The period, since the person has left the household will be recorded in completed years, i.e., period less than 1 year will be entered as `0`, 1 to 2 years will be entered as 1 and so on. However in the case of a person who goes abroad after first staying in another state within the country, then only the period since leaving the country, will be counted. It is also worth nothing that period as obtained in this column will not exceed 5 years.

Expected duration of stay(code) (B3_q12_c7)
File: Block-3-Part-2-Persons--Particulars of past members outside-records

Overview	
Type: Discrete	Valid cases: 17292
Format: character	Invalid: 0
Width: 1	

Pre question

Check if code 0 in q12-col-6. If yes, proceed.

Literal question

Expected duration of stay(code)

Post question

if code greater than 0 in q12-col-6, skip.

Interviewer instructions

In the case of a person who has left the household during the last year, i.e., the period since leaving is '0' year, then the expected duration of stay abroad or in another state including the period already stayed will be noted in this column. This duration will be recorded in codes as follows :

Whether employed (Code) (B3_q12_c8)
File: Block-3-Part-2-Persons--Particulars of past members outside-records

Overview	
Type: Discrete	Valid cases: 17292
Format: character	Invalid: 0
Width: 1	

Literal question

whether employed (yes-1, no-2)?

Interviewer instructions

For each person the fact whether he/she is employed will be noted in the column. Code 1 or 2 will be entered as the case may be.

Whether making remittances (B3_q12_c9)
File: Block-3-Part-2-Persons--Particulars of past members outside-records

Overview	
Type: Discrete	Valid cases: 17292
Format: character	Invalid: 0
Width: 1	

Literal question

whether making remittances (yes-1, no-2)?

Interviewer instructions

Remittance refer to the transfer of money by the persons staying outside to any member of the household more or less on a regular manner. The interval may be say, 1 month, six month or even a year. code 1 or 2 will be entered depending on whether remittances are being received or not.

Valid cases: 596712
Invalid: 0

Literal question

serial no.

Interviewer instructions

Continuous serial numbers are already printed in column 1 of the block. the head of the household will always be entered against the first line, assigning him / her serial number 1. The other members will be assigned the subsequent serial number and listed accordingly. After assigning one serial number to each of the members, the remaining printed numbers are to be crossed out. In case the total number of members exceed the serial number printed, they may be assigned succeeding number consecutively and listed. While listing the members using the serial numbers printed in column 1, certain procedure is to be adopted. As mentioned earlier the head of the household will be listed first, followed by his/her spouse, the first son, first son's wife and children, second son etc. After sons are listed, the daughters will be listed followed by relatives, dependents, resident employees, servants and paying guests etc.

Education Level (code) (B4_q7)
File: Block-4-Persons-Demographic and migration particulars-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 596712
Invalid: 0

Literal question

Educational level (code)

Interviewer instructions

Educational level here refers to only the general education standard of the member of the household. For a person who has attended educational institutions or qualified in educational courses, the standard will be ascertained on the basis of the course successfully completed. Merely having studies up to a level, say BA., will not be enough. He/she should have completed the BA.. course successfully to be treated as graduate. For this column, one will be considered literate if he / she can `read and write a simple sentence in any language. Primary level signifies classes I-IV or I-V as per the local practice. Classes V/VI to VII will be middle. Classes VIII to X will be secondary and XI to XII or equivalent course will be higher secondary. The educational level will be entered in codes

Interviewer instructions

For persons in the age group 5 to 24 years, the information about their attendance in schools is to be collected.

Principal Usual Activity Status code (B4_q9)
File: Block-4-Persons-Demographic and migration particulars-records

Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 596712

Invalid: 0

Literal question

principal usual activity status (code)

Interviewer instructions

The principal usual activity status of a person will be determined on the basis of the various activities pursued by the person during the reference period of 365 days preceding the date of survey adopting a 'relatively long time' (or major time) criterion. The usual activities are grouped into three major categories 'working' 'not working but seeking and / or available for work' and 'neither working nor available for work'. For assigning suitable usual activity status codes to a person, he has to be first assigned one of the above three categories on the basis of the time spent on them during the reference period of 365 days. Only the normal working time available for pursuing any activity and not the 24 hours of each day will be considered for the purpose.

Usual Acty Occupation (NCO code) (B4_q10)
File: Block-4-Persons-Demographic and migration particulars-records

Overview

Type: Discrete

Format: character

Width: 3

Valid cases: 596712

Invalid: 0

Pre question

Check code 1-6 in Q.9. If yes ask.

Literal question

Occupation (NCO`68) for persons with codes 1-6 in col. (9)

Post question

Skip otherwise

Interviewer instructions

Persons who are assigned the broad usual activity as `employed` will be those with any of the codes 1-6 in col.(9). For those persons, the occupations codes as per the National classification of occupations (NCO) of 1968 will be recorded here. These codes will be in three digits.

SubsidiaryActivity Status code (B4_q11)
File: Block-4-Persons-Demographic and migration particulars-records

Bldg location area type (code) (B5_q1)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Literal question

Area type in which building is located

Interviewer instructions

Information on the type of area in which the building housing the sample household is located will be recorded against this item in terms of codes. 4.4.3 To collect this information, part from the informant belonging to the sample household, some knowledgeable persons of the locality may have to be contacted. For a household living under a tree or bridge, in a pipe, or on a footpath without a structure etc.code 1 will be recorded and item 2 to 15 of this block will be left bland.
Some times an area develops into an unauthorised settlement with unauthorised structures put up by `squatters . such an area, if not categorised as a slum area, will be considered as a ` "squatter settlement" and buildings in such an area will get code 2 for item 1. If the building is situated in a slum area, then code 4 will be recorded if the area is declared as a slum by the municipality or other appropriate authorities and otherwise code 3 will be recorded. For all other areas code 5 will be recorded against this item. (for definition of slum area see para 2.0.12.)

Plinth area building (code) (B5_q2)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 2	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

plinth area of the building

Plinth area building (code) (B5_q2)
File: Block-5-Building and environment particulars- Records

Interviewer instructions

`plinth` refers to the construction extending from the top of the foundation to the ground floor level of the building i. e. foundation B base of a building. Plinth area is the total constructed area of the surface on the ground over which the structure is erected. The plinth area of the building will be recorded against this item in terms of codes

Plinth level (code) (B5_q3)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Plinth level

Post question

If Q.1 code is 1 then skip

Interviewer instructions

Plinth level means the constructed ground floor level from the land (at the main entrance of the building) on which the building is constructed. Plinth level of the building will be recorded against this item in codes.
If the ground floor is at the same level as the land on which the house stands, code 1 will be recorded against this item. It may be noted that plinth level of the building is to be recorded, even if the household is residing in a floor higher or lower than the ground floor. If the building consists of more than one structure, plinth level of the building will relate to the main (in the sense of having greater floor area) structure used for residential purpose.

Type of building (code) (B5_q4)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Type of building

Post question

If Q.1 code is 1 then skip

Interviewer instructions

The type of building in respect of the purpose for which it is used will be entered against this item. If the building is wholly residential, code 1 will be recorded. If the building consist only of residential dwelling (s) and factory (s) workshop(s) code 2 will be recorded. If it consists only of residential dwelling(s) and office(s) code 3 will be recorded. On the other hand, if it consists only of residential dwelling(s) and trading establishments, i. e. shops, code 4 will be entered. If the building consists of residential dwelling(s) plus any combination of factory, office or shop, code 5 will be recorded. For all other cases, i. e. cases of buildings with other type of establishments, institutions, code 9 will be recorded.

Type of structure (code) (B5_q5)
File: Block-5-Building and environment particulars- Records

Type of structure (code) (B5_q5)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Type of structure (code)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

If the building consists of more than one structure, type of structure of the building will be determined considering the main structure in the sense of having greater floor area. The relevant codes are : pucca - 1 , semi-pucca - 2 , serviceable katcha - 3 , serviceable unserviceable katcha - 4.

Period since built (code) (B5_q6)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Period since built (code)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

Period since built` will be counted from the time of the first occupation after completion of the building and this information will be entered in terms of codes. Period since built is in respect of the ground floor of the building when the different storeys were built at different times.

Condition of structure (code) (B5_q7)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Condition of structure (code)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

Condition of structure (code) (B5_q7)
File: Block-5-Building and environment particulars- Records

Condition of structure refers to the physical condition of the structure of the building and will be recorded in appropriate code. The codes are : good - 1, satisfactory - 2, bad - 3. The code relevant for the building will be determined as follows :
(i) if the structure does not require any immediate repairs, major of minor it will be regarded as in `good` condition and code 1 will be assigned.
(ii) if the structure requires immediate minor repairs but not major repairs, it will be regarded as in `satisfactory` condition and code `2` will be recorded for such a structure.
(iii) if the structure of the building requires immediate major repairs without which it may be unsafe for habitation or requires to be demolished and rebuilt, it will be regarded as in `bad` condition and code 3 will be recorded for such a building.

Drainage arrangement (code) (B5_q8)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Drainage arrangement (code)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

By drainage / arrangement is meant built up channels for carrying waste water away from the premises of the building to a drainage system, a water flow or a water deposit. Information on the drainage arrangement available to the building will be recorded against this item in codes.

Garbage disposal (Code) (B5_q9)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Garbage disposal (urban)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

In the urban areas, some arrangements usually exist to carry away the refuse and waste of households to some dumping place away from the residential areas. In some places, the public bodies collect the garbage from the premises of the household or from some fixed points in the locality where the residents put their garbage. In some places, a body of residents themselves make the arrangement of carrying the garbage to the dumping place away from residential areas without participation of any public body till the final disposal. Information on the arrangement previailing for the colony / locality of the dwelling unit will be obtained and entered in codes.

Animal shed (code) (B5_q10)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Animal shed (code)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

Information as to whether there is any animal shed in the building or its neighbour hood or not will be recorded against this item in codes.If there is no animal shed within 100 feet of the building (even on the adjacent plots) code 1 will be recorded. If there is an animal shed in the building or attached to the building code 2 will be recorded. If there is an animal shed within 100 feet of the building but not within / attached to it, code 3 will be recorded. The animals and the shed need not be owned or possessed by any household in the building. Animal shed, for the purpose of this survey, is a structure where livestock (cattle, buffalo, horse, goat, pig etc. but not poultry and pets) are sheltered.

Flood risk (code) (B5_q11)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Flood risk

Post question

If Q.1 code is 1 then skip

Interviewer instructions

If rain water during monsoon and / or water from sea, river etc. enters into the building premises i. e. into the ground froor of the building in normal years, the there is a flood risk for the building. To be so classified, water must have entered the grtound floor of the building at least once during the last 5 years. Information about flood risk will be recorded in cods.

Approach road (code) (B5_q12)
File: Block-5-Building and environment particulars- Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Approach road (code)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

Approach road (code) (B5_q12)
File: Block-5-Building and environment particulars- Records

Information as to whether the building has a direct opening to any road or not will be recorded against this item in codes. If from the plot of the building, one can approach a public road / lane / constructed path without passing through another plot, the building is to be regarded as having a direct opening to a road. If , on the other hand, one has to pass through another plot to approach a public road / lane / constructed path, the building is to be regarded as an electrified road if it has lighting provision as on the data of survey. It will be treated as cartable if it is wide enough for a bullock cart to pass through.

Distance from primary school(code) (B5_q13)
File: Block-5-Building and environment particulars- Records

Overview	

Type: Discrete

Format: character

Width: 1

Valid cases: 119403

Invalid: 0

Pre question

Check if Q.1 code is other than 1. If yes ASK

Literal question

Distance from primary school(code)

Post question

If Q.1 code is 1 then skip

Interviewer instructions

The distance of the building from the nearest school having primary classes will be recorded in codes

Distance from hospital(code) (B5_q14)

Dwelling Ownership (B6_q1)
File: Block-6-Particulars of dwelling-Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Literal question

Ownership of the dwelling

Interviewer instructions

Information in respect of the possession type of the dwelling unit will be recorded against this item in codes. Households living more or less regularly , under bridge , in pipe , under staircase , in purely temporary flimsy improvisations built by the road side (which is liable to be removed any moment) etc. are considered to have no dwellings and for such households code 1 will be recorded against this item. If the dwelling unit is owned by the sample household or it has owner - like possession of the dwelling , code - 2 will be recorded. If the accommodation is provided by the employer of a member of the sample household , it will be treated as quarters and code 3 will be given. If the dwelling is taken on rent payable at monthly , quarterly or any other periodic intervals or / on lease , it will be treated as a hired dwelling and code 4 will be recorded. code 9 will be entered in all other types of possession .

Monthly rent (B6_q2)
File: Block-6-Particulars of dwelling-Records

Overview	
Type: Continuous	Valid cases: 119403
Format: numeric	Invalid: 0
Width: 4	Minimum: 0
Decimals: 0	Maximum: 8000
Range: 0-8000	Mean: 37.2
	Standard deviation: 145.1

Pre question

Ask this Question if code is 3 or 4 Q.1

Literal question

If hired monthly rent(Rs)

Post question

Skip otherwise

Interviewer instructions

This item will be filled in for all dwellings with code 3 ro 4 against this item. For other households , a `x` may be put against this item. The actual amount (in whole number of rupees) payable per month by the household will be recorded against this item. If the household is residing in quarters , (i. e. for those with code 3 against item 1) , the amount deducted from the salary of the household member for whom the quarter is allotted on account of rent for the dwelling unit plus the house rent allowance the person might have received if he / she had not been provided the accommodation will be the rent of the dwelling unit. Rent does not include any salami / pugree or any kind of cess payable to local bodies or government or monthly maintenance charges payable to the co-operative society etc.

Residential status landloard (B6_q3)
File: Block-6-Particulars of dwelling-Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Literal question

If code-4 in item 1, Residential status of the landlord

Interviewer instructions

Residential status of the landlord (for those households with code 4 against item 1) will be recorded in codes.

Imputed monthly rent (B6_q4)
File: Block-6-Particulars of dwelling-Records

Overview	
Type: Continuous	Valid cases: 119403
Format: numeric	Invalid: 0
Width: 5	Minimum: 0
Decimals: 0	Maximum: 30000
Range: 0-30000	Mean: 190.2
	Standard deviation: 445

Literal question

If not hired,imputed monthly rent(Rs)

Interviewer instructions

Information on imputed rent for those dwellings which are not hired 9 i. e. for those with codes 2 & 9 in item 1 of this block) will be collected and entered against this item. Imputation will be done on the basis of the prevailing rate of rent for similar accommodation in the locality . for hired dwellings (I . e. for those with codes 3 or 4 in item 1) a `x` will be put against this item. Imputed rent will be recorded in rupees in whole number. Proper probing and local enquiry is essential to ascertain the rent the dwelling unit may fetch at the prevailing market rate.

Separate room for couple (B6_q13)
File: Block-6-Particulars of dwelling-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119403
Invalid: 0

Interviewer instructions

Whether a separate room is available to each married couple : Information as to whether a married couple of the household has a separate room for their use or not is to be ascertaned and recorded against this item in terms of codes. Even if children of age 10 years or below are also using the room along with the couple , it is to be considered as a case of having a separate room for the couple.

Total no. of couples (B6_q14)
File: Block-6-Particulars of dwelling-Records

Overview	
Type: Continuous	Valid cases: 119403
Format: numeric	Invalid: 0
Width: 2	Minimum: 0
Decimals: 0	Maximum: 66
Range: 0-66	Mean: 1
	Standard deviation: 0.9

Interviewer instructions

Total number of married couples in the sample household will be recorded against item 14. For code 3 again item 13 , cross mark `x` will be put against items 14 & 15.

Couples with no separate room (B6_q15)
File: Block-6-Particulars of dwelling-Records

Overview	
Type: Discrete	Valid cases: 119403
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-66	

Interviewer instructions

If code 2 is recorded against item 13 , the number of married couples not getting a separate room will be recorded against item 15. for code 1 against item 13 , the entry against item 15 will be zero.

Kitchen (code) (B6_q16)
File: Block-6-Particulars of dwelling-Records

Overview	
Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

Information about the kitchen facility in the dwelling unit will be recorded in codes. The codes are : no separate kitchen 1,separate kitchen : With out water tap .2, with water tap -3.
If the dwelling unit has a room used exclusively as a kitchen , it will be considered to have a separate kitchen. If such a kitchen has a water tap inside , code 3 will be recorded and code 2 will be recorded otherwise. If a room is used as kitchen-cum-store or kitchen-cum-dining room , then also the household will be considered to have a separate kitchen. In all other cases , code 1 will be recorded. If a room is shared with or without partition (which does not extend up to the ceiling) as kitchen by two or more households code 1 will obviously be the appropriate entry and against this item .

Floor type (code) (B6_q17)
File: Block-6-Particulars of dwelling-Records

Type: Discrete	Valid cases: 119403
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

Floor type (code) (B6_q17)
File: Block-6-Particulars of dwelling-Records

Information on the basic building materials with which the floor , walls and roof of the dwelling unit are constructed will be collected and recorded in codes against items 17 , 18 and 19 respectively.

When the basic building materials used are different for different walls , the materials used for greater portion of wall area of the dwelling will be the wall type. For determining the wall type , only the walls of the dwelling will be considered. Roof / floor type will also be determined , similarly , if the different portions of the roof / floor are made of different building materials. For determining the material of the roof , the material of which the outer roof exposed to the weather (and not the ceiling) is made i. e. tiles , thatch , corrugated iron , zinc or asbestos sheet etc. Will be considered. However , if the roof is mainly made of bricks , stone etc. with a mud , cement or lime plaster exposes to the sky , the material of roof will not be mud , cement , lime etc. and it will be brick , stone etc. which constituted the fabric of the roof. In multi-storeyed buildings , roof will refer to the top floor roof.

The distance to the source of drinking water from the dwelling unit will be ascertained and recorded in codes.

Bathrooms (code) (B7_q5)
File: Block-7-Particulars of living facilities-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119397
Invalid: 0

Interviewer instructions

Information about the bathing facility available in the household premises to the members of the household will be indicated in codes . If the dwelling unit does not have a bathroom in its premises, code 1 will be recorded. on the other hand, if it has a bathroom in its premises but not attached to dwelling unit, code 2 will be recorded. If the dwelling unit has one or more bathrooms attached to the dwelling unit (o. e. with direct access from its rooms, verandah or corridoor) code 3 will be recorded. If the bathroom is in a structure separated from the main building but which also contains rooms used for living purposes, 3 will be the appropriate code. As has been stated earlier, a room used as bedroom, sitting room, reading room, prayer room or dining room will be considered a room used for living purposes. An enclosed area without a roof used for bathing purposes is only a bathing place and not a bathroom for this survey.

	Standard deviation: 4.2

Literal question

Number of households using the latrine (s)

Interviewer instructions

This item is to be filled-in only for these households for which code 2 is entered against item 8. Number of households who normally use the latrine used by the sample household will be recorded here. This number will include the sample household also.

Latrine distance(code) (B7_q11)
File: Block-7-Particulars of living facilities-Records

Overview

Type: Discrete	Valid cases: 119397
Format: character	Invalid: 0
Width: 1	

Literal question

Distance from the latrine used

Interviewer instructions

The distance of the latrine used from the dwelling unit in which the sample household lives will be ascertained and the appropriate distance is to be recorded in codes.

Cooking fuel (code) (B7_q12)
File: Block-7-Particulars of living facilities-Records

Overview

Type: Discrete	Valid cases: 119397
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

The type of cooking fuel used by the household will be recorded against this item in codes.

Lighting (code) (B7_q13)
File: Block-7-Particulars of living facilities-Records

Overview

Lighting (code) (B7_q13)
File: Block-7-Particulars of living facilities-Records

Type: Discrete
Format: character
Width: 1

Valid cases: 119397
Invalid: 0

Interviewer instructions

Information on type of lighting used by the household will be recorded in codes.There may be households which do not burn even oil lamp or firewood to light their dwellings owing to their very poor economic condition. Such households will get code 1. Households using kerosene for lighting their dwellings will get code 2, those using electricity will get code 3 and others, code 9. If a household uses two or more of these lighting means, the code appropriate to the one used for longer duration will be entered.

Electrified ? (B7_q14)
File: Block-7-Particulars of living facilities-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119397
Invalid: 0

Literal question

Whether electrified

Interviewer instructions

Whether the dwelling unit is electrified or not will be indicated in codes. The codes are : yes - 1, no - 2, . It will be considered electrified if there is at least one electric point in the accommodation occupied by the household, no matter, whether the source is a service connection or a generator.

Electric wiring type(code) (B7_q15)
File: Block-7-Particulars of living facilities-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119397
Invalid: 0

Interviewer instructions

Type of electric wiring done in the dwelling unit will be indicated in codes.If the concelling unit is not electrified, put a `x` against item 15. Conduit wiring is conde3aled wiring which is done by taking the electric wires through tubes which are laid inside the plastering of walls. Code 1 will be entered if the electric wiring in the house is mainly of this type. If the wiring is fixed properly to the walls, code 2 will be recorded. If the wiring is just like a temporary arrangement of wires hanging partly free from the walls, code 3 will be recorded. If the dwelling unit is not electrified, put a `x` against item 15.

Bicycle? (B7_q16)
File: Block-7-Particulars of living facilities-Records

Overview

Type: Discrete

Srl No. of construction (B8_q2_Constn_slno)
File: Block-8-Part-1--Particulars of building construction for residential purpose-Records

Overview

Type: Discrete	Valid cases: 17651
Format: character	Invalid: 0
Width: 3	

Literal question

Srl No. of construction

Interviewer instructions

Serial numbers of construction 1 - 5 are already printed.if there was only one construction, column with serial number 1 is to be used. First two columns are to be used when there are 2 constructions and so on.

Type of construction (code) (B8_q3)
File: Block-8-Part-1--Particulars of building construction for residential purpose-Records

Overview

Type: Discrete	Valid cases: 17651
Format: character	Invalid: 0
Width: 1	

Literal question

Type of construction (code)

Interviewer instructions

For construction of an entirely new structure code 1 will be recorded. If extension of existing building results in the increase of floor area, it is to be considered as addition to floor area and code 2 will be recorded for such construction. aNy type of remodelling, renovation or major repair work is to be treated as alteration/improvement/major repair and code 3 will be recorded for such constructions.

Month/year of completion (B8_q4)
File: Block-8-Part-1--Particulars of building construction for residential purpose-Records

Overview

Type: Discrete	Valid cases: 17651
Format: character	Invalid: 0
Width: 4	

Literal question

Month/year of completion

Interviewer instructions

For the fuilding construction completed during the last 5 years, the date of completion will be recorded against this item in a 4-digit formation of which the leftmost 2 digits will indicate the month of the year and the rightmost 2 digits the year of completion. Thus, if the construction was completed in august 1992, the appropriate entry will be `0892`.

Type of structure (code) (B8_q5)
File: Block-8-Part-1--Particulars of building construction for residential purpose-Records

Overview

Type: Discrete	Valid cases: 17651
Format: character	Invalid: 0
Width: 1	

Literal question

Type of structure (code)

Interviewer instructions

The type of structure i. e. whether the structure constructed is pucca, semi-pucca or katcha will be recorded against this item in terms of codes for each construction completed. If a building consists of different types of structures, the determination of its type will be based on the type of structure which covers major floor area.Katcha includes both serviceable katcha and unserviceable katcha.

Floor area(sq,mt) (B8_q6)
File: Block-8-Part-1--Particulars of building construction for residential purpose-Records

Overview

Type: Continuous	Valid cases: 17651
Format: numeric	Invalid: 0
Width: 4	Minimum: 0
Decimals: 0	Maximum: 1800
Range: 0-1800	Mean: 21.7
	Standard deviation: 41.8

Literal question

Floor area(sq,mt)

Interviewer instructions

This item will be filled-in for (i) new building and (ii) also in the case of building where addition to floor space has taken place (for those constructions with codes 1 or 2 against item 3). Floor area refer to the carper area of the building. It includes the area of room, kitchen etc., but excludes uncovered area both inside and outside the structure ; e. g. terrace, stairs, stairways, landing etc.

No. of dwelling units (B8_q7)
File: Block-8-Part-1--Particulars of building construction for residential purpose-Records

Minimum: 0
Maximum: 60006000
Mean: 18615.3
Standard deviation: 454493.1

Literal question

Source of finance: Own source (Rs)

Interviewer instructions

For each construction, the amount spend in actual money terms during the reference period will be recorded in the relevant columns by the sources from where the money was obtained. Eight different sources are already listed and the amount obtained from each source for the construction will be recorded against the different source in whole number of rupees. As item 9 refers to only cash expenditure, the amount recorded against item 9(j) need not agree with the total cost of construction recorded against item 8. While recording the entries against the different sources of finance the following may be kept in mind.
(i) The amount to be recorded against `own source` relates to the savings of the different members of the household for whom the construction has been undertaken and other resources which are not through borrowings, say, gift (cash) etc.
(ii) Amount spent on construction out of the borrowings from co-operative society, co-operative bank etc. will be recorded against `co-operative`.
(iii) All institutions (excluding co-operative societies, co-operative banks etc.) primarily engaged in banking and financing activities, insurance services etc. will be treated as `financial institutions`. Those run by the government, local bodies etc. will be considered as `government financial institutions` and those run by private agencies will be treated as `non-government financial institutions`.
(iv) Persons who lend money on interest will be considered as money-lenders.
(v) Friends and relatives in this particular context are those who lend money free of interest. A friend or relative who charges interest for any loan advanced will be regarded as a money lender.
(vi) In case of final withdrawal from provident fund, for construction, it will be considered as taken from own source, but if money is taken as a loan from provident fund which is to be repaid, it should be considered as borrowing from government or non-government non-financial institution depending on the status of the employer.

Dwelling unit elsewhere (B9_q1)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

Does the household own any dwelling elsewhere?

Interviewer instructions

It is to be ascertained as to whether or not the sample household owns any dwelling unit elsewhere i. e. place (s) other than the place of present stay and the information obtained will be recorded in codes against item 1.

Type of structure (code) (B9_q2)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

Type of structure

Interviewer instructions

If the sample household owns any dwelling elsewhere (i.c. for codes 1, 2, 3 and 4 against item 1), the dwelling elsewhere (i. c., Whether the structure is pucca, semi-pucca, katcha or katcha will be indicated against this item in terms of codes.

Location (code) (B9_q3)

Literal question

Present use

Interviewer instructions

The present use of the dwelling owned by the household elsewhere will be ascertained and recorded against this item in terms of the codes

cultivable land elsewhere? (B9_q5)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

Does the household own any cultivable land elsewhere ?

Interviewer instructions

It is to be ascertained whether the sample household owns any cultivable land elsewhere or not. The information obtained is entered against this item in codes

Plot for house constn? (B9_q6)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

Does the household own a plot for house construction ?

Interviewer instructions

The information as to whether or not the sample household owns a plot for house construction will be ascertained and recorded in codes against item

Planning for house? (B9_q7)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

Does the household plan to construct/acquire a house during the next 2 years ?

Interviewer instructions

If the household on enquiry, reports that it plans to construct/acquire a house during the next two years, for such a household, code 1 will be recorded against this item; otherwise, code 2 will be recorded.

Source of finance (code) (B9_q8)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

If yes in item 7, source of finance

Interviewer instructions

The source of finance for the planned construction/acquisition of the house, (if the household has such a plan, i. e. for code 1 in item 7) will be recorded against this item in codes.

Farm/non-farm business? (B9_q9)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

Did any member of the household participate in farm/non-farm activities elsewhere during the last year ?

Interviewer instructions

it is to be ascertained as to whether or not any member of the household participated in the activities relating to farm or non-farm business elsewhere i.e. , place(s) other than the place of stay and the information reported by the household will be recorded against this item. If the information is in the affirmative code 1; otherwise code 2 will be recorded. Activities relating to industry section `0` will be considered as belonging to `farm` and those relating to industry section 1 - 9 as belonging to `non-farm`.

Period of stay elswehere(code) (B9_q10)
File: Block-9-Particulars of dwelling-land owned elsewhere-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 119264
Invalid: 0

Literal question

If yes in item 9, period of stay elsewhere during the last year

Interviewer instructions

This item will be filled-in for those households with code 1 against item 9. If more than one member of the household stayed elsewhere during the last 365 days in connection with farm/non-farm activities, the period of stay to be reported will relate to the member who stayed elsewhere for the longest period. The period of stay will be recorded in terms of codes.

Literal question

Consumption during last month out of home grown -Quantity

Interviewer instructions

Consumption of any of the six items made out of home grown/produced stock i. e. out of good produced by the household in its own farm or manufacturing establishments during the last 30 days will be recorded. The quantity of an item consumed out of home-grown stock will be recorded in col.(11) and its value will be recorded in col.(12). The value will be imputed at the ex-far/ex-factory price. Produced and brought from village home and consumed in urban residence will also be treated as `home grown` stock. Home produced agricultural production include any produce obtained from cultivation by household or obtained in the form of rent-share of land leased out. It may be noted here that when wheat is grown by the household but consumed in the form of atta. Then consumption of atta (not wheat) out of home grown stock will be considered to have taken place and is to be recorded against ` atta`.
