Overview

ABSTRACT
The surveys of unincorporated non-agricultural enterprises conducted by NSSO are the primary source of data on various indicators of economic and operational characteristics of such enterprises in manufacturing, trade and other service sector (excluding construction) at national and state level. These are used for planning, policy formulation, decision support and as an input for funher statistical exercises. by various Government organizations, academicians, researchers and scholars. During 67'n round (July 2010 to June 20ll), NSSO carried out an all-India enterprise survey on economic and operational characteristics of unincorporated non-agricultural enterprises in manufacturing, trade and other service sector (excluding construction).

Objective of the survey: The main objective of the unincorporated non-agricultural enterprise surveys conducted by NSSO was to get estimates of various economic and operational characteristics of unincorporated non-agricultural enterprises in manufacturing, trade and other service sector (excluding construction) at national and State level. The survey was designed to estimate value of key characteristics per enterprise like average no. of workers, fixed assets, outstanding loans, total receipts, total operating expenses and gross value added separately for 'Own Account Enterprises (OAEs)' and 'establishments'. Information on various operational characteristics like ownership, nature of operation, location, status of registration etc., were also collected to have an insight into economic scenario of the unincorporated non-agricultural enterprises in the country. These economic and operational indicators are required for planning, policy and decision making at various levels, both within the government and outside. These aspects of the unorganised enterprise sector are captured in detail in the present NSS survey and estimates are generated.

The enterprises covered in NSS 67th round were divided into three broad industry groups, viz. (i) manufacturing, (ii) trade and (iii) other service sector enterprises. Under the above sectoral coverage, enterprises were categorised into two types, the first type being Own Account Enterprises (OAE) i.e. those enterprises that do not employ hired workers on a fairly regular basis in the reference year and the second type being Establishments employing at least one hired

worker on a fairly regular basis in the reference year. The eligibility criteria for an enterprise to be covered in the survey was at least 30 days of operation (15 days of operation for seasonal enterprises / SHGs) in the reference year i.e. "last 365 days preceding the date of survey".

KIND OF DATA
Sample survey data [ssd]

UNITS OF ANALYSIS
Randomly selected enterprises based on sampling procedure

Scope

NOTES

The coverage of NSS 67th round (July 2010 – June 2011) was non-agricultural unincorporated enterprises belonging to three sectors viz., Manufacturing, Trade and Other Services. The survey considered the following broad categories of enterprises:

(a) Manufacturing enterprises excluding those registered under Sections 2m (i) and 2m (ii)

of the Factories Act, 1948.

(b) Manufacturing enterprises registered under Section 85 of Factories Act, 1948.

(c) Enterprises engaged in cotton ginning, cleaning and baling (code 01632 of NIC- 2008) excluding those registered under Factories Act.

(d) Enterprises manufacturing bidi and cigar excluding those registered under bidi and cigar workers (condition of employment) Act, 1966.

(e) Trading enterprises.

(f) Other Service sector enterprises excluding construction.

The Ownership categories of enterprises under coverage in (a) to (f) above was

(a) Proprietary and partnership enterprises.

(b) Trusts, Self-help groups (SHGs), Non-Profit Institutions (NPIs), etc.

And the following ownership categories of enterprises were excluded from the coverage of the

survey:

(a) Enterprises which are incorporated i.e. registered under Companies Act, 1956.

(b) Government and public sector enterprises.

(c) Cooperatives.

Structure of the schedule: NSS 67th round enterprise survey covered diverse domain of non-agricultural activities. The detailed enquiry schedule was structured accordingly. Schedule 2.34 consisted of 17 blocks (blocks 0 to 16). Blocks 0 and 1 were meant to record identification details of the enterprise; Blocks 14, 15 and 16 were for reporting particulars of field operation, remarks by the investigator and comments by the supervisory officers. In the remaining 13 blocks, data collected from the enterprises.

Some operational characteristics of the enterprises were collected in block 2. Block 2.1 used to record the different activities pursued by the enterprise.

Blocks 3, 4 and 5, 6 were the main blocks of the schedule where operating expenses and various receipts of the enterprises were recorded. Blocks 3 and 5 recorded the principal expenses and receipts whereas blocks 4 and 6 recorded the other expenses and other receipts.

Schedule 2.34 was designed in such a way that the different types of receipts and expenses for different types of enterprises were accommodated within the framework of blocks 3 to 6. To meet this objective and facilitate reporting of activity-specific items of principal operating expenses and principal receipts, two blocks namely, blocks 3 and 5 were subdivided into 11 sub-blocks. While these sub-blocks were meant for specific types of enterprise, blocks 4 and 6 were common for all enterprises. It may be noted that for an enterprise which ran a mixed activity, more than one of the sub-blocks of blocks 3 & 5 may had entries and this was in consonance with the activities recorded in block 2.1.

Block 7 was kept for calculation of gross value added.

The employment particulars of the enterprises were recorded in block 8.

Blocks 9, 10 and 11 were meant to collect information on emoluments, fixed assets and loan position of the enterprises respectively. The factor incomes of the enterprise were recorded in block 12. It may be noted that from this block also, value added could be generated. So, blocks 7 and 12 together provided an added check in the schedule for assessing the

consistency of the data.

Block 13 was introduced to collect data on use of information and communication technology (ICT) by the enterprises.

Coverage

GEOGRAPHIC COVERAGE
The survey coverd the whole of the Indian Union except (i) interior villages of Nagaland situated beyond five kilometres of the bus route and (ii) villages in

Andaman and Nicobar Islands which remained inaccessible throughout the year. Leh (Ladakh) and Kargil districts of Jammu & Kashmir did not have any separate sample first-stage units (FSUs) for „central sample?. For these two districts, sample FSUs drawn as „state sample? was considered as central sample.

UNIVERSE
The survey used the interview method of data collection from a sample of randomly selected enterprises

Sampling

Sampling Procedure

Outline of sample design: A stratified multi-stage design had been adopted for the 67th round survey. The first stage units (FSU) were the census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) were enterprises in both the sectors. In case of large FSUs, one intermediate stage of sampling was done by the selection of three hamlet-groups (hgs)/ sub-blocks (sbs) from each large rural/ urban FSU.

Sampling frame: Census 2001 list of villages were used as the sampling frame for rural areas. Auxiliary information such as number of enterprises, number of workers, type of enterprises, activities of enterprises, etc. available from EC-2005 frame were used for stratification, sub-stratification and selection of enterprises. In Kerala, list of panchayat wards as per Census 2001 were used as frame since list of such wards is not available as per EC 2005
frame. In the urban sector, EC-2005 frame was used for 26 cities with population more than a million as per census 2001. Although Mumbai is a million plus city, EC-2005 frame was not used for Mumbai because of identification problem for IV unit/blocks in the EC for the city. For other cities/towns (including Mumbai), UFS frame (2002-07 phase or latest available phase prior to 2002-07 if it was not available) was used.

The sample design and estimation procedure used for the survey is attached as a document in external resources.

Deviations from Sample Design

There was no deviation from the original sample deviation.

Response Rate

Out of the total number of 16000 FSUs (8380 villages and 7620 urban blocks) allotted for the central sample, 15898 FSUs (8296 villages and 7602 urban blocks) could be surveyed at the all-India level for canvassing Schedule 2.34. The total number of enterprises surveyed was 334474 (162375 in rural areas and 172099 in urban areas).

Weighting

For generating any estimate, one has to extract relevant portion of the data, and aggregate after applying the weights.

Weights (or multipliers) VARIABLES are given at the end of record of each dataset. The weights (multipliers) are WGT_SS for Sub-sample-wise estimation and WGT_Combined for combined subsample estimates.

All records of an enterprise will have same weight figure. In case of those Blocks/Levels, where Item/Person Sl.No. is not applicable the field is filled up with 00000.

.

Questionnaires

Overview

NSS 67th round enterprise survey will be covering diverse domain of non-agricultural activities. The detailed enquiry schedule is structured accordingly. Schedule 2.34 consists of 17 blocks (blocks 0 to 16). Blocks 0 and 1 are meant to record identification details of the enterprise; Blocks 14, 15 and 16 are for reporting particulars of field operation, remarks by the investigator and comments by the supervisory officers. In the remaining 13 blocks, data are to be collected from the enterprises.

Blocks 0 and 1: Identification of sample enterprise
Block 2: Particulars of operation and background information
Block 2.1 - Activities pursued by the enterprise during last 30 days/ last calendar month
Block 3 - Principal operating expenses during last 30 days/ last calendar month
Block 4 - Other operating expenses during last 30 days/ last calendar month
Block 5: Principal receipts during last 30 days/ last calendar month
Block 6: other receipts during last 30 days/ last calendar month
Block 7: calculation of gross value added during last 30 days/ last calendar month
Block 8: employment particulars of the enterprise during last 30 days
Block 9: compensation to workers during last 30 days last calendar month
Block 10:fixed assets owned and hired as on the last date of reference year
Block 11:loan outstanding as on the last date of the reference year
Block 12:factor incomes of the enterprise during last 30 days last calendar month
Block 13: particulars of use of information and communication technology (ICT) by the enterprise during last 365 days
Block 14: particulars of field operations

Data Collection

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The survey period of one year was divided into four sub-rounds of three months duration.

In each of these four sub-rounds equal number of sample first stage units (FSUs) i.e. villages/ blocks were allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Every attempt was made to survey each of the FSUs during the sub-round to which it was allotted. Because of the arduous field conditions, this restriction was not strictly enforced in Andaman and Nicobar Islands, Lakshadweep and rural areas of Arunachal Pradesh and Nagaland.

Questionnaires

NSS 67th round enterprise survey will be covering diverse domain of non-agricultural activities. The detailed enquiry schedule is structured accordingly. Schedule 2.34 consists of 17 blocks (blocks 0 to 16). Blocks 0 and 1 are meant to record identification details of the enterprise; Blocks 14, 15 and 16 are for reporting particulars of field operation, remarks by the investigator and comments by the supervisory officers. In the remaining 13 blocks, data are to be collected from the enterprises.

Blocks 0 and 1: Identification of sample enterprise
Block 2: Particulars of operation and background information

Interviewer instructions

This item will give information on the type of informant from whom the data are being collected.

Survey Code (B1_q18)
File: Block-1-Identification of sample enterprise-Records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 334474
Invalid: 0

Interviewer instructions

If the original enterprise is surveyed, code against this item will be 1. If the original enterprise could not be surveyed for some reason or other and some substitute enterprise had to be surveyed, code will be 2. If the substitute enterprise also could not be surveyed, code will be 3. In such cases, only blocks 0, 1, 14, 15 and 16 are to be filled in and the word 'CASUALTY' may be written on the top of the schedule.

Substitution Code (B1_q19)
File: Block-1-Identification of sample enterprise-Records

Overview	

Type: Discrete	Valid cases: 4721
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

This item will be filled in for substitute enterprise only. For survey code 1 (original enterprise surveyed), this item will remain blank. If the enterprise is substituted more than once, the code for first substitution will be recorded.

NIC Code 2008-Minor Activity (B2_q203)
File: Block-2-particulars of operation and background information of enterprises-records

Overview

Type: Discrete
Format: character
Width: 5

Valid cases: 11425
Invalid: 0

Interviewer instructions

Principal minor activity code (5-digited as per NIC 2008): This is applicable for enterprises pursuing mixed activity. If the enterprise pursues more than activity, major activity will be recorded in item 202 and minor activity as per the 2008 classification at 5-digit level will be recorded in item 203. If the enterprise pursues more than two activities, principal minor activity code will be recorded here. Care should be taken that first two digits of item 203 are different from that of item 202.

Type of ownership (B2_q204)
File: Block-2-particulars of operation and background information of enterprises-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 334473
Invalid: 0

Interviewer instructions

Type of ownership (B2_q204)
File: Block-2-particulars of operation and background information of enterprises-records

Proprietary enterprises are those where an individual is the sole owner of the enterprise. If the owner is a male, code will be 1; for a female owner, code will be 2. Partnership is defined as the 'relation between persons who have agreed to share the profits of a business carried on by all or any one of them acting for all'. Partners may be from the same household or they may be from different households. In the former case, ownership code will be 3 and in the case of the latter, code will be 4. Partnership may be based either on formal registration or on the basis of tacit understanding.. If ownership is with a Hindu Undivided Family (HUF), the treatment will be the same as proprietary enterprises, i.e., if the head of HUF is a male, code will be 1; for a female head, code will be 2. Code 5 will be recorded for self-help group and code 6 for trust. All other types of enterprises under survey coverage will get code 9. It is to be noted that enterprises registered under Factories Act, 1948 will be outside the coverage.

Whether private non-profit institution? (B2_q205)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 334474
Format: character	Invalid: 0
Width: 1	

Description

Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but the units that establish, control or finance them cannot appropriate surpluses. The articles of association by which they are established are drawn up in such a way that the institutional units which control or manage them are not entitled to a share in any profits or other income which the NPI's receive. For this reason, they are frequently exempted from various kinds of taxes.

Interviewer instructions

If the enterprise under survey is a private NPI, code 1 will be recorded; otherwise code 2 will be recorded.

Whether NPISH (B2_q206)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 1883
Format: character	Invalid: 0
Width: 1	

Description

NPISHs are necessarily non-government non-market NPIs. Non-market producers are producers that provide most of their output to others free or at prices which are not economically significant, i.e., at prices which do not have a significant influence on the amounts the producers are willing to supply or on the amounts purchasers wish to buy. NPISHs provide non-market good and services to households financed mainly by transfers from non-governmental sources - households, corporations or non-residents.

Literal question

Whether private non-profit institution serving households (NPISH)

Interviewer instructions

Code 1 or 2 may be recorded against this item depending upon whether the enterprise is an NPISH or not.

Social group of owner (B2_q207)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 327792
Format: character	Invalid: 0
Width: 1	

Literal question

Social group of the working owner/major partner

Interviewer instructions

For the proprietary or partnership enterprises, the social group of the working owner/major partner should be entered through codes:

no. of economic activities undertaken? (B2_q208)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Continuous	Valid cases: 327792
Format: numeric	Invalid: 6682
Width: 2	
Decimals: 0	

Interviewer instructions

Since many of the enterprises in the informal sector are very small, due to necessity or otherwise, the phenomenon of carrying out multiple activities simultaneously or at different points of time by the entrepreneurs may be quite prevalent. The number of such activities other than the major activity of the current enterprise is to be recorded. It may be noted that the owner need not operate his other activities from the present location.

Location of enterprise (B2_q209)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 334464
Format: character	Invalid: 0
Width: 1	

Enterprise Type during last 365 days (B2_q210)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 334474
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

The actual enterprise type on the basis of total number of workers and number of hired workers normally worked during the last 365 days will be recorded here. If the enterprise normally ran without any hired worker during the last 365 days (irrespective of whether it had hired workers during the reference month or not) it will be considered as an OAE and the code will be '1'. If it normally ran with 1 or more hired workers (irrespective of whether it ran without any hired workers during the reference month or not), it will be considered as establishment and the code will be '2'

Year of initial operation (B2_q211)
File: Block-2-particulars of operation and background information of enterprises-records

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 1710-9999

Valid cases: 334439
Invalid: 35

Interviewer instructions

The year from which the enterprise commenced its operation

Nature of operation (B2_q212)
File: Block-2-particulars of operation and background information of enterprises-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 334474
Invalid: 0

Interviewer instructions

This item intends to capture the seasonality of the enterprise under survey. The guiding principle will be the duration of operation of the enterprise during the reference period.

No. of months operated-last 365 day (B2_q213)
File: Block-2-particulars of operation and background information of enterprises-records

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0

Valid cases: 334473
Invalid: 1

Interviewer instructions

Number of months operated by the enterprise in the last 365 days will be recorded against this item. Entry against this item will be recorded in whole numbers only. An operating month does not mean a complete calendar month in which the enterprise has operated with full intensity. Suppose, in a particular month the enterprise has operated only for 5 days. Even then, that month will be counted as an operating month. It may also be ensured that the fractional months in the beginning or end of the reference period are not missed in calculation. The idea is that a month should mean a block of 30 days and not always a completed calendar month.

No. of hours worked-last 30 days (B2_q214)
File: Block-2-particulars of operation and background information of enterprises-records

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0

Valid cases: 333745
Invalid: 729

Literal question

No. of hours worked-last 30 days (B2_q214)
File: Block-2-particulars of operation and background information of enterprises-records

Number of hours the enterprise normally worked in a day during the last 30 days:

Interviewer instructions

In these items, normal working hours in a day within the reference month will be recorded. Days within the reference month will be considered to get the required number of hours. If data for the enterprise is recorded from books of accounts, 'month' means the last month of the accounting year.

Whether accounts maintained? (B2_q215)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 334460
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

If the enterprise maintains books of accounts, code against this item will be 1, otherwise, code will be 2.

Whether cllected from books of a/c (B2_q216)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 46759
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

If the owner makes available the books of accounts of the enterprise to the Investigator for use in filling in the schedule, code against this item will be 1, otherwise code will be 2.

Whether problems faced last 365 day (B2_q217)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 334472
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

If the enterprise faced any problem in its operation during last 365 days, then code against this item will be 1, otherwise code will be 2.

Nature of problems faced first (B2_q218)
File: Block-2-particulars of operation and background information of enterprises-records

Nature of problems faced first (B2_q218)
File: Block-2-particulars of operation and background information of enterprises-records

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 114308
Invalid: 0

Interviewer instructions

Nature of problems faced in its operation during the last 365 days: Different types of problems faced by the enterprises in their day-to-day operation during the last 365 days will be recorded against this item in terms of codes. At most two codes may be entered according to the severity of the problems.

Nature of problems faced next (B2_q219)
File: Block-2-particulars of operation and background information of enterprises-records

Marketing Agreement? (B2_q233)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 334456
Format: character	Invalid: 0
Width: 1	

Literal question

Whether the enterprise has any prior marketing agreement with other units?

Interviewer instructions

It is first assessed if the enterprise has prior marketing agreement with other units. Here the agreement is the forward one i.e. agreement providing market for goods and services produced or traded by the sample enterprise. The other party in the agreement may either use the received goods and services for their operation and further value addition or market it through its marketing channel. If such an agreement exists, code 1 will be recorded; otherwise code 2 will be recorded.

Supply out of procedure covered in agreement (B2_q234)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 8950
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

If yes in item 233, it will be ascertained if the agreement covers whole produce/ services or part of the produce/ services produced by the sample enterprise.

coverage agrrement with other units (B2_q235)
File: Block-2-particulars of operation and background information of enterprises-records

File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 8918
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

does the agreement cover post agreement input price escalation? In order to assess the flexibility of the agreement in favour of the sampled enterprise, it is ascertained if the agreement covers post-agreement input price escalation (yes-1, no-2).

% of payments recd (B2_q237)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Continuous	Valid cases: 8874
Format: numeric	Invalid: 325600
Width: 3	
Decimals: 0	

Interviewer instructions

percentage of payments generally received at the time of sale / delivery under the agreement: Sometimes, the business transaction in the agreement allow credit period of payment. Such credit period may not be specifically mentioned in the agreement but may be in vogue as normal market practice. This item only assesses the percentage of payments generally received by the sample enterprise at the time of delivery/sale to the other unit with which it has entered into the agreement. If the sample enterprise received full payment on delivery/sale, it is 100 percent otherwise it will be one or two digit as the case may be.

Whether supplying to single unit (B2_q238)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 8924
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

This item also assesses the flexibility of the enterprise in the agreement by ascertaining whether the enterprise is supplying goods and services to a single parent unit (yes-1, no-2).

Wherther parent unit remained same (B2_q239)
File: Block-2-particulars of operation and background information of enterprises-records

Overview	
Type: Discrete	Valid cases: 5142
Format: character	Invalid: 0
Width: 1	

Literal question

If yes in item 238, whether the parent unit has remained more or less the same in the past three years (only in case of enterprise existing for three or more years)

Interviewer instructions

Only in case of those enterprises existing for more than three years and with yes in item 238, it is ascertained if the parent unit has remained more or less the same in the past three years (yes-1, no-2).

Interviewer instructions

Items 241-251: It is possible that the sample enterpriseis engaged in more than one activity (e.g. manufacturing and trading; hotel and transportation and so on) during the reference period. Eleven broad activities are listed against different items of this block. Against each item record 1 if the enterprise is pursuing the corresponding activity; else code 2 will be recorded. It may be noted that if code 1 is recorded against any particular activity, one should expect corresponding entries of operating expenses/ receipts in the related sub-blocks/blocks in blocks 3 to 6.

Interviewer instructions

All expenditure is to be recorded on payable basis.. If some expenses are made on a yearly or half-yearly basis, those are to be properly apportioned for the reference month and recorded. For items where payments are not yet made, payable amount may be obtained and recorded. There are, of course, some common items in blocks 3 and 4. It must be noted that items will first be filled in block 3 and only those not covered in that block, will be filled in block 4. i.e. block 3 will get priority over block 4.

Interviewer instructions

This block has 17 items. These will cover fuels, lubricants, electricity charges, packing materials, consumable stores, postal charges, stationery cost, taxes paid, etc. Expenditure on minor repair and maintenance of fixed assets and charges for work done by other concerns (whether paid or payable) are also to be taken care of. Cost of transportation of goods (raw materials) from the source of supply to the site of the enterprise and the commission paid to the purchasing agents for this purpose will also appear in this block.

Details are given in instruction manual

Item Code (1001 - 1009) (B10_c2)
File: Block-10-Fixed assets-records

Overview

Type: Discrete	Valid cases: 1261956
Format: character	Invalid: 0
Width: 4	

Description

Assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities are classified as fixed assets. The distinguishing feature of a fixed asset is not that it is durable in some physical sense, but that it may be used repeatedly or continuously in production over a long period of time, which is taken to be more than one year.These cover all goods, new or used, that have a normal economic life of more than one year from the date of purchase. Fixed assets include not only structures, machinery and equipment but also intellectual property products such as softwares or artistic originals that are used in production. It may be noted that the assets to be considered here are assets of the enterprise. Hence, if owner of a proprietary enterprise has made some investments (like NSC, PPF, etc.) in her/his personal capacity, these will not be considered here.

Market Value of Assets - Owned(Rs) (B10_c3)
File: Block-10-Fixed assets-records

Overview

Type: Continuous	Valid cases: 1138731
Format: numeric	Invalid: 123225
Width: 10	Minimum: 0
Decimals: 0	Maximum: 4010800000
Range: 0-4010800000	Mean: 259313
	Standard deviation: 7011283.5

Literal question

market value of owned assets as on lastrket value untse filled only for enterprises who supplyersonal savings, these will not be recorded here. ts, loans and advanc day of the reference year:

Interviewer instructions

Market Value of Assets - Owned(Rs) (B10_c3)
File: Block-10-Fixed assets-records

This column will be filled for all enterprises. Value of the owned fixed assets as on last date of reference period shall be recorded here. If an enterprise provides information from its books of accounts, net closing value, i.e., closing value after depreciation as per the books may be recorded. However, for oral enquiry, market value, i.e., value that the equipment will fetch, if sold in the open market in present condition, is to be ascertained and recorded in this column.

Market Value of Assets - hired(Rs) (B10_c4)
File: Block-10-Fixed assets-records

Overview	
Type: Continuous	Valid cases: 248514
Format: numeric	Invalid: 1013442
Width: 10	Minimum: 0
Decimals: 0	Maximum: 3500000000
Range: 0-3500000000	Mean: 603500
	Standard deviation: 10896112.6

Literal question

market value of hired assets as on lastrket value untse filled only for enterprises who supplyersonal savings, these will not be recorded here. ts, loans and advanc day of the reference year:

Interviewer instructions

Market value of hired assets is to be ascertained and recorded in this column.

Decimals: 0	
Range: 1-1	

Net Addition(Rs) (B10_c5)
File: Block-10-Fixed assets-records

Overview	
Type: Continuous	Valid cases: 109939
Format: numeric	Invalid: 1152017
Width: 10	Minimum: 0
Decimals: 0	Maximum: 1172792000
Range: 0-1172792000	Mean: 111981.6
	Standard deviation: 5335581.9

Literal question

Net additions during last 365 days

Interviewer instructions

In this column information regarding net additions to the fixed assets owned during last 365 days will be recorded. Net addition may be obtained by subtracting depletion of assets from the addition made during last 365 days.

Monthly Rental payable(Rs) (B10_c6)
File: Block-10-Fixed assets-records

Monthly Rental payable(Rs) (B10_c6)
File: Block-10-Fixed assets-records

Overview	
Type: Continuous	Valid cases: 242045
Format: numeric	Invalid: 1019911
Width: 7	Minimum: 0
Decimals: 0	Maximum: 5667000
Range: 0-5667000	Mean: 2018.4
	Standard deviation: 20252.5

Literal question

Monthly rental payable on hired assets

Interviewer instructions

The rental payable for the reference month on the hired assets by the enterprise will be recorded in this column. If no rent is payable for any asset put '0' in column (6) for that particular type of asset with appropriate remarks in block 15. If an enterprise is located in a rented house where the household resides as well, rent may be imputed on the basis of floor area occupied by the enterprise. For rent paid in kind, imputed value may be given. If the enterprise runs in one's own house, rent need not be imputed.

Literal question

did the enterprise use computer/s during <reference period> ?

Interviewer instructions

A computer refers to a desktop or a laptop computer. It does not include equipment with some embedded computing abilities such as mobile cellular phones, personal digital assistants (PDA) or TV sets. If the enterprise used computers as defined above, code 1 will be recorded, otherwise code 2 will be recorded. It may be mentioned here that the enterprise might have used owned computers or hired computers.

Use of ICT :Item Code 1302 (B13_q1302)
File: Block-13-Use of ICT-records

Overview

Type: Discrete	Valid cases: 334379
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet during <reference period>?

Interviewer instructions

The Internet is a worldwide public computer network. It provides access to a number of communication services including the World Wide Web and carries email, news, entertainment and data files, irrespective of the device used (not assumed to be only via a computer - it may also be by mobile phone, games machine, digital TV, etc.). Access can be via a fixed or mobile network. It may be noted that even if the answer against item 1301 is 'no', answer to this question can still be 'yes' because the enterprise may access the internet by mobile phone, games machine, digital TV, etc.

Type: Discrete
Format: character
Width: 1

Valid cases: 16637
Invalid: 0

Literal question

: does the enterprise have a web presence as on the date of survey?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1301. A web presence includes a website, home page or presence on another entity's website (including a related business). It excludes inclusion in an on-line directory of any other web pages where the business does not have control over the content of the page.

Use of ICT :Item Code 1304 (B13_q1304)
File: Block-13-Use of ICT-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 16545
Invalid: 0

Literal question

does the enterprise have an intranet as on the date of survey?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1301. An intranet refers to an internal communications network using Internet protocols and allowing communication within an organization (and with other authorized persons). It is typically set up behind a firewall to control access.

Use of ICT :Item Code 1305 (B13_q1305)
File: Block-13-Use of ICT-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 9508
Invalid: 0

Literal question

did the enterprise receive orders for goods or services (that is, make sales) via the Internet during <reference period>?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1302. Orders received include orders received via the Internet whether or not payment was made online. They include orders received via websites, specialized Internet marketplaces, extranets, EDI over the Internet, Internet-enabled mobile phones and email. They also include orders received on behalf of other organizations - and orders received by other organizations on behalf of the enterprise. They exclude orders that were cancelled or not completed.

File: Block-13-Use of ICT-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 9491
Invalid: 0

Literal question

did the enterprise place orders for goods or services (that is, make purchases) via the Internet during <reference period>?

Interviewer instructions

Use of ICT :Item Code 1306 (B13_q1306)
File: Block-13-Use of ICT-records

This question is applicable to those enterprises answering 'yes' to item 1302. Orders placed include orders placed via the Internet whether or not payment was made online. They include orders placed via websites, specialized Internet marketplaces, extranets, EDI over the Internet, Internet-enabled mobile phones and email. They exclude orders that were cancelled or not completed.

Use of ICT :Item Code 1307 (B13_q1307)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 10137
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise connect to the Internet by narrowband?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1302. Narrowband includes analogue modem (dial-up via standard phone line), Integrated Services Digital Network (ISDN), Digital Subscriber Line (DSL) at speeds below 256 kbit/s, and mobile phone and other forms of access with an advertised download speed of less than 256 kbit/s.Narrowband mobile phone access services include CDMA 1x (Release 0), GPRS, WAP and imode.

Use of ICT :Item Code 1308 (B13_q1308)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9533
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise connect to the Internet by fixed broadband?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1302. Fixed broadband refers to technologies such as DSL, at speeds of at least 256 kbit/s, cable modem, high speed leased lines, fibre-to-the-home, powerline, satellite, fixed wireless, Wireless Local Area Network (WLAN) and WiMAX.

Use of ICT :Item Code 1309 (B13_q1309)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9486
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise connect to the Internet by mobile broadband?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1302. Mobile broadband access services include Wideband CDMA (W-CDMA), known as Universal Mobile Telecommunications System (UMTS) in Europe; High-speed Downlink Packet Access (HSDPA), complemented by High-Speed Uplink Packet Access (HSUPA); CDMA2000 1xEV-DO and DCMA 2000 1xEV-DV. Access can be via any device (mobile cellular phone, laptop, PDA, etc. One example of mobile broadband is Tata Photon Plus.

Use of ICT :Item Code 1311 (B13_q1311)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 16288
Format: character	Invalid: 0
Width: 1	

Literal question

does the enterprise have a local area network (LAN) as on the date of survey?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1301. A LAN refers to a network connecting computers within a localized area such as a single building, department or site; it may be wireless.

Use of ICT :Item Code 1312 (B13_q1312)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 16252
Format: character	Invalid: 0
Width: 1	

Literal question

does the enterprise have an extranet as on the date of survey?

Interviewer instructions

This question is applicable to those enterprises answering 'yes' to item 1301. An extranet is a closed network that uses Internet protocols to share securely a business' information with suppliers, vendors, customers or other business partners. It can take the form of a secure extension of an intranet that allows external users to access some parts of it. It can also be a private part of the business' website, where business partners can navigate after authentication.

Use of ICT :Item Code 1313 (B13_q1313)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9537
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for sending and receiving e-mail?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.

Use of ICT :Item Code 1314 (B13_q1314)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9500
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
VoIP refers to Voice over Internet Protocol.

Use of ICT :Item Code 1315 (B13_q1315)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9534
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for getting information about goods and services?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.

Use of ICT :Item Code 1316 (B13_q1316)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9508
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for getting information from general government organizations?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
General government organizations include central, state and local governments

Use of ICT :Item Code 1317 (B13_q1317)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9441
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for interacting with general government organizations?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
This includes downloading/requesting forms online, making online payments and purchasing from, or selling to, government organizations. It excludes getting information from government organizations.

Use of ICT :Item Code 1318 (B13_q1318)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9442
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for internet banking?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
This includes electronic transactions with a bank for payment, transfers, etc. or for looking up account information

Use of ICT :Item Code 1319 (B13_q1319)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9415
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for accessing other financial services?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
This includes electronic transactions via the Internet for other types of financial services such as purchasing shares (stocks), financial services and insurance.

Use of ICT :Item Code 1321 (B13_q1321)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9412
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for providing customer services?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
This includes providing online or emailed product catalogues or price lists, product specification or configuration online, after-sales support, and order tracking online.

Use of ICT :Item Code 1322 (B13_q1322)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9404
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for delivering products online?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
This refers to products delivered over the Internet in digitized form, e.g. reports, software, music, videos, computer games; and online services, such as computer-related services, information services, travel bookings or financial services.

Use of ICT :Item Code 1323 (B13_q1323)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9397
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for internal or external recruitment?

Interviewer instructions

Use of ICT :Item Code 1323 (B13_q1323)
File: Block-13-Use of ICT-records

applicable to enterprises answering 'yes' to item 1302.
This includes providing information about vacancies on an intranet or website, and allowing online applications

Use of ICT :Item Code 1324 (B13_q1324)
File: Block-13-Use of ICT-records

Overview	
Type: Discrete	Valid cases: 9326
Format: character	Invalid: 0
Width: 1	

Literal question

did the enterprise use the Internet for staff training?

Interviewer instructions

applicable to enterprises answering 'yes' to item 1302.
This includes e-learning applications available on an intranet or from the World Wide Web.

Persons used computers (B13_q1325)
