Overview

ABSTRACT
An all-India survey on unorganised manufacturing enterprises was carried out by the National Sample Survey Organisation (NSSO) as a part of the 62nd round of National Sample Survey (NSS) during July 2005 – June 2006.

The 62nd round was earmarked for survey on (i) unorganised manufacturing enterprises under the two-digit codes 15 to 37 (Section 'D') of NIC-2004 and enterprises under cotton ginning, cleaning and baling (NIC-2004, code 01405),

This survey covered:

(a) Manufacturing enterprises not registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948

(b) Manufacturing enterprises registered under Section 85 of Factories Act, 1948

(c) Non-ASI enterprises engaged in cotton ginning, cleaning and baling (NIC- 2004, code 01405)

(d) Non-ASI enterprises manufacturing bidi and cigar (those registered under bidi and cigar workers (condition of employment) Act, 1966 as well as those un-registered)

and excluded:

(a) Repairing enterprises not falling under Section 'D' of NIC- 2004

(b) Departmental units such as Railway Workshops, RTC Workshops, Government Mint, Sanitary, Water supply, Gas, Storage, etc. in line with ASI coverage

(c) Units covered under ASI

(d) Public Sector Units

The unorganised manufacturing sector has roughly about one-third share in the total contribution by the manufacturing sector in the GDP. Recognizing the importance of the unorganised manufacturing sector in terms of its share in GDP as well as in total employment, NSS has taken up this subject in many of its rounds.

KIND OF DATA
Census/enumeration data [cen]

Scope

NOTES

The term 'unorganised manufacture' under the coverage of 62nd round basically referred to all manufacturing enterprises, which were not covered by ASI. All government and public sector undertakings were also outside the coverage of the survey. In terms of National Industrial Classification (NIC) 2004 codes, the 62nd round survey on unorganised manufacture covered the NIC 2-digit codes 15-37. In addition, enterprises engaged in cotton ginning, cleaning and baling (NIC 2004 code 01405) were also covered under the survey It is to be noted that only those manufacturing enterprises, which operated for at least 30 days (15 days for seasonal enterprises) during the last 365 days preceding the date of survey, were eligible for survey.

One salient feature of the sample design adopted during the 62nd round was the use of list frame in order to capture sufficient number of relatively 'bigger' manufacturing units under the coverage of the survey. It is quite natural that even within the unorganised manufacturing sector, there are likely to be some very 'big' non-ASI manufacturing units whose contribution to total gross value added is likely to be substantial. Thus, with a view to improving the overall estimate of gross value added per worker, total number of workers, total input, total output, etc., a dual frame approach was considered appropriate for sampling purposes in NSS 62nd round. A list of 8,000 big non-ASI manufacturing enterprises for the urban sector only was prepared as per the data of the census of manufacturing enterprises conducted by Development Commissioner of Small Scale Industries (DCSSI) in 2003. This list served as the list frame. All these units in the list frame were considered for survey without resorting to any sampling. For the coverage of all other unorganised manufacturing enterprises in the universe (i.e. other than 8,000 enterprises featuring in the list frame), an area frame approach was followed for sampling of unorganised anufacturing units in stages. It is worthwhile to mention that this dual frame approach was experimented for the first time in the 62nd round.

3.1 Structure of Schedule 2.2:

Total number of blocks: - 12

Blocks 0 and 1: - identification of the enterprise

Block 2: - Some operational characteristics and background information of the enterprises.

Blocks 3, 3.1, 4 and 4.1:- These blocks of the schedule will be used to record the operating expenses and receipts of the enterprise.

Blocks 3 and 4 will record the principal expenses and receipts whereas blocks 3.1 and 4.1 will record the other expenses and receipts. Care may be taken so that there is no omission or duplication of entries on expenses between blocks 3 and 3.1. Similarly, omission or duplication of recording receipts may be avoided between blocks 4 and 4.1. Schedule 2.2 has been designed in such a way that the different types of receipts and expenses for mixed activity of enterprises can also be accommodated within the framework of blocks 3 and 4. To meet this objective, each of these two blocks has been subdivided into 2 sub-blocks. The first sub-block is meant for specifically recording the manufacturing activity whereas the second sub block is for recording the other activities, if any, including the purchase/ sale of commodities without any transformation. If the enterprise is carrying out mixed activities of two or more types of manufacturing, the data of blocks 3 and 4 will refer to all the manufacturing activities taken together.

Block 5: Calculation of gross value added of the enterprise will be done here. If the value of the receipts in block 4 is collected at ex-factory price, then distributive expenses will not be recorded in this block. In normal situations, gross value added is found as positive. However, if the gross value added arrived at is negative, remarks justifying the reason of the same must be provided.

Blocks 6 and 7: The employment and emolument related particulars of the enterprise would be recorded here.

Blocks 8 and 9: information on fixed assets and outstanding loans of the enterprise would be recorded in these blocks.

The above items of information from any enterprise were collected either from books of accounts of the sample enterprises or through oral enquiry depending upon whether the enterprises maintained books of accounts or not.

Reference Period: The reference period for recording details of various items will depend primarily on whether the enterprise under survey can provide information from their books of accounts, or they can provide information orally.

If the enterprises are providing only oral information, three kinds of reference periods will be used to collect data in different blocks of the schedule, which are reference month, reference year and last date of the reference month.

Reference Month: This period will be used to collect data on various receipts and expenses as well as value added, employment, emoluments, rent and interest payments for the enterprises providing oral information.

Coverage

GEOGRAPHIC COVERAGE

The survey covered the whole of the Indian Union except (i) Leh (Ladakh) and Kargil districts of Jammu & Kashmir, (ii) interior villages of Nagaland situated beyond 5 kilometres of the bus route and (iii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year. All the sample first-stage units of the districts Poonch and Rajouri of Jammu & Kashmir, became casualty and therefore, the districts Poonch and Rajouri of Jammu & Kashmir, are outside the survey coverage. . Thus, the estimates of Jammu and Kashmir and all-India estimates do not include these two districts.

UNIVERSE

The survey used the interview method of data collection

Sampling

Sampling Procedure

Outline of sample design: Two frames were used for the 62nd round survey viz. List frame and Area frame.
List frame: This was used only for urban sector and that too for selection of manufacturing enterprises only. For unorganised manufacturing enterprises, a list of about 8000 big non-ASI manufacturing units in the urban sector prepared on the basis of the data of the census of manufacturing enterprises conducted by Development Commissioners of Small Scale Industries (DCSSI) in 2003 was used as list frame.

The 'big' DCSSI units in the urban sector had been identified by the criteria given below:

(1) From the list of registered SSI units, units not registered under sections 2m(i) or 2m(ii) of Factories Act, 1948 and belonging to NIC '98 codes 01405, 15 - 37 were considered.

(2) Out of the above units, the units whose gross value of output in 2001 were more than 6 times the average output (Rs. 14,32,314) of all urban SSI units were separated out.

(3) From the above units, those with 6 or more workers were identified as the big units for list frame. About 8000 such units constituted the list frame.

All these units in the list frame were to be surveyed and there was not any sampling for list frame. To avoid duplication, these units were excluded from the list of enterprises prepared in the selected urban blocks/villages drawn from the area frame. There was no sub-round restriction for the list frame units.

All the enterprises in the list frame are common to both central and state samples.

Deviations from Sample Design

There was no deviation from the original sample deviation.

Response Rate

Out of 8,000 enterprises selected from the list frame, data could be collected from only 2,260 enterprises Thus a large percentage (72%) of the list frame enterprises became casualties. Among the enterprises which were treated as casualties, the majority (around 70%) actually belonged to the category of "Government/public sector undertaking/ASI units", which were not under the coverage of 62nd round. Another 18% of the enterprises were found to be either non-operative or not traceable.

Weighting

Weights (or multipliers) are given at the end of each record. Wgt_ss is the variable for sub-sample-wise estimates and Wgt_combined for combined sub-sample estimates.

For generating subsample-wise estimates based on data of all subrounds taken together, either Subsample-1 enterpeises or Subsample-2 enterprises are to be considered at one time. Subsample code is available in the data file.

For generating subsample-combined estimates based on data of all subrounds taken together all enterprises are to be considered.

Questionnaires

Overview

For collection of data from sample manufacturing enterprises, Schedule 2.2 was designed. The schedule was organized into 15 blocks. t. The items of information collected through different blocks of the schedule included the following:

Block-2- Particulars of operation and background information of the enterprise
Block-3-Principal operating expenses
Block-3.1- Other operating expenses
Block-4- Principal receipts
Block-4.1 Other receipts
Block-5-Gross value added
Block-6-Employment particulars
Block-7- Compensation to workers
Block-8- Fixed assets owned and hired
Block-9-Loan outstanding

Data Collection

Data Collection Dates

Start	End	Cycle
2005-07-01	2005-09-30	N/A

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The fieldwork of 62nd round of NSSO started from 1st July, 2005 and continued till 30th June, 2006. As usual, the survey period of this round was divided into four sub-rounds, each with a duration of three months, The sub-rounds were as follows:

sub-round 1 : July - September 2005
sub-round 2 : October - December 2005
sub-round 3 : January - March 2006
sub-round 4 : April - June 2006

There was no sub-round restriction for the list frame units.

Questionnaires

For collection of data from sample manufacturing enterprises, Schedule 2.2 was designed. The schedule was organized into 15 blocks. t. The items of information collected through different blocks of the schedule included the following:
Block-2- Particulars of operation and background information of the enterprise
Block-3-Principal operating expenses
Block-3.1- Other operating expenses
Block-4- Principal receipts
Block-4.1 Other receipts
Block-5-Gross value added
Block-6-Employment particulars
Block-7- Compensation to workers
Block-8- Fixed assets owned and hired
Block-9-Loan outstanding

Description

This variable is used as KEY variable

Literal question

Serial number of Enterprise (for List frame only)

Informant Code (B1_q17)
File: Block-1-identification of Sample Enterprise-Establishment-reords

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2260
Invalid: 0

Informant Code (B1_q17)
File: Block-1-identification of Sample Enterprise-Establishment-reords

Interviewer instructions

This item will give information on the type of informant from whom the data are being collected.

Response Code (B1_q18)
File: Block-1-identification of Sample Enterprise-Establishment-reords

Overview

Type: Discrete	Valid cases: 2260
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

The type of informant, considering his co-operation and capability in providing the required information, will be recorded against this item in terms of specified response codes. T

Survey Code (B1_q19)
File: Block-1-identification of Sample Enterprise-Establishment-reords

Overview

Type: Discrete	Valid cases: 2260
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

If the originally selected enterprise is surveyed, code against this item will be 1. If the originally selected enterprise is substituted and the substitute enterprise is surveyed code will be 2. If neither the original nor any substitute could be surveyed, code will be 3. For the enterprises appearing in the list frame, there will not be any substitution. Hence, code 2 will not be applicable for such enterprises.

Substitution Code (B1_q20)

NIC Code 2004-Major Activity (B2_q201)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2260
Format: character	Invalid: 0
Width: 5	

Interviewer instructions

NIC code as per the NIC-2004 may be written at 5-digit level

Nature of Operation (B2_q202)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2259
Format: character	Invalid: 0
Width: 1	

Literal question

Nature of operation of the enterprise during the reference year

Interviewer instructions

An enterprise operating for the major part of a year and manufacturing different seasonal items during different months/seasons of the year will not be considered as a seasonal enterprise, if it does not keep separate accounts for these activities. For example, suppose an OAME manufacturing plastic goods made pichkaris during holi and plastic pitchers during rest of the year. If accounts are not separable, it will be considered as a single perennial enterprise. Again, suppose an OAME manufactured agarbatti during one season, fire-crackers during some other season and woollen clothes during a third season. The accounts for these activities are not separable. As the enterprise has run throughout the year, it will be considered as a perennial enterprise and not a seasonal one. Rice mills, etc. operating for major part of the reference year will be considered as a perennial enterprise and not a seasonal one.

No. of months operated (B2_q203)
File: Block-2-Operation and background information-records

Overview

No. of months operated (B2_q203)
File: Block-2-Operation and background information-records

Type: Continuous
Format: numeric
Width: 2
Decimals: 0
Range: 1-12

Valid cases: 2252
Invalid: 8

Interviewer instructions

The number of months should be given in whole number. Here, month means a continuous block of 30 days, including scheduled holidays.

No. of hours worked-ref year (B2_q204)
File: Block-2-Operation and background information-records

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0
Range: 1-24

Valid cases: 2250
Invalid: 10
Minimum: 1
Maximum: 24
Mean: 8.7
Standard deviation: 2.1

Interviewer instructions

In these items, normal working hours in a day within the reference month/year, including days spent on maintenance of machinery will be reported. In item 204, such working hours may be arrived at by considering all the days during the reference year (for seasonal enterprises, days belonging to operating months only), while for item 205, days within the reference month will be considered to get the required number of hours.

No. of hours worked-ref month (B2_q205)
File: Block-2-Operation and background information-records

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0
Range: 1-24

Valid cases: 2246
Invalid: 14
Minimum: 1
Maximum: 24
Mean: 8.7
Standard deviation: 2.1

Literal question

Number of hours the enterprise normally worked in a day:
Interviewer instructions

As given in B2_q204

Whether pursuing mixed activity? (B2_q206)
File: Block-2-Operation and background information-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2258
Invalid: 0

Interviewer instructions

Code will be 1 for mixed activity and 2 otherwise.

Type of ownership (B2_q207)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2257
Format: character	Invalid: 0
Width: 1	

Pre question

if code in item 207 is any one of the codes 1 to 4. then ask this question

Post question

if code in item 207 is other than the codes 1 to 4 then go to q.213

Any other economic activity? (B2_q208)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 1935
Format: character	Invalid: 0
Width: 1	

Pre question

if code in item 207 is any one of the codes 1 to 4. then ask this question

Literal question

Did the working owner (s) undertake any other economic activity during the reference year:

Post question

if code in item 207 is other than the codes 1 to 4 then go to q.213

Interviewer instructions

If the working owner (s) carried out multiple activities during the reference year, then code in this item will be 1. If the surveyed enterprise was his (their) only source of income throughout the reference year, code will be 2.

major source income? (B2_q209)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 258
Format: character	Invalid: 0
Width: 1	

Pre question

if code in item 207 is any one of the codes 1 to 4 and entry in item 208 being 1 then ask this question

Literal question

Is the present enterprise major source of annual income of the owner:

Post question

if code in item 207 is other than the codes 1 to 4 then go to q.213

Interviewer instructions

Here, the 'owner' will refer to the same person(s) for whom data was collected in item 208. Suppose the owner (or one of the owners) worked as a casual labour in agriculture in addition to the activity of the enterprise during the reference year. If major part of his annual income was derived from this enterprise, then the entry to this item will be 1. Otherwise it will be 2.

% of annual income? (B2_q210)
File: Block-2-Operation and background information-records

Overview	

% of annual income? (B2_q210)
File: Block-2-Operation and background information-records

Type: Discrete
Format: numeric
Width: 2
Decimals: 0

Valid cases: 70
Invalid: 2190

Pre question

if code in item 207 is any one of the codes 1 to 4 and entry in item 208 being 1 then ask this question

Post question

if code in item 207 is other than the codes 1 to 4 then go to q.213

Interviewer instructions

Entry '2' in item 209 means that the owner derives a minor part of his annual income from the surveyed enterprise. This part of annual income of the owner as a percentage of his total annual income will be recorded in item 210.

NIC sect Code 2004-Other imp. Activity (B2_q211)
File: Block-2-Operation and background information-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 73
Invalid: 0

Pre question

if code in item 207 is any one of the codes 1 to 4 and entry in item 208 being 1 then ask this question

Post question

if code in item 207 is other than the codes 1 to 4 then go to q.213

Interviewer instructions

The description of the activity from which the owner derived maximum annual income and corresponding industry-section as per NIC 2004 will be recorded in item 211.

General edu.level of working owner (B2_q212)
File: Block-2-Operation and background information-records

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 1923
Invalid: 0

Pre question

if code in item 207 is any one of the codes 1 to 4. then ask this question

Post question

if code in item 207 is other than the codes 1 to 4 then go to q.213

Interviewer instructions

For the proprietary or partnership enterprises, the educational qualification of the owner should be entered in codes.

Whether accounts maintained? (B2_q213)
File: Block-2-Operation and background information-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2248
Invalid: 0

Interviewer instructions

Whether accounts maintained? (B2_q213)
File: Block-2-Operation and background information-records

3.2.11 Three codes have been provided for this item. If the enterprise maintained books of accounts and information on receipts, expenses, assets, etc. is collected from it, code will be 1. If the enterprise informs that they maintained books of accounts, but provides financial information orally, code will be 2. If the enterprise did not maintain any usable books of accounts, then the code will be 3.

Data collected from date (B2_q214_S)
File: Block-2-Operation and background information-records

Overview

Type: Discrete
Format: character
Width: 6

Valid cases: 2256
Invalid: 0

Literal question

Data of blocks 3 to 7 collected for the period : Start date(ddmmyy)

Interviewer instructions

From the discussion on the reference period, it is clear that if the enterprise is ready to provide information from their books of accounts, data will be collected from it for the entire accounting year, which, in most of the cases will be one year. On the other hand, if the enterprise provides information orally, data on operating expenses, receipts, employment, emoluments, etc. will be collected for a one-month period prior to the date of survey. The actual period for which information from the enterprise is collected will be recorded here.

Data collected to end date (B2_q214_E)
File: Block-2-Operation and background information-records

Source agency for basic inputs (B2_q219)
File: Block-2-Operation and background information-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2260
Invalid: 0

Interviewer instructions

The objective here is to find the nature of forward and backward links of the enterprise with its immediate supplier of basic inputs and immediate purchaser of the goods/ services.
· If there is only one source/ destination agency, it should only be noted in item 219/ 221.
In case the number of source/ destination agencies is more than one, the top two sources/ destinations may be considered in terms of highest purchase/ sale for recording the codes.
Code 6 is applicable for item 219 only.

Width: 1	
Interviewer instructions	

As given in Q-223

Problems-any other (B2_q228)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2248
Format: character	Invalid: 0
Width: 1	
Interviewer instructions	

As given in Q-223.For item 228, provision has been made to record code for one additional problem, which is not included in the list of items from 223 to 227.

Undertake on contract basis? (B2_q229)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2260
Format: character	Invalid: 0
Width: 1	
Literal question	

Did the enterprise undertake any work on contract basis:

Undertake on contract basis? (B2_q229)
File: Block-2-Operation and background information-records

Interviewer instructions

The enterprises in the unorganised sector tend to be small units. In many cases, the enterprises are observed to be working as per the orders from a bigger unit. In such cases, certain conditions are put on the server unit by the contractor or master unit. Conditions may be on the sale of products, may be on the mode of payment or may be on the supply of raw materials, etc. If the surveyed unit does any amount of work under contract, code against this item will be 1. Otherwise, code will be 2.

Type of contract (B2_q230)
File: Block-2-Operation and background information-records

Overview

Type: Discrete	Valid cases: 374
Format: character	Invalid: 0
Width: 1	

Pre question

If an enterprise undertakes work on contract basis (code 1 in item 229), items 230 to 233 will be filled in.

Post question

if code 2 in item 229 skip to q.234

Interviewer instructions

Give appropriate code.

Equipment supplied by (B2_q231)
File: Block-2-Operation and background information-records

Overview

Type: Discrete	Valid cases: 371
Format: character	Invalid: 0
Width: 1	

Post question

if code 2 in item 229 skip to q.234

Interviewer instructions

The same set of three codes is applicable for q-231 and 232

Raw materials supplied by (B2_q232)
File: Block-2-Operation and background information-records

Overview

Type: Discrete	Valid cases: 373
Format: character	Invalid: 0
Width: 1	

Post question

if code 2 in item 229 skip to q.234

Interviewer instructions

As in q-232

Design specified by contractor? (B2_q233)
File: Block-2-Operation and background information-records

Design specified by contractor? (B2_q233)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 373
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

In certain cases the contractor specifies the design of product to the server unit. This is common in garment manufacturing, shoe manufacturing, tailoring, etc. In such situations, code 1 will be recorded. Otherwise, the code will be 2.

Assistance received-code-1 (B2_q234)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2258
Format: character	Invalid: 0
Width: 1	

Literal question

Types of assistance received during the last 5 years (code-1)

Assistance received-code-2 (B2_q235)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 677
Format: character	Invalid: 0
Width: 1	

Literal question

Types of assistance received during the last 5 years (code-2)

Status of the enterprise-las 3 yrs. (B2_q236)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2254
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

The objective of this item is to record the owner's impression about the growth or decline of the enterprise in the recent past (last three years).

Ent. Type during the ref. year (B2_q237)
File: Block-2-Operation and background information-records

Overview	
Type: Discrete	Valid cases: 2260
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

Ent. Type during the ref. year (B2_q237)
File: Block-2-Operation and background information-records

The actual enterprise type on the basis of total number of workers and number of hired workers normally worked during the reference year will be recorded here. If the enterprise normally ran without any hired worker during the reference year (irrespective of whether it had hired workers during the reference month or not) it will be considered as an OAME and the code will be 1. If it normally ran with 1 or more hired workers, code will be 2 or 3 depending upon whether the total number of workers (working owners, hired workers and other workers all taken together) during the reference year was less than 6 or not.

Source of information

Reference period for this block will be a reference month, if the enterprise is providing information orally. It will be the reference year if information is provided from their books of accounts

Interviewer instructions

Items 301 to 306: This sub-block will record the materials consumed in the manufacturing process.
Information in respect of at most five major raw materials (excluding intermediate products) used in the manufacturing process is to be recorded in items 301 - 305 for the reference period. Item 306 will record combined value of the remaining raw materials consumed during the reference period.

Items 311-319 : record commodities purchased or items consumed in respect of trading and other activities A manufacturing enterprise indulges into such an activity due to a variety of reasons. Some enterprises purchase materials required for producing the items manufactured. It simultaneously sells a part of these materials as well. Some enterprises, in addition to manufacturing, purchases and sells some other commodities. To capture these two types of activities separately, two items have been provided in this sub-block, viz. items 311 and 312. Purchase value of all the materials (which the unit can also use for its manufacturing activity) sold in same condition as purchased, termed as 'goods incidental to manufacturing' will be recorded in item 311. The combined value of purchase of the remaining items traded will be reported against item 312. If the enterprise pursues manufacturing activity mixed with some service activity other than trade, (e.g. restaurant), purchase value corresponding to the items consumed for running this service activity will be recorded in item 313.

	Standard deviation: 30041854.7

Interviewer instructions

The valuation of the consumption of material is done in terms of purchase price, which means delivered value including agent's commissions and taxes/ duties paid if any. In case of homegrown raw materials, ex farm price will be considered. Imputation of values for freely collected materials will not be made. However, any labour charge, transportation charges actually incurred will be recorded.

Description

Block 4 will record the principal receipts in two sub-blocks corresponding to which the principal expenses have already been collected in block 3. The items are divided into the sub-blocks activity-wise against which the principal receipts will appear.

Interviewer instructions

Items 401 to 406: products and by-products manufactured.Names of five major products/by-products, ASICC code, unit of quantity, quantity and value of their output will be recorded in columns 2 to 6 against each of the items 401 to 405. For each commodity, the appropriate commodity code is to be taken from ASICC and recorded against items 401 to 405 together with the unit of quantity and quantity produced. If the number of products and by-products exceeds five, the values of remaining products will be added together and the total will be shown against item 406.

Items 411 to 413: opening, closing and change in stock of semi-finished goods: Semi-finished goods are defined as goods, which are yet to be processed to transform into final product.

Items 421 to 424: trading: record commodities sold, opening, closing and change in stock.
Item 431: receipts from other activities: If the manufacturing unit is engaged in any additional activity other than trading, gross receipts from that activity will be recorded in item 431.

Interviewer instructions

The value of finished products and by-products which were produced and made ready for sale/use/free distribution/home consumption and the value of intermediate products, if any, that were produced and made ready for sale during the reference period, will be recorded in whole number of rupees.

The valuation of trading goods sold will be done at sale price. Sale price will include excise duties and other incidental charges associated with sale. But this will be net of discount, rebate or allowances, which are given by the suppliers to the traders, or by the traders to the customers. However, the stock figures will always be at the purchase price.

Interviewer instructions

If some of the items have already been covered under specific activities in block 4, they should not be reported again in block 4.1. There are six items in the block (items 441-446). Item 449 gives the total.

Calculation of gross value added for the reference period : The items 501 and 503 are transfer entries from blocks 3, 3.1, 4 and 4.1 and are mostly self-explanatory.

Interviewer instructions

Item Code (B6_7_c1)
File: Block-6-7-Employment particulars and Compensation to workers-records

Block-6: Calculation of average number of workers

Few common instructions for filling up items 601 to 615

entries may be done first for the females, followed by males.

All the calculations of average worker corresponding to the entries of items 601-616 have to be done according to the method of calculation of average number of workers illustrated in this manual of instructions.

Working owner, hired worker, other workers can be either full-time or part-time according to the definitions given abo

For seasonal and casual enterprises, if figures are collected from books of accounts, average number of workers will be calculated based on number of working months.

Generally, for an enterprise, there will be at least one worker

Items 601, 604, 611, 614: Working owner: In case of proprietary or partnership enterprises, if the owners personally work in the enterprise on a fairly regular basis, then they will be considered as working owner.

For full-time female/male working owner, item 601/ item 611 will be positive.
For part-time female/male working owner, item 604/ item 614 will be positive.

Items 602, 605, 612, 615: Hired worker: A hired worker is a person employed directly or through any agency on payment of regular wage/ salary in cash or kind. Apprentices, paid or unpaid, are to be treated as hired workers. Paid household workers, servants and resident workers of the enterprise are also to be considered as hired workers for the purpose of making entry against this item.

For full-time female/male hired worker, item 602/ item 612 will be positive.
For part-time female/male hired worker, item 605/ item 615 will be positive.

Items 603, 606, 613, 616: Other workers: Information regarding the workers not covered in items mentioned in above two paragraphs shall be recorded against this item. This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers/ helpers who are associated with the activities of the enterprise during the reference period will be considered for recording entries against these items.

For female/ male full-time other workers, Item 603/ item 613 will be positive.
For female/ male part-time other workers, item 606/ item 616 will be positive.

Item 619: Total workers: The entry is the sum of all the entries from items 601 to 616.

Block-7:Compensation to workers
This block is applicable for enterprises where salary/ wages, bonus etc. in cash or kind or both is payable to the individual workers/ working owner (s) during the reference period. Reference period used for this block will be the same as the one used for block 3. There may be other types of payments like canteen facility, health care facility, sports/recreation club facility, etc. which are paid in kind to a group or to all the workers of the enterprise. All these types of payments, whether individual payments or payments made to a group will be recorded in this block. The entries will be in whole number of rupees.
Items 701 and 702: Salary/wages, allowances and other individual benefits (cash & kind): Salaries/ wages payable for the reference period will be recorded first for the working owners and then for the hired workers in these items.
Items 703 and 704: Imputed value of group benefits (including employer's contribution towards canteen, sports, insurance, etc.): This includes expenses (net cost to the enterprise) made by the employer to provide amenities and benefits in kind to workers as a whole, either free of cost or at subsidised rates. It includes:
(i) Provision of canteen, crèches, sports & recreation clubs, dispensary, etc.

Item 709: Total emoluments: Total of items 701 to 704, the total emoluments payable to all the workers for the reference period shall be recorded here.

Interviewer instructions

Columns (3) & (4): Market value of assets as on last date of reference period: Market value of the fixed assets as on last date of reference period separately for owned and hired assets shall be recorded in columns (3) & (4) respectively. Market value means the value that the equipment will fetch in the open market in present condition. However, if an enterprise provides information from its books of accounts, net closing value as per the books may be recorded. Value of hired assets may be ascertained by oral enquiry and incorporated even if it is not available in the books of accounts.

Interviewer instructions

nd is termed as loan. When a loan is granted by a banker/financier to an enterprise, the whole amount is placed at the disposal of the enterprise and interest at an agreed rate is charged thereon from the date of disbursement of the loan. The reference period for amount of loan outstanding will be reference year, while for interest payable, reference period will be the same as one used in blocks 3 to 7. All entries in this block will be made in whole number of rupees.

Loan outstanding-Amount (B9_c3)
