Overview

ABSTRACT
The National Sample Survey Organisation (NSSO) conducted an integrated survey encompassing various aspects of the socio-economic scenario during July to December 2002. The survey, among others, included the housing condition of all segments of population. Information on the available condition of the structure where the household stays, the amenities available in their houses and details of construction work undertaken by households, were collected in the current survey through household enquiry.

KIND OF DATA
Sample survey data [ssd]

UNITS OF ANALYSIS
Randomly selected households based on sampling procedure and members of the household

Scope

NOTES
The survey on housing condition was aimed to portray several aspects of housing condition. On the one hand, the condition of the residential dwellings with respect to its micro environment like the area where the house was located, plinth area, plinth level, period

since built, condition of the structure, type of ownership, number of rooms, etc., infrastructural facilities like electricity, drinking water, sewerage, drainage, garbage disposal, ventilation, etc. was collected. On the other hand, detailed information on the structure type of the dwelling where the household was residing, constructions and repairs carried out by the households during the last five years including cost and source of finance, and particulars of dwellings and land owned elsewhere by the households inside the country was also collected through the same schedule of enquiry. This apart, data on household characteristics, land possessed, principal industry and occupation of the household, average monthly consumer expenditure of the household, distance to the place of work normally

travelled by any member of the household, possession of some durable goods and some migration related information were also collected.

KEYWORDS
Housing condition, Building, Flood risk, Approach Road, Dwelling, Living facilities, Building construction

Coverage

GEOGRAPHIC COVERAGE

The survey covered whole of the Indian Union except (i) Leh and Kargil districts of Jammu & Kashmir, (ii) villages situated beyond 5 kms. of bus route in the state of Nagaland, and (iii) inaccessible villages of Andaman and Nicobar Islands. Thus the corresponding State/UT level estimates and the all-India results presented in this report are based on the areas falling under the coverage of the survey.

UNIVERSE

The survey used the interview method of data collection from a sample of randomly selected households and members of the household

Sampling

Sampling Procedure

A stratified multi-stage sampling design was adopted for selection of the ultimate sample units. The first-stage units (FSUs) for
the survey were villages (panchayat wards in Kerala) in the rural areas and the Urban Frame Survey (UFS) blocks in urban areas. If an FSU was quite large, it was divided into smaller areas of equal population, called hamlet-groups, and two hamlet-groups were selected at random and merged, demarcating the area to be used for selection of the households - the ultimate stage units. The households were selected at random from the entire FSU, if the FSU was not large, or from the selected hamlet-groups for larger FSUs. A detailed discussion on the sample design and estimation procedure followed in the survey is given as an ATTACHMENT in external resources.

Deviations from Sample Design

There was no deviation from the original sample deviation.

Response Rate

A total of 8338 first stage units, i.e., villages (panchayat wards for Kerala) in the rural and UFS blocks in the urban were selected for this survey, of which 8307 could be surveyed in the central sample. At the all-India level, a total of 97882 households were captured in the surveyed FSUs.

Weighting

Sample weights were calculated and included in each of the data files Variable 'Wgt_SS' refers to Multiplier for each Subsample.
Variable 'Wgt_Combined' refers to Combined Multiplier.

Questionnaires

Overview

Schedule 1.2 consists of 12 blocks including block 0. The blocks are:

Block 0: descriptive identification of sample household
Block 1: identification of sample household
Block 2: particulars of field operation
Block 3: household characteristics
Block 4: particulars of living facilities
Block 5: housing characteristics and micro environment
Block 6: particulars of the dwelling
Block 7: particulars of construction and repair for residential purpose
Block 8: particulars of dwelling / land owned elsewhere within the country
Block 9: some general particulars of slum dwellers
Block 10: remarks by investigator
Block 11: comments by supervisory officer(s)

Data Collection

Data Collection Dates

Start	End	Cycle
2002-07-01	2002-09-30	N/A
2002-10-01	2002-12-31	N/A

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The entire survey period (1st July 2002 - 31st December 2002) was divided into two sub-rounds of three months' duration each
(Sub-round 1: July-September 2002; Sub-round 2: October-December 2002) and an equal number of sample FSUs were allocated to each sub-round. Each FSU was surveyed during the sub-round period to which it was allocated. Within a particular sub-round, the field-work was spread out uniformly over the different months to the extent possible.

Questionnaires

Schedule 1.2 consists of 12 blocks including block 0. The blocks are:

Block 0: descriptive identification of sample household
Block 1: identification of sample household
Block 2: particulars of field operation
Block 3: household characteristics
Block 4: particulars of living facilities
Block 5: housing characteristics and micro environment
Block 6: particulars of the dwelling
Block 7: particulars of construction and repair for residential purpose
Block 8: particulars of dwelling / land owned elsewhere within the country
Block 9: some general particulars of slum dwellers
Block 10: remarks by investigator
Block 11: comments by supervisory officer(s)

Variable List

Block3-records

Content	This dataset of block-3 contains certain characteristics pertaining to the household including number of individuals who moved into or out of the household.
Cases	97882
Variable(s)	44
Structure	Type: relational Keys: Key_hhold(Key to locate Hhold No)
Version	
Producer	NSSO
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V1	Key_hhold	Key to locate Hhold No	discrete	character	
V2	Rnd_Sch	Round-Schedule	discrete	character	
V3	Rec_ID	Record ID(Indicates Block number)	discrete	character	
V4	Sector	Sector code	discrete	character	
V5	Sub_round	Sub-round	discrete	character	Sub-Round
V6	Sub_sample	Sub-sample	discrete	character	Sub-sample
V7	State	State	discrete	character	State code
V8	Region	Region	discrete	character	Region code
V9	District	District	discrete	character	District code
V10	Stratum	Stratum	discrete	character	Stratum no
V11	Sub_stratum	Sub-stratum	discrete	character	Sub-stratum no
V12	FSU	Village/block number	discrete	character	Village/block number (First Stage Unit)
V13	Segment	Segment	discrete	character	Segment no.
V14	Stage2_stratum	Second stage stratum	discrete	character	
V15	Hhold_No	Household No	discrete	character	Sample Household No
V16	B1_q16	Informant's code	discrete	character	informant's relation to head
V17	B1_q17	Response code	discrete	character	Response code
V18	B1_q18	Survey code	discrete	character	Survey code
V19	B1_q19	Reason-substitution	discrete	character	Reason for first substitution of original household
V20	B2_Q2i	Survey date	discrete	character	
V21	B2_q3	Time taken to canvas	discrete	character	
V22	B3_q1	Male (household size)	discrete	numeric	
V23	B3_q2	Female (household size)	contin	numeric	
V24	B3_q3	Household size (total)	contin	numeric	
V25	B3_q4	Gender of head	discrete	character	Gender of the head of household

ID	Name	Label	Type	Format	Question
V26	B3_q5	Social group (code)	discrete	character	Social group (code)
V27	B3_q6	Land possessed (0.00 ha)	contin	numeric	Land possessed (0.00 ha)
V28	B3_q7	NIC code	discrete	character	Principal industry (NIC 1998):
V29	B3_q8	NCO code	discrete	character	Principal occupation (NCO 1968):
V30	B3_q9_MCE	MPCE(Rs)	contin	numeric	Average monthly consumer expenditure (Rs. in whole no.):
V31	B3_q10	Distance place of work(km)	contin	numeric	Distance (in km) to the place of work normally travelled by the principal earner of the household:
V271	B3_q11	Maximum distance(km)	contin	numeric	Maximum distance (in km) to the place of work normally travelled by any member of the household:
V33	B3_q12	Hh moved?	discrete	character	whether the household moved to the village/town of enumeration during the last 365 days?:
V34	B3_q13	Location of last residence	discrete	character	Location of last residence
V35	B3_q14	Natutre of movement	discrete	character	Natutre of movement
V36	B3_q15	Reason for movement	discrete	character	Reason for movement
V37	B3_q16	Type of structure	discrete	character	Type of structure where household lived last:
V38	B3_q17	Members moved into	contin	numeric	No. of members who moved into the household during last 365 days:
V39	B3_q18	Members moved out	contin	numeric	No. of members who moved out of the household during last 365 days:
V40	Wgt_SS	Multiplier Sub sample-wise	contin	numeric	
V41	Wgt_Combined	Multiplier Combined	contin	numeric	
V42	nss	nss (sub-sample-wise ns)	contin	numeric	
V43	nsc	nsc (sub-sample combined ns)	contin	numeric	
V44	WGT_posted	Multiplier Posted	contin	numeric	

Block4-records

Content	Information relating to housing amenities such as drinking water, sanitation, lighting, cooking electricity and electric wiring and possession of some durable goods are the content of this dataset of block-4.

Block7-records

Content	Iinformation in this dataset of block-7 contains particulars of construction undertaken during the last five years by the sample household for residential purpose such as construction of new residential building, construction relating to addition of floor space, alteration, improvement and major repair of the existing residential building. Constructions complete or incomplete as on the date of survey are considered.However, the detailed information collected for the two most recent constructions 'at the present premises of residence of the household as well as the two most recent constructions undertaken 'elsewhere' by the household.

Sector code (Sector)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97882
Format: character	Invalid: 0
Width: 1	

Description

State/UT level sample was allocated between two sectors(Rural,Urban) in proportion to provisional population as per Census 2001 with double weightage to urban sector.

Sub-round (Sub_round)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97882
Format: character	Invalid: 0
Width: 1	

Description

The survey period of six months for this round is divided into two sub-rounds of three months` duration.Equal number of sample villages and blocks have been allotted for survey in each of these two sub-rounds. Each village/ block will be surveyed during the sub-round period to which it has been allotted. Because of the arduous field condition, this restriction need not strictly be enforced in Andaman & Nicobar Island, Lakshadweep and rural areas of Arunachal Pradesh and Nagaland.

Literal question

Literal question

State code

Region (Region)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97882
Format: character	Invalid: 0
Width: 1	

Description

States have been divided into regions by grouping contiguous districts similar in respect of population density and crop pattern. In Gujarat, however, some districts have been split for the purpose of region formation, considering the location of dry areas and the distribution of tribal population in the state. The compositions of the regions are given as an attachment in external resourcesl

District (District)
File: Block3-records

Literal question

District code

Stratum (Stratum)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 97882
Invalid: 0

Description

Rural sector: Two special strata were formed as given below at the State/ UT level on the basis of Population Census 1991 viz.

Stratum 1: all FSUs with population between 0 to 50, and Stratum 2: FSUs with population more than 15,000

The special stratum 1 was formed if at least 50 such FSU's were found in a State/UT. Similarly, special stratum 2 was formed if at least 4 such FSUs were found in a State/UT. Otherwise, such FSUs were merged with the general strata.

From the remaining FSUs (not covered under stratum 1 &2) general strata (hereafter, stratum will refer to general stratum unless otherwise mentioned) was formed and numbered 3, 4, 5 .... etc. (even if no special strata have been formed). Each district of a State/UT was normally treated as a separate stratum. However, if the provisional population of the district was greater than or equal to 2.5 million as per Census 2001, the district was divided into two or more strata with more or less equal population as per population census 1991 by grouping contiguous tehsils. However, in Gujarat, some districts were not wholly included in an NSS region. In such cases, the part of the district falling in an NSS region constituted a separate stratum.

Urban sector: In the urban sector, stratum was formed within each NSS region on the basis of size class of towns as per Census 1991 town population except for towns specified in Table 4. The stratum number and their composition (within each region) are given below:

stratum 1:all towns with population (P) < 0.1 million
stratum 2:all towns with 0.1= P < 0.5 million
stratum 3:all towns with 0.5= P < 1 million
stratum 4,5,6, ... each town with P= 1 million

The stratum numbers was retained as above even if, in some regions, some of the stratum is not formed.

Literal question

Stratum no

Sub-stratum (Sub_stratum)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97882
Invalid: 0

Description

There was no sub-stratification in the rural sector. However, to cover more number of households living in slums, in urban sector each stratum was divided into 2 sub-strata as follows:

sub-stratum 1: all UFS blocks having area type 'slum area'
sub-stratum 2: remaining UFS blocks

If there was one UFS block with area type 'slum area' within a stratum, sub-stratum 1 was not formed; it was merged with sub-stratum 2.

Sub-stratum (Sub_stratum)
File: Block3-records

Literal question

Sub-stratum no

Village/block number (FSU)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 5

Valid cases: 97882
Invalid: 0

Description

Sampling frame for First Stage Unit(FSU)
For the rural sector, the list of Census 1991 villages (panchayat wards for Kerala) and Census 1981 villages for J & K constituted the sampling frame.
For the urban sector, the list of latest available Urban Frame Survey (UFS) blocks was considered as the sampling frame.
Selection of FSUs: FSUs were selected in the form of two independent sub-samples in both the sectors. For special stratum 2 and all the general strata of rural sector, FSUs were selected by probability proportional to size with replacement (PPSWR) where size was the 1991 census population. For urban sector and special stratum 1 of rural sector, FSUs were selected by simple random sampling without replacement (SRSWOR).

Literal question

Village/block number (First Stage Unit)

Segment (Segment)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97882
Invalid: 0

Description

Hamlet-groups / sub-blocks were formed by more or less equalising population. For large urban blocks, the sub-block (sb) having slum dwellers, if any, was selected with probability 1 and was termed as segment 1. However, if there were more than one sb having slum dwellers, the sb having maximum number of slum dwellers was selected as segment 1. After selection of sb for segment 1, one more sb was selected by simple random sampling (SRS) from the remaining sb's of the block and was termed as segment 2. For large blocks (having no slum areas) two sub-blocks were selected by simple random sampling without replacement (SRSWOR) and were combined to form segment 2. For urban blocks without sub-block formation, segment number was 1 or 2 depending on whether the block was having a slum or not. For large villages two hamlet-groups were selected by SRSWOR and were combined to form segment 2. For villages without hamlet-group formation, segment number was also 2. The segments were considered separately for listing and selection of the ultimate-stage units.

Literal question

Segment no.

Second stage stratum (Stage2_stratum)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97882
Invalid: 0

Description

Second stage stratum (Stage2_stratum)
File: Block3-records

In each selected village/block/segment, three and two second stage strata (SSS) were formed for schedule 1.2 and schedule 1.0 respectively on the basis of structure type in rural areas and household MPCE in urban areas.

Household No (Hhold_No)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97882
Format: character	Invalid: 0
Width: 2	

Literal question

Sample Household No

Informant's code (B1_q16)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97870
Format: character	Invalid: 0
Width: 1	

Literal question

informant's relation to head

Interviewer instructions

In this item information about the informant from whom the data are being collected will be recorded.Code 9 will be applicable only in case the selected household is a resident of a 'residential institution for the disabled persons' and the information is provided by the owner / official of the institution.

Response code (B1_q17)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97868
Format: character	Invalid: 0
Width: 1	

Literal question

Response code

Interviewer instructions

This item is to be filled-in after canvassing the schedule. The type of informant, considering his co-operation and capability in providing the required information, will be recorded against this item in terms of specified response codes.

Survey code (B1_q18)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97882
Format: character	Invalid: 0
Width: 1	

Literal question

Survey code (B1_q18)
File: Block3-records

Survey code

Interviewer instructions

Whether the originally selected sample household has been surveyed or a substituted household has been surveyed will be indicated against this item by recording '1' if it is the originally selected sample household, and '2' if it is the substituted one. If neither the originally selected household nor the substituted household can be surveyed i.e., if the sample household is a casualty, code '3' will be recorded. In such cases only blocks 0, 1, 2, 10 and 11 will be filled-in and on the top of the front page of the schedule the word 'CASUALTY' will be written and underlined.

Reason-substitution (B1_q19)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 1654
Invalid: 0

Literal question

Reason for first substitution of original household

Interviewer instructions

For an originally selected sample household which could not be surveyed, irrespective of whether a substituted household could be surveyed or not, the reason for not surveying the original household will be recorded against item 19 in terms of the specified codes.

Survey date (B2_Q2i)
File: Block3-records

Male (household size) (B3_q1)
File: Block3-records

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-22

Valid cases: 95793
Invalid: 2089

Interviewer instructions

The total number of male members of the household will be recorded in items 1.

Female (household size) (B3_q2)
File: Block3-records

Overview	
Type: Continuous	Valid cases: 94367
Format: numeric	Invalid: 3515
Width: 2	Minimum: 0
Decimals: 0	Maximum: 58
Range: 0-58	Mean: 2.5
	Standard deviation: 1.5

Interviewer instructions

The total number of female members of the household will be recorded in 2 respectively.

Household size (total) (B3_q3)
File: Block3-records

Overview	
Type: Continuous	Valid cases: 97882
Format: numeric	Invalid: 0
Width: 2	Minimum: 1
Decimals: 0	Maximum: 59
Range: 1-59	Mean: 5
	Standard deviation: 2.7

Interviewer instructions

The total number of total members of the household will be recorded in item 3,

Gender of head (B3_q4)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97843
Format: character	Invalid: 0
Width: 1	

Literal question

Gender of the head of household

Interviewer instructions

Code 1 will be recorded if the head of household is male and code 2 will be recorded if the head of the household is female.

Social group (code) (B3_q5)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 97882
Format: character	Invalid: 0
Width: 1	

Literal question

Social group (code)

Interviewer instructions

Whether or not the household belongs to scheduled tribe (ST), scheduled caste (SC) or other backward class (OBC) will be indicated against this item in terms of the specified codes. Those who do not come under any one of the first three social groups will be assigned code 9. In case different members belong to different social groups, the group to which the head of the household belongs will be considered as the 'social group' of the household.

Land possessed (0.00 ha) (B3_q6)
File: Block3-records

Overview

Type: Continuous
Format: numeric
Width: 9
Decimals: 2
Range: 0-200011.11

Valid cases: 97541
Invalid: 341
Minimum: 0
Maximum: 200011.1
Mean: 4
Standard deviation: 763.8

Literal question

Land possessed (0.00 ha)

Interviewer instructions

The area of land possessed will include land 'owned', 'leased in' and 'land neither owned nor leased in' (i.e. encroached) by the household but exclude land 'leased out'. For detailed concept relating to "land possessed", see Chapter One. The total land area possessed by the household as on the date of survey will be worked out and recorded in hectares up to two places of decimal.

NIC code (B3_q7)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 5

Valid cases: 92028
Invalid: 0

Literal question

Principal industry (NIC 1998):

Interviewer instructions

The description of the principal household industry will be recorded in the space provided. The entry cell for item 2 has been split into 5 cells for recording each digit separately. The appropriate five-digit industry code of the NIC 1998 will be recorded here. For households deriving income from non-economic activities only, a dash (-) may be put against this item.

NCO code (B3_q8)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 3

Valid cases: 92033
Invalid: 0

Literal question

Principal occupation (NCO 1968):

Interviewer instructions

The description of the principal household occupation will be recorded in the space provided. The appropriate three-digit occupation code of the NCO 1968 is to be recorded in the entry cell which has been trisected for recording each digit separately. For households deriving income from non-economic activities only, a dash (-) may be put against this item.

MPCE(Rs) (B3_q9_MCE)
File: Block3-records

Overview

MPCE(Rs) (B3_q9_MCE)
File: Block3-records

Type: Continuous
Format: numeric
Width: 5
Decimals: 0
Range: 0-60000

Valid cases: 97499
Invalid: 383
Minimum: 0
Maximum: 60000
Mean: 3064.6
Standard deviation: 2326.4

Literal question

Average monthly consumer expenditure (Rs. in whole no.):

Interviewer instructions

This is the expenditure of a household on domestic consumption and is same as the expenditure covered in the consumer expenditure surveys of NSS. The average monthly consumer expenditure worked out on the basis of the preceding 12 months from the date of survey will be recorded against this item. The expenditure will be entered in whole number in rupees.

Distance place of work(km) (B3_q10)
File: Block3-records

Overview

Type: Continuous
Format: numeric
Width: 4
Decimals: 0
Range: 0-6000

Valid cases: 96974
Invalid: 908
Minimum: 0
Maximum: 6000
Mean: 4.9
Standard deviation: 40.8

Literal question

Distance (in km) to the place of work normally travelled by the principal earner of the household:

Interviewer instructions

Principal earner of the household is that person among the household members who had the highest earnings during the 365 days preceding the date of survey from any type of activity, economic or non-economic. One way actual distance (in kilometres and in whole numbers rounded to the nearest integer) from residence to the place of work normally travelled by the principal earner of the household will be recorded here. The reference period for this item is the last 365 days. For persons, whose place of work is not fixed, e.g. hawkers, casual workers, mobile trade, etc., the distance normally travelled from residence to the farthest point of his/her area of operation may be recorded. If the distance to the place of work from residence is less than 0.5 km., '0' may be recorded.

Maximum distance(km) (B3_q11)
File: Block3-records

Overview

Type: Continuous
Format: numeric
Width: 5
Decimals: 0

Valid cases: 95744
Invalid: 2138

Literal question

Maximum distance (in km) to the place of work normally travelled by any member of the household:

Interviewer instructions

The maximum distance (in kilometres and in whole numbers rounded to the nearest integer) to the place of work normally travelled by any member of the household during the last 365 days will be recorded here in whole numbers. The method of ascertaining the distance will be same as mentioned in item 10. If principal earner is the only person in the household to travel to the place of work, entry in item 11 will be same as in item 10.

Hh moved? (B3_q12)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97669
Invalid: 0

Literal question

whether the household moved to the village/town of enumeration during the last 365 days?:

Interviewer instructions

This item is for recording the information on movement of the sample household. If the entire household, as now being enumerated, has moved to the place of enumeration during the last 365 days preceding the date of survey, the same will be considered for recording 'yes' against this item. If one member of the household has moved ahead of other members to the present household and others have joined later (but all of them during the reference year) such cases will also be considered for recording 'yes'. Within a village or town, shifting of house from one locality to another should not be considered as movement. The entry will be 1 if the household has moved to the village/town of enumeration and 2, otherwise.

Location of last residence (B3_q13)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2446
Invalid: 0

Pre question

If Q.12 =1 then Ask

Literal question

Location of last residence

Post question

Skip this question, otherwise.

Interviewer instructions

The type of the place from which the household moved to the place of enumeration is to be recorded here. The location, therefore, refers to whether the place was rural or urban in the same district or state etc.

Natutre of movement (B3_q14)
File: Block3-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2158
Invalid: 0

Pre question

If Q.12 =1 then Ask

Literal question

Natutre of movement

Post question

Skip this question, otherwise.

Interviewer instructions

The movement of the household to the place of enumeration may be only a temporary movement (i.e., the household intends to move again to the original place or another place within six months of coming to the place of listing) or a permanent movement (i.e., the household intends to stay (or has stayed) at the place of enumeration for more than six months). A temporary movement could be a seasonal movement or non-seasonal. The nature of movement will be recorded in codes

Reason for movement (B3_q15)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 2442
Format: character	Invalid: 0
Width: 2	

Pre question

If Q.12 =1 then Ask

Literal question

Reason for movement

Post question

Skip this question, otherwise.

Interviewer instructions

For each household reported as having moved, the reason for such movement will be ascertained and recorded in codes. While ascertaining the reason, it may be noted that though different members of the household may have different reasons to record, only that factor which is the basic reason for the decision to shift the household should be considered. This has to be ascertained through proper probing. The reasons for movement categorised with their corresponding codes

Type of structure (B3_q16)
File: Block3-records

Overview	
Type: Discrete	Valid cases: 2166
Format: character	Invalid: 0
Width: 1	

Pre question

If Q.12 =1 then Ask

Literal question

Type of structure where household lived last:

Post question

Skip this question, otherwise.

Interviewer instructions

For the household which has moved to the place of enumeration, the type of structure where the household lived before movement to the place of enumeration is to be ascertained. The places and structures where the household had lived as a stop-gap measure (period less than six months) before moving to the place of enumeration are to be ignored for the purpose. The type of structure refers to the materials used for different parts of building and is to be identified as per the definitions given earlier for each of the different types of structure viz., pucca, semi-pucca, serviceable katcha and non-serviceable katcha (for definitions, see Chapter One). If the household had no structure to live in, it is also to be entered against this item.

Members moved into (B3_q17)

Literal question

No. of members who moved into the household during last 365 days:

Interviewer instructions

Members moved into (B3_q17)
File: Block3-records

This item is intended to capture the information on the migration of the household members. This will be decided based on the concept of change in the usual place of residence (upr). The usual place of residence here is defined as a place (village or town) where the person has stayed continuously for a period of six months or more. The place of enumeration refers to the place (village / town) where the person is being enumerated or surveyed, i.e., the present place of the residence of the person. This item will record the number of persons of the present household who had a different upr previously (called the last upr). Members of the household who have been staying in the same village or town since their birth will not be considered here. Visits of daughters to their parents place for childbirth or for treatments etc. will not be considered even if it is for more than six months. Female(s) of other village/town married to the member(s) of the household being surveyed during the last 365 days will be included here.

Members moved out (B3_q18)
File: Block3-records

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0
Range: 0-11

Valid cases: 66100
Invalid: 31782

Literal question

No. of members who moved out of the household during last 365 days:

Interviewer instructions

In order to collect data on out-migration (within and outside the country), information regarding the number of persons who have left the household and gone outside the village / town where the household is residing is to be collected. In case no member has left the household "0" will be recorded. It is important to note that only those persons who were members of the household at the time of their departure and are presently alive and staying elsewhere are to be considered. Persons gone out for purely temporary purposes for short periods, say, for meetings / conferences or official tours or tourism purpose, participation in games, sports, etc. will not be considered. Similarly, who have only moved from one locality to another within the same town / village will not be considered.

Source of drinking water (B4_q1)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97841
Format: character	Invalid: 0
Width: 1	

Literal question

Major source of drinking water

Interviewer instructions

Source of drinking water (B4_q1)
File: Block4-records

The information in respect of the household's major source of drinking water will be collected and entered against this item in codes. If an arrangement is made by corporation, municipality, panchayat or other local authorities or any private or public housing estate or agency to supply water through pipe for household uses and if the sample household is availing such facility, then code 1 will be appropriate. Drinking water carried through pipe from sources like well, tank, river etc. by the owner / occupants only for convenience of the household, however, will not be treated as tap water. Instead, such a source will get the code appropriate to the actual source from which water is carried through pipe. The other codes are self-explanatory. If the household gets drinking water from more than one source, the source which is in major use should be its source. In this connection, it may be mentioned that particularly in rural areas, the source of drinking water may be different in different seasons. In such cases, the investigator is to ascertain the household's major source of drinking water and record it considering all the seasons during the last 365 days against this item.

Drinking water availability? (B4_q2)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97873
Format: character	Invalid: 0
Width: 1	

Literal question

Whether availability of drinking water is sufficient throughout the year?

Interviewer instructions

For collecting this information, the investigator will have to depend on the judgement of the informant. The code is 1 for 'yes' and 2 for 'no'.

Facility of drinking water (B4_q3)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97876
Format: character	Invalid: 0
Width: 1	

Literal question

Facility of drinking water

Interviewer instructions

Information as to whether the household's source of drinking water is for its exclusive use or is shared with other households/community will be indicated in codes. If the source is for the exclusive use of the household, code 1 will be recorded. If the source is shared by the household with one or more households in the building, code 2 will be recorded. Similarly, code 2 will be applicable when a few households have a single well, hand pump etc. for their exclusive use. If the source is for community use, i.e., for use of households in two or more buildings in the locality, code 3 will be recorded.

Distance drinking water(code) (B4_q4)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97865
Format: character	Invalid: 0
Width: 1	

Literal question

Distance to the source of drinking water(code)

Interviewer instructions

Distance drinking water(code) (B4_q4)
File: Block4-records

The distance to the source of drinking water from the dwelling unit will be ascertained and recorded in codes.The source of drinking water mentioned here refers to the source recorded in item 1 of this block. If the source of drinking water is within the dwelling unit, code 1 will be recorded. When the source is outside the dwelling but within the building plot of the dwelling unit, code 2 will be recorded. In the other cases i.e., when the source is outside the premises, the distance of the source from the dwelling unit will be ascertained and appropriate distance code will be entered.

Bathroom (B4_q5)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97869
Format: character	Invalid: 0
Width: 1	

Literal question

Bathroom facility?

Interviewer instructions

Information about the bathroom facility available to the members of the household will be indicated against item 5 in codes. If the dwelling unit does not have a bathroom in its premises, code 3 will be recorded. On the other hand, if it has a bathroom in its premises but not attached to dwelling unit, code 2 will be recorded. If the dwelling unit has one or more bathrooms attached to the dwelling unit (i.e. with direct access from its rooms veranda or corridor) code 1 will be recorded. If the bathroom is in a structure separated from the main building which also contains rooms used for living purposes, 1 will be the appropriate code. A room used as bedroom, sitting room, reading room, prayer room or dining room will be considered a room used for living purposes. An enclosed area without a roof used for bathing purposes, or any living room / kitchen used for bathing purpose is not a bathroom for that dwelling.

Distance-bathing place(km) (B4_q6)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97768
Format: character	Invalid: 0
Width: 1	

Literal question

Distance from the bathing place:

Interviewer instructions

The distance of the bathing place from the dwelling unit will be ascertained and entered against this item in codes.If the household members use more than one bathing place the one used by majority of the members will be its bathing place. An enclosed area without a roof used for bathing purposes will also be considered as a bathing place and not as a bathroom.

Latrine (B4_q7)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97866
Format: character	Invalid: 0
Width: 2	

Literal question

Latrine type?

Interviewer instructions

Latrine (B4_q7)
File: Block4-records

The information about the type of latrine used by the household will be recorded in codes. If the household does not have any latrine facility, i.e. its members use open area as latrine, code 11 will be recorded. In a few areas, one may still comes across latrines that are serviced by scavengers. These are called service latrines. A latrine connected to underground sewerage system is called flush system latrine. A latrine connected to underground septic chambers will be considered as a septic tank latrine. A latrine connected to a pit dug in earth is called a pit latrine. If the household uses a latrine of any other type, code 99 will be recorded. The approach for deciding the public / community use, shared etc. is the same as in item 3 of this block

HH-using latrine (B4_q8)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 8724
Format: character	Invalid: 0
Width: 2	

Literal question

Number of households using the latrine(s)

Interviewer instructions

If the household is using shared latrine, then the number of households sharing the latrine is to be ascertained and reported in this item. In case the exact number of households sharing the latrine is not known, approximate number may be recorded after proper probing.

Distance-latrine (B4_q9)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 52826
Format: character	Invalid: 0
Width: 1	

Literal question

Distance to travel for latrine (code):

Interviewer instructions

If the household uses public / community latrine or no latrine, the distance normally travelled for latrine from the dwelling unit in which the sample household lives will be ascertained and the distance recorded in appropriate codes.

Source-cooking (B4_q10)
File: Block4-records

Overview	
Type: Discrete	Valid cases: 97853
Format: character	Invalid: 0

Area type in which the house is located.

Interviewer instructions

Information on the type of area in which the building housing the sample household is located will be recorded against this item in terms of codes.For households in rural areas, codes 4 and 9 will only be applicable.

To collect this information, apart from the informant belonging to the sample household, some knowledgeable persons of the locality may have to be contacted. For a household living under a tree or bridge, in a pipe, or on a footpath without a structure etc. code 4 will be recorded and items 2 to 11 of this block will be left blank.

If the house is situated in a slum area, then code 1 will be recorded if the area is notified as a slum by the municipality or other appropriate authorities, otherwise code 2 will be recorded. Sometimes an area develops into an unauthorised settlement with unauthorised structures put up by "squatters". Such an area, if not categorised as a slum area, will be considered as a "squatter settlement" and houses in such an area will get code 3. For all other areas code 9 will be recorded against this item.

Plinth area(sq.ft) (B5_q2)
File: Block5-records

Overview

Type: Continuous	Valid cases: 97642
Format: numeric	Invalid: 240
Width: 6	Minimum: 0
Decimals: 0	Maximum: 320000
Range: 0-320000	Mean: 648.7
	Standard deviation: 1397.6

Literal question

Plinth area of the house (in square feet):

Interviewer instructions

Plinth refers to the construction extending from the top of the foundation to the ground floor level of the house i.e. foundation base of a building. Plinth area is the total constructed area of the surface on the ground over which the structure is created. The plinth area will be recorded against this item in square feet in whole numbers. In case more than one structure is used by the household, total plinth area of all taken together will be recorded. In case of a multi-storeyed building plinth area will refer to the whole building.

Plinth level(feet) (B5_q3)
File: Block5-records

Overview

Type: Continuous	Valid cases: 97752
Format: numeric	Invalid: 130
Width: 2	Minimum: 0
Decimals: 0	Maximum: 96
Range: 0-96	Mean: 1.1
	Standard deviation: 1.3

Literal question

Plinth level (in feet)

Interviewer instructions

Plinth level means the constructed ground floor level from the land (at the main entrance of the building) on which the building is constructed. If the ground floor is at the same level as the land on which the house stands, it will be considered as having no plinth and '0' will be recorded. It may be noted that plinth level of the building is to be recorded, even if the household is residing in a floor higher or lower than the ground floor. If the building consists of more than one structure, plinth level of the building will relate to the main (in the sense of having greater floor area) structure used for residential purpose. The plinth level will be recorded against this item in feet in whole numbers.

Use of house (B5_q4)
File: Block5-records

Overview

Type: Discrete	Valid cases: 97716
Format: character	Invalid: 0
Width: 1	

Literal question

Use of house

Interviewer instructions

The purpose for which the house is used will be entered against this item. In case of a flat, it will refer to the flat in which the household is residing.

Period since built(code) (B5_q5)
File: Block5-records

Period since built(code) (B5_q5)
File: Block5-records

Overview	
Type: Discrete	Valid cases: 97725
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

Period since built will be counted from the time of the first occupation after completion of the building and this information will be entered in terms of codes..Period since built is in respect of the ground floor of the building when the different stories were built at different times and the household is occupying the whole building. However, if different storeys are occupied by different households, year of construction will relate to the unit where the sample household resides.

Condition of structure (B5_q6)
File: Block5-records

Overview	
Type: Discrete	Valid cases: 97670
Format: character	Invalid: 0
Width: 1	

Literal question

Condition of structure

Interviewer instructions

Condition of structure refers to the physical condition of the structure of the house and will be recorded in appropriate code. The code relevant for the structure will be determined as follows:

(i) if the structure does not require any immediate repairs, major or minor, it will be regarded as in 'good' condition and code 1 will be assigned.

(ii) if the structure requires immediate minor repairs but not major repairs, it will be regarded as in 'satisfactory' condition and code 2 will be recorded for such a structure.

(iii) if the structure of the building requires immediate major repairs without which it may be unsafe for habitation or requires to be demolished and rebuilt, it will be regarded as in 'bad' condition and code 3 will be recorded for such building.

Drainage arrangement (B5_q7)
File: Block5-records

Overview	
Type: Discrete	Valid cases: 97730
Format: character	Invalid: 0
Width: 1	

Literal question

Drainage arrangement

Interviewer instructions

Information on the drainage arrangement available to the house will be recorded against this item in codes. Drainage arrangement means arrangement for carrying off the waste water and liquid waste of the house.

Garbage disposal (B5_q8)
File: Block5-records

Overview
Type: Discrete

Garbage disposal (B5_q8)
File: Block5-records

Type: Discrete
Format: character
Width: 1

Valid cases: 45782
Invalid: 0

Literal question

Garbage disposal (urban only)

Interviewer instructions

This item will be filled in for urban areas only. For fsus belonging to rural area, a '-' may be put against this item. In the urban areas, some arrangements usually exist to carry away the refuse and waste of households to some dumping place away from the residential areas. In some places, the public bodies collect the garbage from the premises of the household or from some fixed points in the locality where the residents put their garbage. In some places, a body of residents themselves make the arrangement of carrying the garbage to the final dumping place away from residential areas without participation of any public body. Information on the arrangement prevailing for the colony / locality of the dwelling unit will be obtained and entered in codes.

Animal shed (B5_q9)
File: Block5-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97709
Invalid: 0

Literal question

Animal shed

Interviewer instructions

Information as to whether there is any animal shed or not in the building or its neighbourhood will be recorded against this item in codes. If there is no animal shed within 100 feet of the house (even on the adjacent plots) code 3 will be recorded. If there is an animal shed in the house or attached to the house code 2 will be recorded. If there is an animal shed within 100 feet of the house but not within / attached to it, code 1 will be recorded. The animals and / or the shed need not be owned or possessed by any household in the house. Animal shed for the purpose of this survey, is a structure where livestock (cattle, buffalo, horse, goat, pig, etc. but not poultry and pets) are sheltered.

Experienced-flood (B5_q10)
File: Block5-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97752
Invalid: 0

Literal question

Whether experienced any flood during last 5 years?

Interviewer instructions

If rain water during monsoon and / or water from sea, river etc. enters into the ground floor of the house, then the house is said to have experienced flood.In case both codes 1 and 2 are applicable, code 2 will be recorded.

6.

Approach road/lane (B5_q11)
File: Block5-records

Overview

Approach road/lane (B5_q11)
File: Block5-records

Type: Discrete
Format: character
Width: 1

Valid cases: 97722
Invalid: 0

Literal question

Approach road / lane / constructed path.

Interviewer instructions

Information as to whether the house has a direct opening to any road or not will be recorded against this item in codes. If from the plot of the house, one can approach a road / lane / constructed path without passing through another plot, the house is to be regarded as having a direct opening to a road. If, on the other hand, one has to pass through another plot to approach a road / lane / constructed path, the house is to be regarded as having no direct opening to a road. A road / lane / constructed path will be treated as having street lights if it has some lighting provision as on the date of survey.

Ownership-dwelling (B6_q1)
File: Block6-records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 97882

Invalid: 0

Interviewer instructions

Information in respect of the ownership of the dwelling unit will be recorded against this item in codes. If the dwelling unit is owned by the sample household or it has owner-like possession of the dwelling, code 1 will be recorded. If the accommodation is provided by the employer of a member of the sample household, it will be treated as quarters and code 2 will be given. If the dwelling is taken on rent payable at monthly, quarterly or any other periodic intervals or on lease, it will be treated as a hired dwelling and code 3 will be recorded. Households living more or less regularly, under bridges, in pipe, under staircase, in purely temporary flimsy improvisations built by the roadside (which are liable to be removed any moment) etc. are considered to have no dwellings and for such households code 4 will be recorded against this item. Code 9 will be entered in all other types of possession.
In case of code 4 in item 1, items 2 to 23 of this block will be left blank.

Monthly rent(Rs) (B6_q2)
File: Block6-records

Overview

Type: Continuous	Valid cases: 15384
Format: numeric	Invalid: 82498
Width: 5	Minimum: 0
Decimals: 0	Maximum: 15000
Range: 0-15000	Mean: 620.1
	Standard deviation: 779.4

Pre question

If code =2 or 3 ask.

Literal question

Monthly rent(Rs)

Post question

if code=2,3,4 in Q.1 skip this question

Interviewer instructions

This item will be filled in for all dwellings with code 2 or 3 against item 1. For other households, a '-' mark may be put against this item. The actual amount (in whole number of Rupees) payable per month by the household will be recorded against this item. If the household has paid some amount initially which is adjusted in the monthly rent, the amount adjusted in each month shall also be included in the monthly rent. If the household is residing in employer's quarters, (i.e. for those with code 2 against item 1), the amount deducted from the salary of the household member for whom the quarter is allotted on account of rent for the dwelling unit plus the house rent allowance the person might have received if he/she had not been provided the accommodation, will be the rent of the dwelling unit. Rent does not include any salami/pugree or any kind of cess payable to local bodies or government or monthly maintenance charges payable to the co-operative society etc.

Year of taking rent (B6_q3)
File: Block6-records

Overview

Type: Continuous	Valid cases: 15381
Format: numeric	Invalid: 82501
Width: 4	Minimum: 0
Decimals: 0	Maximum: 9600
Range: 0-9600	Mean: 1988.7
	Standard deviation: 122.9

Pre question

If code =2 or 3 ask.

Literal question

Year of taking rent

Post question

if code=2,3,4 in Q.1 skip this question

Interviewer instructions

The year when the dwelling was taken on rent is to be recorded against this item. The cell against this item has been divided into four cells for recording four digits of the year, e.g., 1998.

Literal question

Floor area living room(square feet)

Post question

if code=4 in Q.1 skip this question

Interviewer instructions

Information for each of these items is to be recorded in square feet and in whole numbers. The information on inside floor area (carpet area), i.e. the inside area of the floor excluding the area covered by the walls, of all "living rooms" taken together is to be recorded against item 11 and that of "other rooms" will be recorded against item 12. If a room is used without any apportioning for both business and residential purposes and the residential use is not very nominal, the total area of the room will be included for recording the entry. On the other hand, if only a portion of a room is used for residential purposes, only the area of that portion will be included for making the entry. The same procedure will be adopted in case of room being shared with another household. The floor area of the "covered veranda" and that of "uncovered veranda" is to be recorded against items 13 and 14 respectively.

If code not =4 in Q.1 ask

Literal question

If code 2 in item 18, number of married couples not getting a separate room:

Post question

if code=4 in Q.1 skip this question

Interviewer instructions

If code 2 in item 18, number of married couples not getting a separate room is to be recorded against this item.

kitchen type (B6_q20)
File: Block6-records

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-5

Valid cases: 97701
Invalid: 181

Pre question

If code not =4 in Q.1 ask

Literal question

Kitchen type

Post question

if code=4 in Q.1 skip this question

Interviewer instructions

Information about the kitchen facility in the dwelling unit will be recorded in codes.If the dwelling unit has a room used exclusively as a kitchen, it will be considered to have a separate kitchen. If such a kitchen has a water tap inside, code 1 will be recorded and code 2 will be recorded otherwise. If a room is used as kitchen-cum-store or kitchen-cum-dining room, then also the household will be considered to have a separate kitchen. In all other cases, code 3 will be recorded. If a room, with or without partition (which does not extend up to the ceiling), is shared as kitchen by two or more households, code 3 will be the appropriate entry against this item.

Floor type (B6_q21)
File: Block6-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97741
Invalid: 0

Pre question

If code not =4 in Q.1 ask

Literal question

Floor type

Post question

if code=4 in Q.1 skip this question

Interviewer instructions

Information on the basic building materials with which the floor, walls and roof of the dwelling unit are constructed will be collected and recorded in codes against items 21, 22 and 23, respectively. When the basic building materials used are different for different walls, the materials used for major portion of wall area of the dwelling will be the wall type. For determining the wall type, only the walls of the dwelling will be considered. Roof / floor type will also be determined on the basis of the material used for major portion of roof / floor area of the dwelling, if the different portions of the roof / floor are made of different building materials. For determining the material of the roof, the material of which the outer roof exposed to the weather (and not the ceiling) is made i.e. tiles, thatch, corrugated iron, zinc or asbestos sheet etc. will be considered. However, if the roof is mainly made of bricks, tiles, stone etc. with the mud, cement or lime plaster exposed to the sky, the material of roof will not be mud, cement, lime etc. but it will be brick, tile, stone etc. which constituted the fabric of the roof.

Srl no of constrction (B7_q2)
File: Block7-records

Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 40258

Invalid: 0

Srl no of constrction (B7_q2)
File: Block7-records

Literal question

Srl no of two most recent constrctions

Interviewer instructions

Srl. no. 1 and 2 are already printed in column (3) and (4) for recording information about two most recent constructions 'at the present premises' and in column (5), (6) for constructions 'elsewhere'. Each column relates to one construction and information in items 3 to 23 is to be collected for each construction.

No. of constructions initiated (B7_q1)
File: Block7-records

Overview

Type: Continuous
Format: numeric
Width: 1
Decimals: 0

Valid cases: 40258
Invalid: 0

Literal question

Number of constructions initiated during last 5 years

Interviewer instructions

The number of constructions (as defined above) initiated by the sample household for residential purposes during the last 5 years is to be entered against this item.

If entry is '0' in col. (3) or col. (5) of Q.1, Q 2 to 23 under that category will not be filled in.

Type of construction (B7_q3)
File: Block7-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 40258
Invalid: 0

Pre question

Check if Q.1 is not 0 then ask this Question

Literal question

Type of construction

Post question

if Q.1 is 0 skip this question

Interviewer instructions

Against item 2, serial numbers of construction 1 & 2 are already printed. Against item 3, type of construction will be recorded in codes in different columns. If there was one construction 'at the present premises' and one 'elsewhere, columns (3) and (5) with serial number 1 are to be used for recording information for these constructions. All columns are to be used when there are two constructions 'at the present premises' and two 'elsewhere'.
For construction of an entirely new building code 1 will be recorded. If extension of existing building results in the increase of floor area, it is to be considered as addition to floor area and code 2 will be recorded for such construction. Any type of remodelling, renovation or major repair work is to be treated as alteration/improvement/major repair and code 3 will be recorded for such constructions.

Construction completed (B7_q4)
File: Block7-records

Overview

Construction completed (B7_q4)

File: Block7-records

Type: Discrete
Format: character
Width: 1

Valid cases: 21140
Invalid: 0

Pre question

Check if Q.1 is not 0 then ask this Question

Literal question

Whether construction is complete as on the date of survey?:

Post question

if Q.1 is 0 skip this question

Interviewer instructions

A new building construction will be considered as 'completed' if it is considered by its owner as completed and ready for its first occupation. Issuing of 'completion certificate' from any authority will not be a pre-requisite for the building to be considered as 'completed'. In the case of addition, alteration and improvement, a construction will be considered as 'completed' if the owner feels so. If the construction is 'complete' on the date of survey, code 1 will be recorded, otherwise code 2 will be recorded.

mon-year completion (B7_q5)

File: Block7-records

Overview

Type: Discrete
Format: character
Width: 4

Valid cases: 18728
Invalid: 0

Pre question

Check if Q.1 is not 0 then ask this Question

Literal question

Month / year of completion:

Post question

if Q.1 is 0 skip this question

Interviewer instructions

For the construction completed during the last 5 years, the date of completion will be recorded against this item in relevant columns (3) to (6). The entry will be in 4-digit formation of which the leftmost 2 digits will indicate the month of the year and the rightmost 2 digits the year of completion. Thus, if the construction was completed in August 2000, the appropriate entry will be '0800' (08 will be under the cells with MM and 00 under YY).

Pre question

Check if Q.1 is not 0 then ask this Question

Literal question

Cost of construction during last 5 years (Rs.)

Post question

if Q.1 is 0 skip this question

Interviewer instructions

Actual cost incurred for the construction during the last 5 years will be recorded in whole number of rupees against this item in the relevant column(s). The cost of purchase or procurement of only that part of the total materials, labour (household labour will be evaluated at the wage rate prevailing at the time of construction) and services (i.e. expenditure incurred including payment due on account of professional and personal services, municipal and other taxes and fees etc. for construction) hired which have actually been utilised in the construction during the reference period will be considered for making entries. Materials supplied from home will be evaluated at the ex-farm/ex-factory price prevailing at the time of its use. For materials obtained as free collection and used in the construction, only transport charges and the related hired and household labour will be evaluated. Similarly household labour may be evaluated at the prevailing local rates. Household supervision shall not be considered. The total cost will also include the cost of site preparation such as demolition of the existing structure, development of land, etc. However, the value of land on which the construction is made will not be included in the cost to be recorded against this item as also the expenditure incurred on routine repairs and maintenance of the structure such as white washing, painting etc.

Source finance -Own (B7_q10)

Literal question

source of finance of construction during last 5 years : OWN

Post question

if Q.1 is 0 skip this question

Interviewer instructions

Source finance -Own (B7_q10)
File: Block7-records

For each of the two most recent constructions (at the present premises and elsewhere), the amount spent in actual money terms during the reference period will be recorded in the relevant columns by the sources from where the money was obtained. Eight different sources are already listed and the amount obtained from each source for the construction will be recorded against the different source in whole number of rupees. As this item refers to only cash expenditure, the total amount recorded against item 10 to 18 need not agree with the total cost of construction recorded against item 9. While recording the entries against the different sources of finance the following may be kept in mind.

(i) The amount to be recorded against 'own source' relates to the savings of the different members of the household for whom the construction has been undertaken.
(ii) Amount spent on construction out of the borrowings from co-operative society, co-operative bank etc. will be recorded against 'co-operative'.

(iii) All institutions (excluding co-operative societies, co-operative banks etc.) primarily engaged in banking and financing activities, insurance services etc. will be treated as 'financial institutions'. Those run by the government, local bodies etc. will be considered as 'government financial institutions' and those run by private agencies will be treated as 'non-government financial institutions'.

(iv) Persons who lend money on interest will be considered as money lenders.

(v) Friends and relatives in this particular context are those who lend money free of interest. A friend or relative who charges interest for any loan advanced will be regarded as money lender.

(vi) In the case of final withdrawal from provident fund, for construction, it will be considered as taken from own source, but if money is taken as a loan from provident fund which is to be repaid, it should be considered as borrowing from government or non-government non-financial institution depending on the status of the employer.

Cost of construction during last year (Rs)- pucca material

Post question

if Q.1 is 0 skip this question

Interviewer instructions

Expenditure on two most recent constructions (at the present premises and elsewhere) incurred during last year will be recorded against this item with the break up in items 19-20: material-separately pucca and others, item 21: labour and item 22: others. The total expenditure will be recorded against item 23. Expenditure relating to the material and labour purchased, hired or procured but not used in the construction during the last one year will not be taken into account for filling in this item. It may be noted that, service charges, i.e., expenditure incurred (including payments due) on account of professional and personal services, municipal and other taxes and fees if any for construction, rental and hire charges of equipment used for construction will be included with others. All efforts are to be made to give item-wise information in items 19-22. However, in extremely few cases if it is not possible, total amount may be recorded in item 23 and remarks be given in blocks 10/11.

Cost of construction during last year (Rs)-Total cost

Post question

if Q.1 is 0 skip this question

Interviewer instructions

See q.19 for details

Total exp incurred new resdl unit (B7_q24)
File: Block7-records

Overview

Type: Continuous	Valid cases: 40258
Format: numeric	Invalid: 0
Width: 7	Minimum: 0
Decimals: 0	Maximum: 2600000
Range: 0-2600000	Mean: 2288.2
	Standard deviation: 39211.2

Pre question

Check if Q.1 is not 0 then ask this Question

Literal question

Total expenditure incurred for acquiring new residential unit during last 5 years (Rs.):

Post question

if Q.1 is 0 skip this question

Total exp incurred new resdl unit (B7_q24)
File: Block7-records

Interviewer instructions

If the sample household did not carry out the construction itself but made full or part payment during the last 5 years for acquiring or for already acquired readymade new house / flat, the total amount paid for this purpose will be recorded in item 24. It may be noted that the 'new residential unit' means first hand purchase irrespective of the year of purchase and second hand purchase is not to be considered. If the cost of the land is paid separately, then the amount paid for the land will not be considered for recording the total expenditure. But if it cannot be separated, the total would include the cost of the land.

own any dwelling (B8_q1)
File: Block8-records

Overview	
Type: Discrete	Valid cases: 97795
Format: character	Invalid: 0
Width: 1	

Literal question

Does the household own any dwelling elsewhere?

Interviewer instructions

It is to be ascertained whether the sample household owns any dwelling unit elsewhere, i.e., in place(s) other than the place of present stay and the information obtained will be entered in codes against item 1.

Type of structure (B8_q2)
File: Block8-records

Overview

Type: Discrete	Valid cases: 10868
Format: character	Invalid: 0
Width: 1	

Literal question

Type of structure

Interviewer instructions

If the sample household owns any dwelling elsewhere (i.e. for codes 1, 2, 3 or 4 against item 1), the type of structure i.e., whether the structure is pucca, semi-pucca, serviceable katcha or unserviceable katcha will be recorded against this item in terms of codes.
When the household owns dwellings at two or more places (i.e. for code 4 against item 1), the information to be recorded will relate to the best type of structure. This procedure is to be adopted for filling in items 3 and 4 also.

Location (B8_q3)
File: Block8-records

Overview

Type: Discrete	Valid cases: 10830
Format: character	Invalid: 0
Width: 1	

Literal question

If codes 1 to 4 in item 1, location.

Interviewer instructions

The location of the dwelling owned by the household elsewhere will be recorded in terms of codes against this item.

Present use (B8_q4)
File: Block8-records

Overview

Type: Discrete	Valid cases: 10861
Format: character	Invalid: 0
Width: 1	

Literal question

(if codes 1 to 4 in item 1) present use:

Interviewer instructions

The present use of the dwelling owned by the household elsewhere will be ascertained and recorded against this item in terms of the following codes

Own cultivable land (B8_q5)
File: Block8-records

Overview

Type: Discrete	Valid cases: 97739
Format: character	Invalid: 0
Width: 1	

Literal question

Does the household own any cultivable land elsewhere?:

Interviewer instructions

Own cultivable land (B8_q5)
File: Block8-records

As in the case of dwelling(s) owned elsewhere, it is to be ascertained whether the sample household owns any cultivable land elsewhere. The information obtained will be entered against this item in codes

Own plot-residence (B8_q6)
File: Block8-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97790
Invalid: 0

Literal question

Does the household own a plot for residential house construction?:

Interviewer instructions

The information whether the sample household owns a plot for residential house construction will be ascertained and recorded in codes against item 6.

Plan to construct (B8_q7)
File: Block8-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 97733
Invalid: 0

Literal question

Does the household plan to construct / acquire a house during the next 2 years?:

Interviewer instructions

If the household on enquiry, reports that it plans to construct / acquire a house or flat during the next two years, then for such a household, code 1 will be recorded against this item; otherwise, code 2 will be recorded.

Source of finance (B8_q8)
File: Block8-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 3311
Invalid: 0

Literal question

If code 1 in item 7, source of finance

Interviewer instructions

The source of finance for the planned construction / acquisition of the house, (if the household has such a plan, i.e. for code 1 in item 7) will be recorded against this item in codes.

Duration of stay-slum(years) (B9_q1)
File: Block9-records

Overview	
Type: Continuous	Valid cases: 5702
Format: numeric	Invalid: 116
Width: 2	Minimum: 0
Decimals: 0	Maximum: 99
Range: 0-99	Mean: 19.6
	Standard deviation: 15.7

Literal question

Duration of stay in the slum (years)

Interviewer instructions

The information on duration of stay (in years) in the slum is to be ascertained from the sample household and will be entered in whole number. The period of stay in the slum will be recorded in years rounded off to the nearest integer against this item. If the period of stay is less than 6 months, then the entry will be '0'.

Place residing before slum (B9_q2)
File: Block9-records

Overview	
Type: Discrete	Valid cases: 5818
Format: character	Invalid: 0
Width: 1	

Literal question

Place where the household was residing before coming to this slum:

Interviewer instructions

Place where the household was residing before coming to this slum will be recorded against this item in codes. In case the household has been living in the present slum throughout, then the entry will be 1

Type struct. earlier (B9_q3)
File: Block9-records

Overview	
Type: Discrete	Valid cases: 3402
Format: character	Invalid: 0
Width: 1	

Literal question

(if code 1 in item 2) type of structure of the accommodation availed of earlier

Interviewer instructions

The type of structure of the accommodation availed of earlier by those households which were living elsewhere in the same town before moving into the slum will be recorded in codes.

Reason for movement (B9_q4)
File: Block9-records

Overview	
Type: Discrete	Valid cases: 3394
Format: character	Invalid: 0
Width: 1	

Literal question

(if code 1 in item 2) reason for movement to the slum.

Interviewer instructions

The reason for movement to the slum for those households which were living elsewhere in the same town before moving into the slum will be ascertained and indicated in codes.

Possess any documents (B9_q5)
File: Block9-records

Overview	
Type: Discrete	Valid cases: 5701
Format: character	Invalid: 0
Width: 1	

Literal question

Does the head of the household possess any of the documents?:

Interviewer instructions

The information as to whether the head of the household possesses any of the documents will be recorded against this item in terms of codes.

Received any benefit (B9_q6)
File: Block9-records

Overview	
Type: Discrete	Valid cases: 5700
Format: character	Invalid: 0
Width: 1	

Literal question

Whether received any benefit as a slum dweller?:

Interviewer instructions

It is to be ascertained whether the household received any benefit as a slum dweller and the appropriate code relating to the information given is to be recorded against this item.

Tried to move out slum (B9_q7)
File: Block9-records

Overview	
Type: Discrete	Valid cases: 5699
Format: character	Invalid: 0
Width: 1	

Literal question

Whether tried to move out of the slum?:

Interviewer instructions

The informant is to be asked whether or not the household ever tried to shift from the present place to a locality outside the slum. The answer obtained will be entered against this item in terms of codes.

Main reason to move out (B9_q8)
File: Block9-records

Overview	
Type: Discrete	Valid cases: 276
Format: character	Invalid: 0
Width: 1	

Literal question

(if code 1 in item 7) main reason:

Interviewer instructions

If the household has at any time attempted to move out of the slum, the reason thereof will be given in terms of codes.
